

WALL STREET ROAD STOCK RISE MARKS DAY'S TRADE

Signs of Easing Credit Conditions, Coupled With Continuance of Favorable Trade News Influences.

CALL MONEY DOWN
TO SEVEN PER CENT

Olds Prominent in Late Upward Movement—American Can Reaches New Top.

NEW YORK, April 12.—Signs of easing credit conditions, coupled with a continuance of favorable trade news, furnished the background for a broad advance in prices in today's stock market. Despite rather heavy week-end profit taking and sporadic bear selling of some of the speculative issues, a long list of stocks were pushed up 1 to nearly 3 points, with at least a dozen moving into new high ground for the year.

Speculative orders increased when call money went down to 7 per cent in the afternoon, the offering considerable benefit from a new buying. The Standard Oil group and the Pan American made the best showing. Specialties like du Pont, Real Silk, Hosiery, International Chemical Engineering, Allied Chemical and Hensley Chocolate were up 3 to 5 points. United Aircraft rose 10 points. Total sales were 3,455,420 shares.

Time Money Eases.
Call money renewed at 9 per cent and then dropped 8 as banks which have been accumulating funds in anticipation of the long maturity payments next Monday, seized an opportunity to employ these funds at highly profitable rates over the week-end. Time money, which has been on a flat per cent basis, about 10 per cent, also eased, the long maturity being offered at 8 1/2 per cent. While this is still a stiff charge to pay on speculative commitments, Wall street seemed more interested in the trend than in the rate itself. The decline of 115,000,000 in brokers' loans, bringing the total down to \$266,000,000 below the record high established a few weeks ago, and the increase from 81 to 83 per cent in the New York Federal Reserve Bank ratio, and from 71.5 to 72.8 per cent for the system as a whole, also helped to breed bullish confidence.

Chicago Rate Unchanged.
Directors of the Chicago Federal Reserve Bank meeting today followed the action of the New York directors yesterday in making no change in the 5 per cent rediscount rate.

Trade among the few important groups which failed to participate extensively in the upturn. Recent sluggishness of these "lows" is attributed to the growing speculative belief that the forthcoming O'Hanlon case decision by the United States Supreme Court might not definitely settle the troublesome valuation and rate problem.

Some New Highs for Year.
Extension of purchase price advances brought fresh buying into the oil shares, but the early gains were held to a point or two. U. S. Steel common was again in the forefront of the advance, touching a new high on the current upswing. Radio Corporation common again closed close to par after dropping sharply when weakness cropped out in some of the other radio shares earlier in the week. At the close Radio was 3/4 point net higher at 26 1/4.

New high records for the year were established by a variety of issues, including American Can, Burmah Adding Machine, C. Co., Stromberg Carburator, Texas Gulf Sulphur, United Aircraft and Yellow Truck and Coach.

Post-Dispatch Stock Market Final

BEGINNING tomorrow with the opening of the baseball season, the Post-Dispatch will adopt its usual sports editions schedule. Late editions will carry the Sport Section, printed on Salmon-tinted paper, outside.

The "WALL STREET" column will appear on page 1 of the Main News Section, as now, and the New York stock tables will be found in their usual position.

The Sports edition containing the Stock Market closing prices will be on sale about 4 o'clock as usual.

ALLIES REPARATION GROUP AGREE ON GERMAN TERMS

Total Annuities Sought by Creditor Nations Understood to Be \$24,000,000,000.

By the Associated Press.

PARIS, April 12.—The Allied Powers reparations experts have agreed to terms which will be submitted to Dr. Hjalmar Schacht, head of the German delegation, tomorrow.

\$500,000 EACH FOR ST. LOUIS AND WASHINGTON UNIVERSITIES

Final Settlement of Estate of John F. Lee, Lawyer, Who Died in 1926.

Washington and St. Louis Universities each will receive slightly more than \$500,000 from the estate of John F. Lee, lawyer, who died in November, 1926, according to a final settlement of his estate, approved by Probate Judge Holcomb today. Washington receives \$502,655 and St. Louis University \$502,423.

Lee left his estate in trust during the lives of his sister, Mrs. Anna Lee Harrison, and brother, William H. Lee, both of whom have died. The estate was valued at \$1,439,375, of which \$482,647 was distributed in specific bequests, claims, taxes and executor's fees. The will provided that the two universities were to share equally in the residue.

MRS. HOOVER BEAUTIFYING GROUNDS AT WHITE HOUSE

WASHINGTON, April 12.—A touch reminiscent of the Palo Alto home of President Hoover is being planned by Mrs. Hoover for the rear grounds of the White House.

Just west of the rear portico of the executive mansion is a group of magnolia trees, and in the bowers formed by these, she has re-created the placing of a flagstone flooring. Benches and chairs will be arranged in the leafy alcove. Here on pleasant afternoons she will find a nook to chat with friends, work on correspondence, and also serve tea.

MARION TALLEY QUITS OPERA AND WILL BUY FARM

Kansas City Singer, 22, Abandons Professional Work After Making \$300,000 in Three Years.

REFUSES TO GIVE SPECIFIC REASON

Sudden Decision a Surprise to Associates—To Go West With Her Family After May 4.

By the Associated Press.

NEW YORK, April 12.—Marion Talley, in an interview with the Associated Press today, would not give any specific reason why she has decided to throw up her job as a prima donna with the Metropolitan Opera Company and take to farming.

"I've just decided to retire, that's all," she said with a smile.

There have been reports of friction between Miss Talley and the management of the Metropolitan, but these, she said, were not true. She also denied a published report indicating that she was being "shoved out" of the Metropolitan.

She said she was to have signed her contract for the coming season today.

By Leased Wire from the New York Bureau of the Post-Dispatch.

NEW YORK, April 12.—Marion Talley announced last night she would make no further professional concert or opera appearances after this season.

The young coloratura soprano, who has been in the spotlight since she was 17, has been in the Metropolitan Opera House Feb. 17, 1926, as Glia in "Rigoletto." She was 17 then and the event occasioned a great storm of enthusiasm as probably has greeted any other singer in the world.

Miss Talley is now 22 years old and persons who have followed her career estimate that in three years she has been in public life she has accumulated a fortune of \$300,000.

She will go west with her family following her next appearance, May 4, in Cleveland, where she will sing in "Lucia" with the Metropolitan Opera Company. She said she would travel leisurely through the Middle West, with the intention of buying a farm. If she finds nothing in the Middle West she may go to Colorado or California.

With her father, mother and sister Florence she will retire to this farm. Miss Talley intends to go in for agriculture in a practical way.

Decision Unexpected.

Her decision was apparently unexpected by her closest associates in the musical world. Yesterday she sang the role of Philline in "Mignon" at a benefit performance before a large audience and was called before the curtain time and time again by a following that seemed as enthusiastic as it ever had been.

At the conclusion of the opera she talked for an hour with Director Tuller-Cazazza, and a final conference today was to have decided her contract with the Metropolitan for next year, which would have been her fifth at the opera—she was with the opera a year before her solo debut.

Then she went to her home and telephoned to her concert manager, George Engles, asking if he could see her at once. When he got there she told him she had decided to retire if he would release her from his contract, which called for concert appearances for the next two years. She gave no reason, Engles said, and seemed happy when he consented. On Miss Talley's behalf, Engles then made public her announcement.

Numerous rumors at once began to circulate as to possible causes of her decision. One report had it she was to appear in the talkies. Another was that the singer, despite the continued enthusiasm of the public, was dissatisfied with the progress she had made in her singing—an explanation that would conform with opinions of her voice often expressed by some of the critics, who asserted her voice was cold and unreflexible, and that she was unable to act. Still another report was that the announcement was a publicity stunt, designed to obtain for Miss Talley more and better contracts.

Marion Talley was born in Nevada, Mo., and was taken to Kansas City to live when a baby. She began to sing in her cradle, her mother was fond of saying, and as a girl became a church singer.

By the time she reached her teens she had become the pride of

GERMANY MAKES NEW MOVE FOR ARMS REDUCTION

Proposal for Progressive Disarmament to Be Submitted to Commission That Convenes Monday.

PLAN BACKED BY RUSSIA

Indorses Idea to Have Five Big Powers Create Committee to Cut Down Naval Forces.

WASHINGTON, April 12.—Ambassador Gibson as chairman of the American delegation to the preliminary arms conference at Geneva, has received no instructions to initiate any new naval limitation conference, nor are there any negotiations either formal or informal now in progress looking to that end.

In official circles it was said today that the sole purpose of the mission was to seek to work out technical details which might become the basis for consideration at a future conference called either under the auspices of the League of Nations or participated in independently by the chief naval powers.

By ALBIN E. JOHNSON, Staff Correspondent of the Post-Dispatch and New York World.

Copyright, 1929, by the Press and Publisher of the New York World and Post-Dispatch.

GENEVA, April 12.—The German government will ask today for tomorrow, both at Berlin and Geneva, for a new declaration of policy regarding world disarmament. The document, of a highly technical nature, is regarded in League circles as the most important move for world peace made within the present decade.

It outlines an elaborate, detailed program for progressive reduction and limitation of armaments, both military and naval. It also indorses the suggestion of Jonker Louden of Holland, president of the League of Nations Preparatory Disarmament Commission which convenes here next Monday.

The German proposal, which is being sent to the United States, Great Britain, France, Japan and Italy—create a subcommittee for discussion of a basis for naval armament reduction to which the deliberations of the present commission's deliberations end.

Officials of the League secretariat learned the substance of the new German disarmament proposals through telephone conversations with Berlin. This German maneuver, coming on the eve of the general election in England, is regarded as highly significant in some reactionary circles.

By forcing discussion of the subject on the British government, the German move is intended to have a direct effect on the British election.

Backed by Russia.

Support by the Russians and Germans of the same disarmament policy as that of the Labor party in Great Britain may act as a political boomerang upon the British electorate. Count von Bernstorff's proposal for the fullest publicity as to existing armaments as well as for contemplated expenditures already is before the commission. It will be stressed in the German memorandum.

The Berlin Government's announcement that it will not talk inferentially and diplomatically, the Versailles treaty and the covenant pledges which members of the League evaded for the past 10 years.

It is understood the German delegates to the preparatory disarmament commission will point out that the Kellogg pact against war, arbitration treaties and the compulsory arbitration feature of the League of Nations are all security for beginning armaments limitation.

There also is a likelihood, the correspondent learned, that the Swedish delegation will submit statistics on the armament expenditures of all countries of the world, including their own, during the past war period, and ask why every country, despite peace talk and League obligations, still is increasing its armament budgets.

Two Issues to Come Up

Two of the most important features of the commission's discussions which begin Monday with the arrival of delegations from 29 countries already have been determined upon. First of these is the assumption that the question of security can be regarded as definitely settled so far as such settlement as the League of Nations is concerned. Second is that the Russian pro-

12 OF BYRD CREW LAND IN U. S., TELL OF GREAT PERILS

Members of Ship Personnel, Sent Back From Antarctic Base, Describe Struggles With Storms.

WON FIGHT AGAINST GALES AND SLEET

Lieut. Adams Says Vessel Came Near Being Frozen in on Return Voyage to New Zealand.

By the Associated Press.

SAN FRANCISCO, Cal., April 12.—Twelve members of Commander Richard E. Byrd's antarctic expedition arrived today to describe the struggles of the explorer in repeated encounters with the forces of nature.

The 12 men who arrived here are from the crews of the City of New York and the Eleanor Bolling, who came from New Zealand to await a call from the antarctic expedition to return to the party.

Speaking for the party, Lieut. Harry Adams said, "Press reports as to the progress of the expedition had been constantly coming from the base at the barrier, but little has been said of the heart-breaking struggles against hurricanes, mountainous seas and the blind sleet which we had to overcome before the expedition was landed safely 89 degrees South, just 600 miles short of the pole itself."

Lives of 20 in Danger.

"These men have survived a crumbling of the ice barrier when the lives of 20 men were in jeopardy, and they responded nobly when, in the disintegration of ice at the Bay of Wales, the expedition escaped disaster by the closest of margins."

"When the full story of the expedition is told, the writer believes the most enthralling chapter will be this epic of exploration where a handful of men carried their ship to the farthest and most inhospitable spot of the globe."

"It was the single incident of the passage of the New York from the ice barrier to Dundin, New Zealand, on her way back is a marvelous tribute to the ingenuity and courage embodied in the whole expedition."

Here 20 men, constituting the crew of the City of New York, having landed every possible ounce of coal and stores at the base, so that their fellows might remain comfortable during the winter of cold and darkness to come, resolutely faced an ever thickening ice pack in the face of a possible freeze-in. Far away from any possible aid, they set forth on the return to the nearest land 2500 miles distant.

Caught in Ice Pack.

"With every rope swollen by ice coverings to 10 times the original diameter, an ever-growing belt of ice forced the ship, and under the intense cold of a thermometer registering 29 degrees below zero, my companions found the ice pack in 10 inches of water."

"Even as they struggled to crush the way of their craft through, the ice grew thicker and more impenetrable. It seemed now that the ship and crew were destined to be frozen in for the winter and it is known that the ice pack drifts southward and that huge icebergs constantly crush through the pack."

"Then too there was the thought of ever-diminishing coal supply at the Byrd expedition base, cut down because of the failure of the Eleanor Bolling to make a last precious trip to the base and the approach of total darkness."

"Nothing short of a miracle saved the ship, for the ice pack opened in a half mile and permitted the New York under a press of sail with the propeller pounding the ice floes to forge into a belt of thinner ice."

Finally Finds Way Out.

"Yet here, even when the ship had come into clear water once more, there seemed no passage through the surrounding belt of ice. Says the City of New York: 'We fought some channel out of this narrowing harbor until finally one was found that led to clear water and comparative safety.'"

SOUTHERN CROSS FLYERS, MISSING 12 DAYS, FOUND IN WILDS OF AUSTRALIA

ROY C. TOOMBS IS ONLY WITNESS IN OWN BEHALF

Defense Closes After He Denies Felonious Intent in Overissue of International Life Stock.

SAYS HE REPLACED IT WITH VALID SHARES

First Trial of Ex-President of Firm, Said to Have Removed \$3,500,000 of Its Assets, Nears End.

By the Associated Press.

ROY C. Toombs, president of the defunct International Life Insurance Co., testifying today as the only witness in his own behalf before Judge Hartmann, said that when he caused an overissue of 9000 shares of the insurance company's stock Jan. 17, 1928, he had control of a like number of shares of the same stock.

This was the main defense to the charge of procuring the issuance of false certificates of stock. He admitted responsibility for issuance of the unauthorized certificates in question, but denied felonious intent.

This was the first trial of Toombs, now under indictment in four jurisdictions for the involved transactions by which he removed \$3,500,000 from the insurance company's assets, throwing it into bankruptcy.

Toombs' counsel urged that, as he controlled valid stock of the insurance company, and later substituted valid stock for the overissued stock as collateral on a \$500,000 Texas loan, he should not be convicted of acting with fraudulent purpose. The reason he could not get the valid stock when he first needed it was collateral, the defense contended, was the obstruction of other interested persons, from whom he had lately acquired control of the company.

The defense closed its case at noon after Toombs finished his testimony. At 12:26 p. m. after one rebuttal witness, the case was closed. The case will go to the jury this evening.

Toombs Describes Career.

Toombs, who is 41 years old, began his testimony by telling of his early life in Kansas, and his removal in 1916 to Chicago, where he became head of a brokerage concern, Toombs & Daily.

He told of coming to St. Louis in the spring of 1927, to buy control of the International Co. of St. Louis, holding corporation for the stock of the International Life Insurance Co. The stock of the holding company was purchased by him from 12 men, including W. H. Whitfield, David W. Hill, John M. Atkinson and August Schaffly.

Toombs said he bought the 2000 shares of common stock of the holding company from their owners for \$3,101,211, paying \$2,000,000 cash June 22, 1927, and the balance Oct. 1, in notes and securities.

The chief assets of the International Co. at that time, he said, were 23,624 shares of stock of the International Life Insurance Co. He mentioned other assets of about \$600,000, all connected with the International Life Insurance Co.'s business. He estimated the assets at "about \$2,500,000 in all." Of the 23,624 shares of the insurance company's stock in possession of the holding company, Toombs said 12,554 shares were pledged for loans.

His Story of Overissue.

Before he bought control of the holding company, Toombs said it had placed 7700 shares of the insurance company with the Great Southern Insurance Co. of Texas, as security for a \$500,000 loan. He then told of the later development of this loan, which was the occasion of the overissue of stock. Toombs at one time furnished stock of Toombs & Daily as security, but E. P. Greenwood, president of the Great Southern, informed him that the Texas insurance authorities disapproved of this. So he undertook to substitute stock of the insurance company.

Toombs told how the board of directors of the holding company, Jan. 5, 1928, voted to transfer to him some 15,000 shares of the insurance company's stock, to be paid for in bonds. He said that

FLYERS FOUND CAPT. CHAS. KINGSFORD-SMITH

SEARCHING PLANE SIGHTS FOUR MEN AND DROPS FOOD

Steamer Goes to Pick Up Kingsford-Smith and 3 Companions, Hundreds of Miles Off Course.

AVIATORS VANISHED ON WAY TO ENGLAND

Craft Forced Down but Crew Appears Safe and Well—Two of Rescue Party Unreported.

By the Associated Press.

SYDNEY, New South Wales, April 12.—After being lost 12 days in the wilds of northern Australia, Capt. Charles Kingsford-Smith and his three companions of the airplane Southern Cross were found today by the plane Canberra.

Brief messages from the Canberra to a radio receiving station at Darwin, Northern Territory, told of sighting the missing plane, which once flew from California to Australia. The Canberra said the four flyers appeared safe and well. Food was dropped to them.

Capt. Holden, piloting the Canberra, said the plane was on a mud flat about 20 miles south from Port George Mission Station, which is on the Prince Regent River about 130 miles east of Derby. This would indicate that when Kingsford-Smith sent the message just before he made his forced landing that he was "about 100 miles east of Wyndham" he was instead hundreds of miles off the path from Sydney to Wyndham, a leg which was to be the first of an attempt to break the flight record between Australia and England.

Steamer on Way to Flyers.

A steamer will leave Broome, Western Australia, this afternoon for the mouth of the Glenelg River to pick up the flyers. The place where the plane came down is about 250 miles by sea from Broome.

NATIONAL BEDELL

WEEK of SALES

Note the Bedell Values in

Coats

Four Concentrated Groups awaiting the Bedell shopper, tomorrow!

Coats of broadcloth, kashmir, silk faille, silk bengaline, novelty woolens... trimmed effectively, the majority of them, with favorite furs... in tans, black, gray, blues... scarf styles, cape versions, Princess silhouettes, travel types.

\$12.95
\$18

Furred Coats
\$24.75

In the new silhouettes, rich with furring, available in the newer wool and silk weaves, offering a wide choice of Spring colors.

Distinctive Coats
\$38

A rare group—beautiful models! Satin, kasha, broadcloth, velvet, silk faille, silk bengaline—lavish with the finer furs.

Note the Bedell Values in Smart Wool Ensembles

Cheviots, tweeds, and novelty woolens... in grays, tans, navy, brown and other Spring favorites... in practically every version of the ensemble mode... jackets with skirt and silk blouse, and three-quarter coats with printed or plain silk frock... deftly tailored... smart!

\$25

SENATE DELAYS BILLS ON COUNTY PLANNING

Opposition by Senator Casey
Holds Action on Progressive
Measures.

By CURTIS A. BETTS,
A Staff Correspondent of the Post-
Dispatch.

JEFFERSON CITY, April 12.—Action on the county planning bills, designed primarily to enable St. Louis and St. Louis County to keep abreast of progressive cities and counties in planning legislation, but applicable to the whole State, is being held up in the Senate Committee on Municipal Corporations through the influence of Senator Casey of Kansas City.

Casey's opposition prevented a favorable report on the bills at a meeting of the committee yesterday afternoon, when it had been expected they would be reported favorably.

Senator Kinney of St. Louis, chairman of the committee, said no action would be taken on the measures before next Tuesday, when he proposes to have a special meeting of the committee to consider them. He said that, if Casey continued his opposition, the bills would be left to a vote of the committee.

Arguments for planning legislation, and particularly for the measures under consideration, were heard from City Counselor Muench of St. Louis, Mayor Ruth of University City, Roy Jablonsky, county highway engineer, and Benjamin A. Wood, who appeared as a taxpayer.

At the conclusion of the arguments Casey voiced his opposition, announcing that the residents of Kansas City and Jackson County did not favor the bills, and that he considered them an interference with the rights of property owners.

Casey, an influential member of the Senate, being president pro tem, said he would continue his opposition.

The committee approved several amendments, sought by public utility interests and not opposed by the sponsors of the proposed legislation. It had been understood that with these amendments adopted, there would be no hindrance to sending the bills back to the Senate for action. Casey's attack was unexpected by the members of the committee, but no effort was made to put the bills to a vote.

Senator Willard of St. Joseph, a Republican member of the committee, said today he favored reporting the bills out as quickly as possible. He said sentiment in his district was favorable to them.

WOMAN EX-JUSTICE OF PEACE IS ACCUSED OF EXTORTION

Wealthy Resident of Galesburg
(Ill.) Says He Was Forced to
Sign Note for \$24,500.

By the Associated Press.

CHICAGO, April 12.—Miss Helen M. Carr, former Justice of the Peace of Galesburg, Ill., who married George Lewis after she had fined him for intoxication two years ago, is accused of extortion in an affidavit filed by D. W. Sullivan.

Sullivan, 67 years old and reputed to be one of Galesburg's wealthiest men, alleges he was forced to sign a note for \$24,500 in Miss Carr's favor when he was found, according to the affidavit, in her home by an uncle, David Farrell.

The affidavit states that Sullivan was summoned to Miss Carr's home Sept. 8, 1927, for a political conference; that her uncle appeared, brandishing a knife, and that the uncle demanded that Sullivan sign the note on the grounds that he had compromised Miss Carr.

Sullivan says he paid \$1500 on the note before Farrell told him he had been mistaken in the affair and had destroyed the paper. Last January, however, a judgment of \$24,500 was entered on the note without his being served in the suit, Sullivan said.

Miss Carr, who was Justice of the Peace at Galesburg from 1925 to 1928, has denied through counsel the charge, stating that the note was given by Sullivan in payment for her resignation from office "for political reasons."

TRIBUTES TO BISHOP BRENT Many Nations and Religions Rep- resented at Funeral.

By the Associated Press.

LAUSANNE, Switzerland, April 12.—To be buried simply and without ostentation was one of the last wishes of Bishop Charles H. Brent of the Episcopal Diocese of Western New York. Yet today many nations, religions and institutions spontaneously joined at his funeral in a reverent tribute to his greatness.

His own country was first in the long line of mourners today. Retiring Ambassador to England, Alanson B. Houghton, of the Bishop's own diocese, came especially from Germany to pay a last tribute to his friend, while Hugh R. Wilson, Minister in this country, joined in the official American tribute.

Piece of Pencil Taken From Leg.
A portion of a lead pencil was removed from the right leg of Dorothy Tanner, 19-year-old daughter of Mrs. Estelle Tanner, 4727 Terrace avenue, at City Hospital yesterday afternoon. An ambulance had taken her to the hospital from Long School, Morganford road and Walsh avenue. The girl was walking in an aisle in her classroom when another pupil suddenly opened a desk drawer. A pencil, protruding from the drawer, penetrated that girl's leg and broke off.

SENATE LIKELY TO INVESTIGATE RESERVE BOARD

Demand Growing
quiry at Special
Into Failure to
Speculation.

EFFECT ON WEST BUSINESS IS

Capper and Brookhan
Congress to Take
Glass Dissatisfied
Federal Agency's E

By PAUL Y. ANDER
A Staff Correspondent of
Dispatch.

WASHINGTON, April 12.—The
failure of the Federal
Board to put an effective
stock speculation appear-
be the subject of a Sena-
gation during the special
Congress which opens Mon-
day for such an in-
quiry possibly to lay the found-
legislation designed to in-
flow of credit to stock ap-
is growing in Congress,
among members from the
tural states.

Senator Capper (Rep.)
and one of the most con-
servative of the Senate,
yesterday that recent he-
fore the Committee on A-
had demonstrated that
ulation was having a seri-
not only on agricultur-
Western business gener-
tracting money to New
was needed at home.
"We have listened to
complaints against West-
ers who refuse to lend
their own communities
they are able to swing
York and get from \$ to 2
interest in the call money
he said.

"Drunk With Specu-
lation" this situation has
stage where it is a men-
tional prosperity. Mill-
lars that are badly need-
are being sucked into Ne-
order that the stock mar-
go on with their gam-
game. The country is in
speculation, and we are
ing a point where it loo-
country's entire availabil-
will soon be bet on the
ket.

"Such a condition
criminal. Interest rate
parts of the country he
reached a level that
business cannot afford to
dustry and business
are being starved on
this gigantic gambling
less it is stopped soon t-
tain to be a crash. I th-
nation demands the im-
tentation of Congress. So
ity must put the brakes
The views of Senator
(Rep.), Iowa, are typ-
ical. He has announce-
favors a law which w-
all loans for speculatio-
by national banks. I
mands a general overha-
personnel of the pres-
Reserve Board.
Glass Dissatisfied W-
Senator Glass (Dem-
former Secretary of
and co-author of the
erve act, believes the
serve Board already
ficient power to deal
nation, but is dissatis-
way the present board
eased it.

Two warnings to ha-
board against excessive
speculative purposes,
a threat that "unless
operation is given by
board may adopt oth-
to deal with the situ-
not been effective, in-
of Glass and others,
spread report that t-
self is divided on the
parently has detract-
force of its warnings.
Glass asserts, how-
board's failure to dis-
E. Mitchell, presiden-
tional City Bank of
when he virtually
throwing \$25,000,000
money market. Ba-
bankers generally th-
"Does not mean busi-
demanded that Mit-
moved from his posi-
rector of the New

SENATE LIKELY TO INVESTIGATE RESERVE BOARD

Demand Growing for Inquiry at Special Session Into Failure to Curb Speculation.

EFFECT ON WESTERN BUSINESS IS CITED

Capper and Brookhart Want Congress to Take Hand—Glass Dissatisfied With Federal Agency's Efforts.

By PAUL Y. ANDERSON.
A Staff Correspondent of the Post-Dispatch.

WASHINGTON, April 12.—The failure of the Federal Reserve Board to put an effective curb on stock speculation appears likely to be the subject of a Senate investigation during the special session of Congress which opens Monday. Demand for such an investigation, possibly to lay the foundation for legislation designed to impede the flow of credit to stock speculators, is growing in Congress, especially among members from the agricultural states.

Senator Capper (Rep.) of Kansas, one of the most conservative members of the Senate, declared yesterday that recent hearings before the Committee on Agriculture had demonstrated that stock speculation was having a serious effect, not only on agriculture, but on Western business generally, by attracting money to New York which was needed at home.

"We have listened to numerous complaints against Western bankers who refuse to lend money in their own communities because they are able to ship it to New York and get from 8 to 20 per cent interest in the call money market," he said.

"Drunk With Speculation."
"This situation has reached a stage where it is a menace to national prosperity. Millions of dollars are being sucked into New York in order that the stock gamblers can go on with their gigantic poker game. The country is drunk with speculation, and we are approaching a point where it looks like the country's entire available resources will soon be bet on the stock market."

"Such a condition is almost criminal. Interest rates in some parts of the country have already reached a level that legitimate business cannot afford to pay. Industry and business everywhere are being starved in order to feed this gigantic gambling game. Unless it is stopped soon there is certain to be a crash. I think the situation demands the immediate attention of Congress. Some authority must put the brakes on."

The views of Senator Brookhart (Rep.) of Iowa, are even more radical. He has announced that he favors a law which will prohibit all loans for speculative purposes by national banks. He also demands a general overhauling in the personnel of the present Federal Reserve Board.

Glass Dissatisfied With Board.
Senator Glass (Dem.) of Virginia, former Secretary of the Treasury and co-author of the Federal Reserve act, believes that the Reserve Board already possesses sufficient power to deal with the situation, but is dissatisfied with the way the present board has exercised it.

Two warnings to bankers by the board against excessive lending for speculative purposes, coupled with a threat that "unless voluntary cooperation is given by bankers the board may adopt other measures to deal with the situation," have not been effective, in the opinion of Glass and others. The widespread report that the board itself is divided on the question apparently has detracted from the force of its warnings.

Glass asserts, however, that the board's failure to discipline Charles E. Mitchell, president of the National City Bank of New York, when he virtually defied it by throwing \$25,000,000 into the call money market, has convinced bankers generally that the board "does not mean business." Glass demanded that Mitchell be removed from his position as a director of the New York Federal Reserve Bank, but no action was taken.

EARTHQUAKE WAKES BOLOGNA FOR THIRD SUCCESSIVE DAY
Frightened People Gather in Squares of Italian Town; Little Damage Reported.

By the Associated Press.
BOLOGNA, Italy, April 12.—For the third successive morning residents of this city were awakened today and brought outdoors into streets and public squares by earth tremors. A fairly strong shock was felt at 1:26 a. m. The squares were filled with crowds of frightened people, many of whom, nervous from the shocks, stayed up all night. A second shock was felt at 6:20 a. m. Thus far little property damage has been reported, with no casualties.

SAYS POLO PLAYER KILLED HIMSELF OVER LOVE AFFAIR

Friend Asserts Capt. John P. Denning Was Upset on Account of Hopeless Suit.

By the Associated Press.
LONDON, April 12.—A hopeless love affair is thought to have been the motive which caused Capt. John Pitt Denning, international polo player, to shoot himself to death in a London hotel Tuesday night.

The coroner's inquest, which inquired into the mysterious death, has returned a verdict of suicide while of unsound mind. Capt. Denning himself, in a note, inti-

imated that his act might have been due to injuries which he suffered on the polo field 10 years ago.

A friend, Vivian Champion de Grespigny, testified he had seen the captain several times recently and that the latter was upset about a hopeless love affair.

Denning shot himself through the right eye with a revolver.

Reproduction of "Santa Maria."

By the Associated Press.
HUELVA, Spain, April 12.—A ship constructed to be as nearly similar to the bark "Santa Maria," which carried Christopher Columbus on his discovery voyage to America, will be launched here next Sunday.

THREE CENTRISTS APPROVED FOR THE GERMAN CABINET

By the Associated Press.

BERLIN, April 12.—President von Hindenburg yesterday approved the proposal of Chancellor Mueller to include three members of the Centrist party in the Cabinet. Those selected were former Chancellor Joseph Wirth, Theodore von Guericke and Adam Stegerwald.

Chancellor Mueller has been particularly anxious to strengthen his Government before the conclusion of the work of the international experts at Paris on revision of reparations. For some weeks the

Government position has been uncertain, which caused doubts to be held as to treatment likely to be accorded whatever recommendations Dr. Hjalmar Schacht, head of the German reparations experts, might see fit to make.

OVERCOME BY CARBON GAS, REVIVED BY INHALATORS

Fred Good Found Unconscious in Garage; Had Been Working on Motor.

Fred Good, 36 years old, a milk wagon driver, was revived by inhalators after being overcome yesterday by carbon monoxide gas while working on his machine, with the engine running, in a

closed garage in the rear of his home at 2992 South Compton avenue.

Neighbors were summoned when Good's 9-year-old daughter, Ethel, was unable to open the garage door, and the door was forced. Good was found unconscious in the rear seat of his machine.

The ignition was turned off. Good having apparently been able to reach the switch before losing consciousness.

He was unable to make a statement when taken to City Hospital.

London speeds to St. Louis

Three Weeks From Bond Street, London
to Bond Store, U. S. A.

Old Bond Street, home of the master creators of men's fashions, introduces a new shoulder line . . . a new lapel . . . a new waistcoat . . . a new color. And in three weeks, exact duplicates, faultlessly tailored, are on sale in every Bond Store, home of America's greatest clothing values.

Special connections in London, the fastest Cunard liners and the three large Bond tailoring plants, combine to give you this exceptional service. We believe it is the one sure way to authentic style—for it brings to you fine clothes, cut over original custom patterns.

The cushion sleeve with its smart up-tilted shoulder line . . . the soft rolling peaked lapel . . . the Tattersall vest . . . the off-tone Argyle blues—all of these new features are now ready for you, at Bonds—just as they are being shown by London's smartest tailors . . . with one most pleasing difference—the price!

LANDLORD KILLS MAN IN ROW OVER REPAIRS

Anniston (Mo) Tenant Said
To Have Attacked Him
With Frow Before Stabbed.

Special to the Post-Dispatch.

CHARLESTON, Mo., April 12.—An argument over replacement of a broken window pane resulted in the fatal stabbing of Burt Bentley by his landlord, Rufus Hahn. Bentley is said to have struck Hahn with a frow before Hahn took out a pocketknife and stabbed him in the heart.

An inquest jury, impaneled by Coroner F. S. Vernon of Charleston, found Hahn "was not justified in striking said Bentley," but prosecution is considered unlikely. Prosecuting Attorney W. G. Lee pointing out that there was only one witness beside Hahn, and that this man, a Justice of the Peace, living nearby, asserts Bentley struck twice at Hahn with the frow before Hahn stabbed him.

The wounded Bentley turned and walked 30 feet toward his house before he collapsed and died. Hahn went to the Justice's house and told what he had done, asserting he "guessed" he'd hurt Bentley more than he intended to.

The men encountered each other yesterday morning between their respective homes, and Bentley took up the subject of the broken window pane, which he said Hahn had promised to replace, but had not done so.

Hahn is a rural mail carrier. He has not been arrested. Bentley, 38 years old, is survived by his widow and seven children.

INDIAN PARLIAMENT MEETS FIRST TIME SINCE BOMBING

President Rules Out Bill for Deporting Communists; Sir John Simon Present.

NEW DELHI, India, April 12.—The Indian Legislative Assembly met yesterday for the first time since two bombs were exploded in Monday's session.

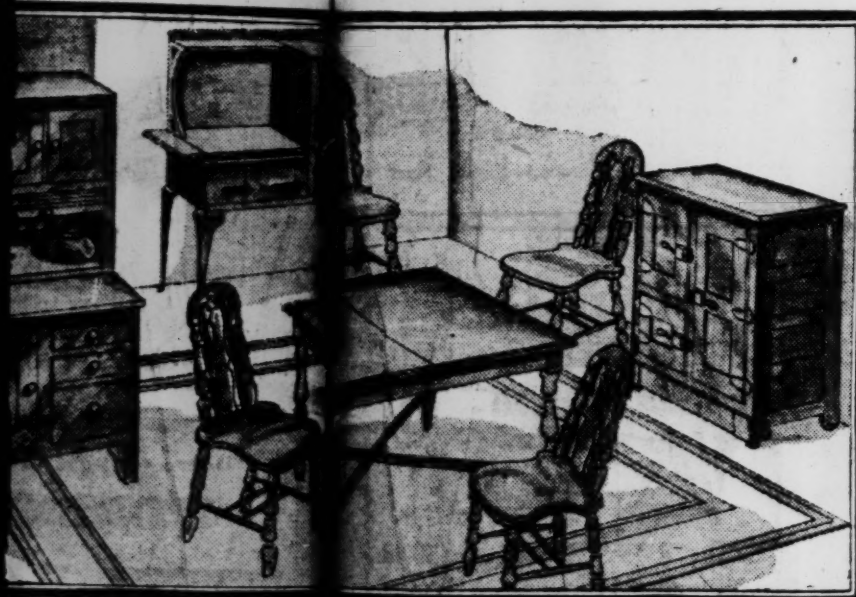

President W. J. Patel was in the chair. Promptly at opening, he ruled out of order the public safety bill which would give the Government authority to remove Indian communists from India.

A parliamentary crisis had occurred in connection with the previous ruling of President Patel that debate on the bill be deferred until trial of the alleged communist conspirators at Meerut. It was at the moment when he arose Monday to give the deferred ruling that the bombs were thrown at the Government benches.

Sir John Simon, chairman of the Commission for Indian Statutory Reform, was in the President's gallery, despite fear of some persons that his presence Monday may have been a motivating factor in the bomb outrage. Lady Simon was with him today.

Rescues Child From Burning Home
CARBONDALE, Ill., April 12.—Albert Mason, Negro, yesterday rescued the 3-year-old daughter of Mr. and Mrs. George Brewer from the burning Brewer home after the

mother, who was alone with the child, had given up hope. Mrs. Brewer was severely burned about the face during unsuccessful attempts to rescue the baby. Flames

blocked her from entering the kitchen where the child was seated on a high chair at the breakfast table. Mason entered by a side door. He was not injured.

JACCARD'S 100TH ANNIVERSARY

Celebrated With an Entirely New Store Interior

THE FIRST UNIVERSITY EVER FOUNDED IN THE U. S. OPENED JUST FOUR YEARS BEFORE JACCARD'S WAS ESTABLISHED

KNOWN AS THOMAS JEFFERSON'S UNIVERSITY

BECAUSE Thomas Jefferson gave so much of his time and interest to the founding of the University of Virginia, it came to be known as Jefferson's university and was the first university established in the United States. The far reach of university education in the last century is indicative of the long period of time since Jaccard's was founded.

REFUSAL TO CROW PUTS ROOSTER IN A STEW

Fails to Recognize Supposed Owner's Call, and Now Will Be Eaten.

"Your honor, that's my rooster. His name is 'Chickie,' and when I call him, he always crows. That's his way of answering me."

As she addressed Justice of the Peace Werremeyer in his court at Clayton yesterday, Mrs. George Green, 1448 St. Vincent Lane, Wellston, pointed at a seven-pound Rhode Island Red rooster that sat on the Judge's desk, eyeing her somewhat disdainfully.

Mrs. Green had brought a charge against her neighbor, William S. Schrader, who, she said, had kept and harbored "Chickie" on his premises after the rooster had flown over a back fence into his yard. She valued the fowl at \$15. Schrader contended he purchased it from a commission merchant for \$12.50.

"Well," said the Justice, "if this rooster knows you so well, call him."

"Chickie, Chickie, Chickie, Chickie," said Mrs. Green. The rooster looked at her interestedly, but made no sound. Mrs. Green held out her fingers and called again. The rooster ignored Mrs. Green and looked interestedly at Justice Werremeyer's inkwell.

"Your honor, Mrs. Green continued, "I don't accuse Mr. Schrader of taking my rooster. It just flew into his yard—here, Chickie, Chickie, Chickie—and he wouldn't give it back—nice, Chickie, want some corn Chickie—I told my husband—here, Chickie, here, Chickie—You know we raised Chickie from a baby and he looks like his father—Chick, Chick, Chickie—and we've got to get him back."

"So far this bird hasn't paid any attention to your calling," Justice Werremeyer pointed out. "Let's see what Mr. Schrader has to say."

Schrader produced a bill of sale, setting forth that he had purchased a Rhode Island red rooster and a crate of hens from Joseph Flick, a commission merchant, at 6218 Natural Bridge road. Flick took the stand, corroborated Schrader's statements and said the rooster in question looked like the one he had sold. He had bought it, he said, from a farmer.

"That's not your rooster," Justice Werremeyer told Mrs. Green. "Do I have to see my rooster in this man's yard every day?" Mrs. Green demanded.

"You won't see this rooster long," Schrader told her. "I bought him for stew and stew he'll be."

"Chickie," asked Mrs. Green, "why didn't you crow and save your life?"

POLICEMAN GIVES BLOOD TO WOMAN; WALKS BEAT IN RAIN
Patrolman Charles E. Donnelly Returns to Duty After Transfusion.

Patrolman Charles E. Donnelly of the North Market Street District gave a pint and a half of his blood Tuesday to save the life of a woman he did not know, and later walked his beat in the rain, declining an offer to be excused from duty. Chief Gerk disclosed yesterday.

Donnelly, who is 26 years old, was chosen from a list of policemen who have volunteered for blood transfusions, because his blood is of the same type as that of Mrs. Mary Severian, 40 years old, 2432 Texas avenue, who is seriously ill at St. Mary's Infirmary. He was not paid for the service.

Mrs. Severian's husband has been unemployed. A woman relative participated in a previous transfusion, which did not have the desired results.

BUSINESS MAN IGNORANT OF OWN WORTH, SAYS SPEAKER
Charles Heischer Tells Sales Managers Bureau That Americans Are Unprejudiced.

The successful American business man needs to be introduced to himself, he doesn't know his own worth, Dr. Charles Heischer, former editor of the New York American, now on officer of Underwood, Elliott & Fisher Co., told members of the Sales Managers' Bureau meeting at Hotel Jefferson today.

"We find more commonly in our country than elsewhere the spirit of the pioneer, the courage and ability to achieve, and a religious devotion to the task undertaken," he said. "The necessities of the situation have forced us to develop initiative, originality and invention. Because we have cut ourselves off from the past and denied ourselves speculation about the future, we have become decidedly men of the present, with profound respect for facts."

"Because we are open minded and unprejudiced, we have the scientific temperament which must be used by the business man. Most of us are tolerant, but humanly respectful and expectant toward one another."

Gets Divorce From Police Clerk
Mrs. Vera M. Schoenbein, 1345 Aubert avenue, obtained a divorce from William T. Schoenbein, a police clerk, yesterday, in Judge Hogan's Court of Domestic Relations, on grounds of general indignities. She testified that her husband failed to come home for his evening meals, and that when she followed him to a restaurant, she found him in company of another woman. They were married Aug. 2, 1924, and separated June 23, 1927. Schoenbein entered a general denial to the charges, but did not contest.

Midgley Alienation Suit Settled.

The \$100,000 alienation of affections suit of Mrs. Mayme E. Midgley of Lebanon against her parents-in-law, Mr. and Mrs. Edward Midgley Sr., was dismissed in the Belleville Circuit Court yesterday on motion of the plaintiff. Counsel for the principals in the case agreed that no announcement of a financial settlement reached out of court would be made.

French Plane Carrier Launched.

BORDEAUX, France, April 12.—The new French airplane carrier "Commandant Teste" of 12,500 tons displacement and with a capacity of 36 planes, was successfully launched today. Its armament includes 12 guns of 180 millimeters and eight guns of 27 millimeters. The vessel will have a cruising speed of 20 knots and is so equipped it can burn either coal or oil.

MS

HUNDREDS IN ST. LOUIS HONOR FOCH'S MEMORY

Color Draped With Stars
and Stripes at Services
in Cathedral.

Great hundreds gathered in the
St. Louis Cathedral today for sol-
emn requiem mass for Ferdinand
Foch, Marshal of France.

The Tricolor and the Stars and
Stripes stood before the altar, and
either side were banked the
flags of American Legion posts.
Many men were in uniform. Among
them were a few white-haired vet-
erans in the blue of the G. A. R.
Representatives of the recent Al-
lied forces included the British Consul,
Mr. H. Oxley, in full uniform.

Flags and the khaki of World
War veterans were almost the only
touches of color in the throng, in
contrast to the glittering altar and
the magnificently decorated dome.
A hushed gathering through-
out the impressive ceremony to the
fading lament march, and triumph of
Foch's funeral march.

"Ferdinand Foch was a great
soldier, a great Frenchman and a
great Christian," said the Rev.
Charles L. Souvay, head of Ken-
rick Seminary. He pictured the
life of Marshal Foch as an exam-
ple, and held up the growth of his
character from "his first great vic-
tory," the mastery of his temper,
to his culminating services to civ-
ilization.

"In every great crisis of human-
ity, for every crisis, Providence ap-
pears to hold in reserve a remark-
able man," said Archbishop Glen-
don. "This man comes forward at
the important time with a firm
and unflinching purpose unto
the accomplishment of his evident
destiny."

"Belgium was in ruins. France
was bleeding white before the
armies which had been toppling
down the monuments of civiliza-
tion and the hopes of humanity.
There arose, out of the gray ashes
of those deadly years, a man el-
ement, reserved, and to that man
they turned. They said, 'Lead, and
we shall follow.'"

"Whither?—to the slaughter of
mankind? Nay, for the heart of
his leader was tender as a child's.
Lead us to victory," they said, and
led them to victory.
"And so we honor today in mem-
ory Ferdinand Foch, Marshal of
France, leader of the Allied
armies, who led them to victory
and after many years laid down
at this Easter-tide his victor's
crown at the bloodstained feet of
him who conquered death."

"Let his death at this time be
for us a memory of the perpetual
victory. Let us, as we pray for
peace for him, pray for abiding
peace among the nations of the
earth, that the great sacrifice of
39 years ago should not be made
again."

52 CASUALTIES IN EXPLOSION ON JAPANESE MINE LAYER

2m Killed, Three Missing and 29
Hurt, It Is Announced
Officially.

TOKIO, April 12.—An official
announcement today said there
were 52 casualties in the mine ex-
plosion aboard the mine layer at
Yokosuka yesterday.

Of the 52, seven men were
killed instantly and three died lat-
er. Three are missing, 19 seri-
ously injured and 29 slightly hurt.
Airplanes and launches were
searching today for bodies of the
missing sailors while officers at-
tached to the naval base conduct-
ed an official inquiry into the
cause of the explosion. Details of
the investigation were withheld
from publication, but it was re-
ported that an inadvertent turning
of an electric switch resulted in
the premature setting off of a
mine.

The stern of the vessel was
wrecked.

INMAN ADMITS HE DRINKS A PINT OF LIQUOR A DAY

By the Associated Press.
RENO, Nev., April 12.—Walker
P. Inman, wealthy New Yorker,
who is suing his wife for divorce
on the ground that she drank too
much and "ran wild" with other
men, testified in divorce court here
yesterday that he drinks "about
half a quart of liquor a day."

Under cross-examination Inman
said he didn't think his daily con-
sumption of liquor exceeded that
amount and he declared that it had
not impaired his health.

Inman said he had not objected
to taking Mrs. Inman to places of
amusement but that she had re-
fused to leave at a "decent hour,"
by which he said he meant 2 or 3
o'clock in the morning.

Testimony was completed with
the calling of two Reno physicians,
who said that Mrs. Inman's nose
had been broken some years ago
and that it had never properly
healed. Mrs. Inman contended
that her nose was broken when her
husband struck her in 1922.

The case is expected to go to the
jury late today after arguments
are heard.

WOUNDS SISTER AND SELF

By the Associated Press.
NEW YORK, April 12.—Dis-
tracted by poverty and failing
health, police were informed, Fred-
erick Robinson, 52 years old, struck
his 51-year-old sister, Mrs. Emily
Lowe, on the head with an ax to-
day and then tried to hack his own
head off in their Brooklyn home.
A neighbor who broke down the
door at first thought Mrs. Lowe
was dead but it later developed
that she was living though in a
serious condition. Brother and
sister were taken to King's County
Hospital with fractured skulls.

MIKADO APPROVES BETROTHAL

TOKIO, April 12.—The betroth-
al of Prince Takamatsu, brother
of Emperor Hirohito, and Princess
Kikuko Tokugawa was formally

announced today with the sanction
of the Emperor. The wedding will
take place in the spring.
Prince Takamatsu is serving
aboard the battleship Haruna, now
at Dairen. He was informed by
radio of the Emperor's approval.

Disastrous Fire in Honduras.
By the Associated Press.
TEGUCIGALPA, Honduras,
April 12.—The biggest fire in
Tegucigalpa for many years de-
stroyed the health department
buildings last night, including

laboratories, medical supplies and
the Rockefeller uncinariasis (hook
worm) laboratory. Several near-
by buildings also were destroyed.
The department of health build-
ing was a new modern structure
and the loss was extremely heavy.

Bus Service to Chicago Deferred.
By the Associated Press.
SPRINGFIELD, Ill., April 12.—
Sixty days' extension of time in
which to put into effect its Chi-
cago-St. Louis bus service has been

granted the Tri-State Bus Co., by
the Illinois Commerce Commission.
The company also received per-
mission to take over the charters
of a number of companies operat-
ing between Chicago and East St.
Louis, Joliet and Chicago, Joliet

and Rock Island, Joliet and Bloom-
ington, Dwight and Bloomington,
Wilmington and Dwight, Bloom-
ington and Springfield, Springfield
and Carlinville, Joliet and Carlin-
ville, Lincoln and Venice and Ed-
wardsville and Venice.

Meet the Men who are Making Clothes History in St. Louis

WE'RE mighty proud of the St. Louis Branch of our
BARTLETT family. We're proud of the character,
spirit and skill of the men who make up our St. Louis
organization. Every one of them is an experienced cloth-
ing man—a man who knows clothes inside and out—a
man who will gladly give you every service to the end

that you get the satisfaction due you as a BARTLETT
customer. Please accept our invitation to come in and
renew old acquaintances with these well-known clothing
men. Any of them will be glad to show you through
the store, without the slightest obligation on your part.
Won't you come in—soon?

J. Hale Hunt

"To say that I have hand-picked the
personnel of our St. Louis BARTLETT
store is putting it mildly. Each and every
man in this store has earned the right to be a
representative of this organization. Without
exception, these men joined on with us because
they found that they could offer their personal
customers better values in BARTLETT clothes
than they could give them with any other brand
in the St. Louis market. When an organization
can attract men of this type—men who have
been selling \$50 and \$60 clothes in former years
—that is best evidence of the fact that it will
pay you to investigate this organization for
yourself, and to find out why it is that expert
clothing men here, as in other cities, are flock-
ing to the BARTLETT standard."

J. Hale Hunt
General Manager
BARTLETT Clothes

THE ST. LOUIS HOME OF BARTLETT CLOTHES
SIXTH and ST. CHARLES STREETS

Here in this store you will find the largest stock of men's clothes in the city selling at
the one low price of \$23.50 for suit, topcoat, or tuxedo—values which anywhere else
would cost you \$40.00 or more. Here also is a well equipped hat department offering
\$6.00 and \$7.00 values at the one low price of \$4.85. There is an air of friendliness
and cordiality about this store which you will like. We're human. We like to meet people.
We hope you will come in and get acquainted.

James E. "Jim" Riley

"I am mighty proud to be at the head of
as fine a bunch of men as we have here
in our St. Louis store. They are as
friendly and likable a group as you'd like to
meet. We have no 'one-timers' in our organi-
zation. Such men don't 'fit in' with our ideas.
Each man works with the object in view of
developing a list of satisfied customers—men
who will come back to him again and again
when they are in the market for clothes. And
the remarkable growth of this store's business
is a tribute to the greater following these men
are gaining in this city with BARTLETT
Clothes. We're all like one big family here,
and we always keep open house. Come in
and see us."

J. E. Riley

TELLS OF PLAN TO AID DISABLED CHILDREN

W. F. Fitch Suggests Amend-
ments to Bill Now Before
Legislature.

Amendments to the Baldwin bill, which seeks to place the machinery of taking care of the disabled children of the State in charge of the State Board of Health, to eliminate the danger of such children being "farmed out" to unauthorized institutions, were urged today by William F. Fitch, former Assistant Attorney-General. Fitch spoke before a joint meeting of the American Citizenship, Public Welfare and Legislative Committees of the Eighth District of the Missouri Federation of Women's Clubs at the Town Club.

As now written, Fitch pointed out, the bill simply gives the Board of Health authority to place children in places where hospitals are maintained. The proposed amendment, he said, specified that the children must be placed in hospitals approved by accredited agencies, such as State and national medical societies, which must contain a fully equipped orthopedic department in charge of a competent surgeon.

Reporting on the present status of the bill, he said it had been re-

ferred to a Senate committee after passing the House unanimously in its unamended form. He indicated that the proposed amendment probably would meet with the concurrence of the House, since it had been discussed informally with the Speaker of the House and had received his approval.

Another contemplated amendment, he said, would designate a definite member of the board to have direct charge of the work of taking care of the disabled children of the State. The bill gives the Board of Health authority, he said, to co-ordinate the work of humanitarian organizations and stipulates such a low rate for the hospitalization of the children as to discourage the opening of private sanitariums for the purpose of obtaining patients who would come under the State's care.

Dr. B. A. Wilkes, head of the Missouri Baptist Sanitarium, spoke in favor of the bill and analyzed the psychology of the disabled child, pointing out that such a child must be instilled with hope and courage rather than coddled.

"No matter what appropriation may be voted by the Legislature to care for these children," he said, "no child will be turned away from my institution so long as there is an empty bed."

Dr. Archer O'Reilly, head of the orthopedic department of Barnes Hospital, described in detail the work of his department. He emphasized the point that careful supervision must be exercised for a long period after the patient leaves the hospital before the child can be considered as permanently cured.

HERRICK'S BODY TO REACH CLEVELAND SUNDAY MORNING

Will Lie in State in Episcopal Cathedral Till Funeral Served.

Arrives Monday.

CLEVELAND, O., April 12.—Plans for the funeral and burial of Myron T. Herrick, late Ambassador to France, was made yesterday by Rollin A. Wilbur, vice president of the Herrick Co. The body will arrive here at 5:30 a. m. Sunday. It will be met at the East 100th street station of the New York Central Railroad by two cavalry troops of the Ohio National Guard. Under their guard, the body will be taken to Trinity Episcopal Cathedral.

The casket, draped with an American flag and unopened, the body will lie in state until the services which will be held the following day. From noon Sunday until 4 p. m., friends of the Ambassador and the public generally may visit the bier.

The funeral service will be conducted by the Rt. Rev. William Leonard, Bishop of the Episcopal diocese of Ohio, assisted by the Rt. Rev. Warren L. Rogers, Bishop coadjutor, and the Very Rev. Francis S. White, dean of the Cathedral. The simple funeral ritual of the Episcopal Church will be used.

In the procession in the church will be the officiating clergymen, the family, Postmaster-General Walter F. Brown, representing President Hoover; President Robert E. Vinson of Western Reserve University, President Emeritus Charles F. Thwing of the university, and the Rev. James D. Williamson, who formerly was acting head of the university.

The burial will be private. It is expected that Bishop Leonard, who conducted the funeral of the Ambassador's wife in 1918 and also officiated at the rites for his grandson, Myron T. Herrick II, in 1917, will read the Episcopal service at the grave.

STRUCK BY TRACTOR IN CROSSING STREET

Henry Hollander Seriously In-
jured; Stepped in Path of
Machine, Driver Says.

Henry Hollander, 37 years old, an ironworker, who lives at the Swan Hotel, Eighth and Morgan streets, suffered fractures of both legs and pelvis when struck at Fourth and St. Charles streets yesterday by a tractor driven by Virgil Metzler of 4846 Farlin avenue, a chauffeur for the Columbia Terminals Co.

Hollander was carrying a bun-

die of wood on his shoulder and stopped in the tractor's path to adjust a piece which had slipped. Metzler said he tried to avoid striking Hollander but that he stepped in the path of the tractor. He was taken to City Hospital.

Switch Engine Hits Auto at Gano At Woman Injured.

Mrs. Dora Rick, 55 years old, of 5244 Bulwer avenue, suffered bruises and scalp wounds when a machine driven by her husband, Antone Rick, 65 years old, in which she was riding, was struck by a Terminal Railroad engine at Gano avenue yesterday. Both were thrown from the machine.

The engineer, William Thistlewaite, of 1735 Waverly place, figured in a similar accident April 3 at the Humboldt street crossing, in which Peter Primm, a switchman, of 5525 Minika avenue, was

killed and two others injured. Mrs. Rick was treated by a neighborhood physician and taken home. Rick told police the gates were not down and that he did not see a crossing switchman.

486 DEATHS FROM ALCOHOLISM IN NEW YORK IN FEBRUARY

NEW YORK, April 12.—Six times as many persons Up-State died of alcoholism in February as in New York City, setting the highest point reached in 10 years.

MORE CHARGES AGAINST LONG IN LOUISIANA HOUSE

Impeachment Sessions Re-
 sumed After Two Indict-
 ments Against Governor
 Are Returned to Senate.

By the Associated Press.
 BATON ROUGE, La., April 12.—The Louisiana House had before it today charges of misuse of public funds and carrying of concealed weapons by Gov. Huey P. Long, after passing on to the Senate two charges indicting the Governor for intimidation of a newspaper publisher and bribery.

Voting was in sight, and in addition members of the Impeachment Subcommittee announced they were ready to begin testimony on count No. 7. This charges the Governor with attempting "to impose his own will" upon civil authorities by causing the State militia "to loot and pillage private property" in gambling raids without declaring martial law.

Senate to Try Governor.
 The Senate, sitting as a high court of impeachment, is to reconvene at noon to hear its committee report on rules of procedure. Under the rules as presented, no charges will be tried until the House has filed all charges, with the provision that if the lower body has not completed its work by April 22 the Senate would fix a date of hearing on any articles adopted.

The rules would further provide that the court would not set the date of trial at a time to give the Governor less than 15 days to prepare an answer.

Long would be permitted to appear in court personally and through counsel.

Another count among the 17 in the resolutions still before the House set for completion of testimony today involves Long with seeking to control the public educational system by usurping the powers of the school boards.

T. H. Harris, State Superintendent of Education, was summoned to tell what he knows of the alleged forced dismissal of V. L. Roy, retiring president of the State Normal College at Natchitoches. Under misappropriation of funds testimony tended to show that Long used \$150,000 of a \$600,000 State convention fund for the National Conference of Governors to purchase his new automobile.

Preacher Unwilling Witness.

First testimony on count No. 9, "that he habitually carried concealed weapons on his person," was furnished unwillingly by the Rev. J. V. Timin, pastor of the Natchitoches First Baptist Church, who said he saw the Governor place a pistol in his inside pocket in a Baton Rouge hotel for "protection against Chicago gangsters."

"It was in his room here," the pastor said. "There was a small revolver, what in the West we called a blood poisoner. He said he carried it because he had been told some Chicago gangsters were being brought down to get him. He put it in an inside pocket of his coat and left the hotel."

Rather Talk About Chorus Girls.
 The Rev. Mr. Timin, who was called to the stand to testify as to his knowledge of the charge that Long had injected politics into the educational system, said the Governor once remarked to him that he had "rather talk about chorus girls" than discuss the removal of a college president.

The Rev. Mr. Timin was asked whether he talked with the Governor about the "dismissal" of President Roy of the State Normal College.

"I came down on Feb. 26," he replied. "The Governor said he knew I had come down to talk to him about Mr. Roy. He said he would rather talk about chorus girls. I told him Mr. Roy was a good friend of mine. The Governor said there was a popular move there to remove him. I told him this was not true. I told him to send his own representative there and that if 50 per cent of students did not vote to retain Mr. Roy I would drop the matter."

The Governor said he was going to remove Mr. Roy and put a Long man in."

Indictment Voted, 56 to 40.

In the first of the two indictments brought the Governor is charged with threatening to embarrass C. P. Manship, publisher of the State Times and Morning Advocate, unless the papers dropped their fight on his occupational tax on refiners oil.

In the second count voted he is accused of offering bribes to Representatives Alexander Gueymard and Felix Delaune in exchange for their votes for the tax. The vote on the count charging attempt to bribe two legislators was 56 to 40.

TWO SUITS TO FIX THE DATE OF STATE INCOME TAX LAW

Corporations Sued to Bar Levies on Receipts Outside of Missouri Prior to July 3, 1927.

Two suits were filed in Circuit Court yesterday to determine when the income tax law passed by the Missouri Legislature in 1927, making Missouri corporations taxable for income earned only in the State, became effective.

One suit was filed by the law firm of Lewis & Rice in behalf of the Graham Paper Co., and the other by the law firm of Nagel & Kirby and Attorney Harry W.

Kroeger, representing the T. J. Moss Tie Co.

According to contention of counsel, it was the intent to make the law operative for the whole of 1927 and thereafter although it did not go on the statute books until July 3 of that year. However, City Assessor Gehner held that it was not operative for the period previous to July and refused to allow deductions on income derived from business outside of the State during that time.

The object of the suits is to enjoin collection of income taxes on outside business transacted during the year previous to July 3.

For the Graham Paper Co. the additional tax amounts to \$1635.21 and for the T. J. Moss Tie Co. it is \$709.64.

Besides Gehner the suits are directed against Collector Koenig, the members of the City Board of Equalization, which, it is alleged,

refused to hear the complaints of petitioners, and State Auditor L. D. Thompson. The petitions set forth that unless the issue is determined within a reasonable time a multiplicity of suits may result, as other corporations have similar claims affecting the income tax.

BORAH'S NAME GIVEN PEACE FOUNDATION

S. O. Levinson of Chicago Presents \$55,000 for Purpose to Idaho University.

MOSCOW, Ida., April 12.—A gift of \$55,000 from Salmon O. Levinson, Chicago attorney and prominent peace advocate, for the establishment of a William Edgar Borah Outlawry of War Foundation at the University of Idaho, is announced here by Dr. Frederick J. Kelly, president of the University.

The gift was offered to perpetuate the great contribution of William Edgar Borah to the cause of the world peace and democracy. Levinson did not state what form the foundation should take.

In a resolution accepting the offer, the board of regents of the university intimated that a lecture-ship would be established, correlated with courses dealing with various phases of international relations, with special consideration of the possible establishment of world peace.

Levinson, Dr. Kelly said, is recognized internationally as the originator of the plan for the outlawry of war which the Idaho Senator has championed for years. It is said to have formed the basis for the Kellogg peace pact. Since 1917, when the United States entered the World War, he has visited many European nations in the interest of world peace. He was the organizer of the American Committee on the Outlawry of War, of which he is now chairman.

Senator Borah, chairman of the Committee on Foreign Relations in the Senate, has long advocated anti-war proposals and lectured for the cause of peace. Borah's plan for abolishing war was embodied in a Senate resolution introduced in 1923. It was based on the contention that international peace proposals would be declared a punishable crime in international law. His resolution advocated a universal treaty making war a public crime under the law of nations; a code of international law to foster a peace founded on equality and justice among nations, and an international court modeled on the United States Supreme Court.

RECOMMENDS PSYCHIATRIC TEST FOR TRUCK DRIVERS

Dr. V. V. Anderson Tells Delivery Accidents by Such Drivers

Psychiatric and psychological examination of truck drivers was recommended as a means of reducing the number of motor accidents by Dr. V. V. Anderson, director of medical research for H. Macy & Co. of New York, in an address yesterday before the Retail Delivery Association at Hotel Jefferson.

Such examinations were responsible for his reducing accidents with department store trucks 94 per cent in a year, he said. Macy & Co. employs 400 truck operators.

"The safety truck driver who gives the impression of being a tough customer really is an ambivalent personality suffering from a complex," Dr. Anderson said. "His problem is a psychopathic one and he can be helped by better employment technique. By keeping him out of the dangerous motor truck and then by curing his personality disorders."

WOMAN WATCHES TWO MEN FIGHT OVER HER IN HER ROOM

Tony Indriolas, Cook, Finds Walter Burks, Chauffeur, Is an Earlier Caller.

Summoned to a rooming house at 404 McPherson avenue at 4 a. m. today, police found Miss Mildred Roberts, a roomer, watching a battle in her room between another roomer, Tony Indriolas, 34 years old, a cook, and Walter Burks, 35, a chauffeur, 3986 De Tony street.

Burks had several serious stab wounds and Indriolas had a few scratches from a butcher knife. They were arrested and medical treatment given.

Indriolas, a night cook in a restaurant, said he quit work early to visit Miss Roberts, but found Burks had preceded him. Miss Roberts made no statement.

Stries With Artificial Flowers.

By the Associated Press. WASHINGTON, April 12.—Women's penchant for plain felt hats last year might have eased the load on their husbands' pocketbooks but it hurt the artificial flower trade between France and the United States. Smaller demand for hat trimmings is blamed by the Department of Commerce for a decrease in imports of artificial and ornamental flowers from the Parisian district from \$11,955,122 in 1927 to \$7,115,452 in 1928.

Three Years Under the Dyer Act.

By the Associated Press. TOPEKA, Kan., April 12.—Charles Tuttle, who with his brother, Clarence, was indicted by a Federal grand jury here yesterday on a charge of transporting a stolen motor car from St. Louis to Ottawa, Kan., pleaded guilty to the charge today and was sentenced by Federal Judge George T. McDermott to serve three years in the Federal penitentiary at Leavenworth, Kan. Clarence Tuttle pleaded not guilty. His bond was set at \$2000.

SEEKS \$4,000,000 FOR ILLINOIS WATERWAY

Gov. Emmerson Asks Carlstrom For Opinion Relative to Legislature's Power.

By the Associated Press. SPRINGFIELD, Ill., April 12.—Illinois officials are casting about for \$4,000,000 with which to complete the Illinois waterway. It became known yesterday when it was revealed that Gov. Emmerson has asked for an opinion from Attorney-General Carlstrom relative to the power of the Legislature to appropriate the necessary money. Carlstrom's opinion will also probably outline the whole problem.

Even with the opinion forthcoming, it was believed that little solace would be obtained from it.

Shortage of \$4,000,000.

In 1918 the constitution's provision barring the Legislature from expending money for "railroads or canals" was amended, by a vote of the people, to allow issuance of \$20,000,000 in bonds for waterway construction. The sum was deemed inadequate then, and even up until the time Gov. Emmerson was inducted into office. Then it was learned that a shortage of approximately \$4,000,000 existed.

It appears that the best legal minds consulted by the Governor and the Legislature, that the only way to obtain more money is to amend the Constitution again. Granting that this was done, the amendment could not be voted on before 1930, and the money could not be appropriated, if approved by the people, before 1931, definitely postponing work until that date.

Advocates Completion.

The question of constitutional amendment brings up the question of which shall take precedence: the waterway amendment or the revenue amendment.

At the same time he advocated completion of the waterway, Gov. Emmerson also advocated revision of the revenue article of the Constitution to meet modern-day needs in regard to taxation. The first would be beneficial to industrial Illinois, in giving cheap freight routes; the second to all taxpayers by equalizing taxes; and the present Constitution limits the number of constitutional amendments voted on at any one election to one.

While waiting for the Attorney-General's opinion, the Governor has invited the advice of anyone from Illinois Congressmen and United States Senators on down. Some plans have been suggested and discarded. It has been suggested the Federal Government should complete the canal, but Illinois Representatives at Washington have taken no steps to enlist Federal aid. A bill has been offered in the Legislature making a far appropriation of the amount, but it is conceded that the appropriation would not be valid.

Congressman Henry T. Rainey of Carrollton, who was in Springfield yesterday, suggested that one way out of the difficulty would be to let the Federal Government take over the canal. It was believed that the Governor would not approve such a step.

Stomach Disorders
First Revealed by
Coated Tongue

Your tongue is nothing more than the upper end of your stomach and intestines. It is the first thing your doctor looks at. It tells at a glance the condition of your digestive system—and physicians say that 90% of all sickness starts with stomach and bowel trouble.

A coated tongue is a danger signal of those digestive disorders which lead to many kinds of serious illness. It tells why the least exertion tires you out; why you have pains in the bowels, gas, sour stomach, dizzy spells.

Coating on the tongue is a sign that you need Tanlac—the medicine which has helped thousands who were physical wrecks from stomach and bowel troubles—who had "tried everything" in vain and also given up hope.

Tanlac contains no mineral drugs; it is made of herbs, roots and roots. Get a bottle from your druggist today. Your money back if it doesn't help you.

CONSIDERS CHILD EDUCATION VITAL IN COMMUNITY WELL

Robert W. Kelso, Fund Director, Also Mentions Scientific Plan as Important.

The basic element in community welfare is the education of young in the grade and secondary schools. Robert W. Kelso, director of the Community Fund of St. Louis, said in an address to the Council of Jewish Women of the United Hebrew Temple yesterday.

Discussing "Some Elements of a Welfare Program for a Community," Kelso also stressed as outstanding the need for a scientific and purposeful plan, the underwriting of which by the Government through taxation, the provision for the maintenance of the community effort with youth, the care of needy children, the co-ordination of effort by social agencies, the recognition of new social programs and an adequate program.

CANADIAN M. P. WANTS BRITISH FLYERS HONOR

OTTAWA, Ontario, April 12.—Asking if the geographical position of the Government had named a town or mountain, or the Canadian National Railway a station in honor of Col. Charles A. Burgh, an American aviator, L. Church inquires in a letter to the House of Commons if precedent will be extended to include the most heroic war pilot. Capt. John Alcock, D. S. O., British aviator, "first to successfully a non-stop Transatlantic flight."

"If not, why not," Church asks.

Lady Took Cardui and She Felt Stronger and Do Her Work Again

Fort Allen, La.—Mrs. E. Blanc, living on Michigan this city, says that several years ago her health was badly run-down. "I was in bed, too weak to get up," she says. "I had a great deal of pain lower part of my body and my back. My limbs were weak and ached continually. I was almost out of bed a few times, but I came to and told me that I had been some Cardui."

"When I had taken six boxes of Cardui, I was better. I kept on taking it until the time I felt better. I was much better, and out of bed and doing my own work. In fact, so well that I have never since felt Cardui for what it did for me. I am still doing my own work at the age of sixty and haven't had any serious illness since."

For over fifty years, we had suffered, or gotten laid up, or run-down, or Cardui with resulting improvement.

PLAN FOR NEW STREET WEST OF GRAND KILLED

Board of Public Service Votes to Drop Proposal for Reliving Traffic.

Abandonment of the proposal instituted by the City Plan Commission in 1924 for opening a traffic relief street west of Grand boulevard and east of Spring avenue, between Eastern and Chouteau avenues, was voted unanimously by the Board of Public Service today, upon recommendation of Director of Streets and Sewers Brooks.

The board, in filing the proposed condemnation ordinance, terminated the city's effort to establish this artery to divert some of the heavy travel from Grand boulevard.

Brooks said he was not prepared to recommend at this time the adoption of Spring avenue as an alternate route, as had been suggested by some of the opponents of the intermediate thoroughfare.

As for a relief street east of Grand boulevard, Brooks said this road was being met through the pending widening of Theresa avenue from Market street to Bell avenue.

Cost of the right-of-way across many blocks of valuable property probably would be double the \$1,000,000 estimated by the City Plan Commission originally, Brooks said. He recommended dropping the project in view of this fact and of the determined opposition by many property owners. A number of organizations had been formed, some supporting and some attacking the scheme; two public hearings were conducted by the board and considerable study devoted to the plan by the Street Department.

The Plan Commission's recommendation appeared to have been based on the supposition that Prospect avenue, which was to form part of the route, between Forest Park and Chouteau avenues, was altogether a public highway.

Brooks went on. However, he pointed out, only the eastern 25 feet of that street is public, between Market street and the north line of the Wabash Railway tracks and between the south line of the Missouri Pacific Railroad and Chouteau avenue, while the western one foot was to become public only when the owners of the abutting property on the west dedicated additional land for widening the street.

In addition, the director said, Prospect avenue is not a public street across the railroads mentioned and he understood they would oppose making it one.

Conditions elsewhere along the relief street route have changed since the scheme was proposed, Brooks continued; the old St. Louis Club building on Lindell boulevard, interior of which was destroyed by fire, has been remodeled as an insurance office; a new concrete garage stands in the way on Washington boulevard, and St. Louis University has increased its real estate holdings in the three city blocks bounded by Grand, Spring, Lindell and Forest Park, so that the relief street would split the university property and increase the damages.

HOOVER'S POLICE DOG PATROLS WHITE HOUSE ALL NIGHT

Although Guard of 50 Policemen Is Maintained King Tut Keeps His Vigil.

WASHINGTON, April 12.—King Tut, President Hoover's police dog, has joined the White House secret service, patrolling every beat on the grounds from dusk to dawn and sleeping during the day because of the pressure of his self-assumed duties.

Richard Jarvis, chief of the White House secret service, ranks Tut now as a Sergeant because of the efficiency and regularity of the dog's all-night patrolling, disregarding the protection afforded by nearly 50 policemen. King Tut makes the rounds, not in the regulation two-hour shifts, but all night long. At dawn he relaxes, apparently confident that daylight dispels danger.

The presidential family has been unable to keep him in the White House, for he barks until he is let out.

PIPE LINE RIGHTS OF WAY

Texas-Empire Company Has Secured 120 Miles in Missouri.

MEXICO, Mo., April 12.—Of the 120 miles of rights-of-way for the Texas-Empire Pipe Line Co. across Missouri for its pipe line from the Oklahoma producing fields to the refineries at Lockport, Ill., 115 miles were secured by deed from the owners and the other five miles were secured by condemnations, officials of the company disclosed here yesterday.

The company paid 50 cents a rod for right-of-way, where it was secured by deed, but court commissioners have awarded damages of from \$2 to \$3 a rod in condemnation cases, and in several cases the awards ran into thousands of dollars, mostly in Boone County. Two construction crews, one working this way from Severton, south of Hannibal, at the Mississippi River, and the other from McBaine, at the crossing of the Missouri River, are expected to meet near here.

CHINESE AVIATION CORPORATION

NANKING, China, April 12.—The Nationalist Government State Council announced today that the Government is forming a \$5,000,000 corporation to be known as the China National Aviation Corporation to develop commercial aviation throughout China.

The Minister of Railways, who is an aviation enthusiast, has been named president of the corporation. The announcement added that the corporation planned to buy planes and to operate passenger air mail and freight services.

JOHN ZELLWEGER, WIFE TO HAVE ONE FUNERAL

Double Services at 2 P. M. Tomorrow Under Direction of Percival Chubb.

A double funeral will be held for Mr. and Mrs. John Zellweger, 1909A Adelaide avenue, who died three days apart after a married life of 58 years.

Mrs. Zellweger died Sunday of heart disease and Mr. Zellweger, who was confined to his bed at the time, collapsed with a cerebral hemorrhage on learning of his wife's death and died Wednesday evening.

The funeral will be at 2 p. m. tomorrow at an undertaking establishment at Fair and West Florissant avenues with cremation in Valhalla Cemetery, Percival Chubb of the St. Louis Ethical Society, of which Mr. and Mrs. Zellweger were members, will conduct the services.

Mr. Zellweger, a retired civil engineer, was 84 years old, and his wife, Mrs. Pauline C. Zellweger, 77. Born in Germany, Mr. Zellweger came to the United States in 1885 and located in Louisville, where he was employed by several railroads in the westward extension of their lines.

In 1892, he came to St. Louis and entered the employ of the Niedringhaus interests, laying out the plot for a new factory of the National Enameling and Stamping Co., at Granite City. Later he invented an air washing device for use in office buildings and schools, which he sold to an international concern.

Mr. and Mrs. Zellweger are survived by two sons, Adolph and Walter Zellweger, and two daughters, Miss Clara Zellweger and Mrs. Frida Klages.

CURIOUS POLICEMAN ARRESTS NEGRO WHO ADMITS ROBBERY

Officer's Suspicion Aroused When Man Appears on His Boat Carrying Sack on Shoulder.

When a policeman saw a Negro with a sack over his shoulder at Ninth and O'Fallon streets at 10 o'clock last night he stopped him and inquired about the contents of the sack.

"I just got a little kindling wood in there," the Negro said.

Investigating, the policeman found the sack contained a quantity of cigars, 57 bars of soap, canned goods and other groceries. The Negro, who said he was Charles Pinkston, 33 years old, living near Ninth and O'Fallon, was arrested.

Police said he admitted crawling through the transom of a grocery at 1426 North Eighth street, filling his sack and walking out the front door.

FATHER LEAVES \$50,000 FUND FOR LEOPOLD, KILLER OF BOBBY FRANK'S SLAYER

Rest of \$500,000 Estate Bequeathed to Two Brothers of Bobby Frank's Slayer.

CHICAGO, April 12.—A trust fund of \$50,000 "for the care and maintenance" of his son, Nathan F. Leopold Jr., who with Richard Loeb is serving a life sentence in Joliet prison for the murder of Bobby Frank, is provided in the will of the late Nathan F. Leopold, filed for probate here.

The document specifies that the fund may be dissolved at any time by Foreman N. and Samuel Leopold, elder brothers of Nathan Jr. The remainder of the \$500,000 estate is divided equally between Foreman and Samuel.

The will mentions that no provision is made for Mr. Leopold's second wife, whom he married in 1921, as she was provided for in a pre-nuptial agreement.

SEVEN RAIDS ON GAMBLING CHARGES MADE IN WEST END

Six Places Visited by Police Near Kingshighway and Delmar; One on Hollamont Avenue.

The gambling squad, headed by Detective Sergeant McKenna, made six raids in the Kingshighway-Delmar vicinity yesterday, confiscating racing forms and what were said to be false racing bets.

The places raided and the arrests made were as follows: Harry Miller, barber shop at 5917 Delmar boulevard; John Moran, barber shop, 4335 Delmar; Frank Kramer, saloon, 4361 Delmar; Thomas Daniels, cigar store, 4214 Delmar; William Maple, saloon, 5913 Delmar; and John T. Ahert, second floor apartment at 4925 Delmar.

John C. Beasley was arrested on a similar charge in a cigar store at 1019 Hollamont avenue.

\$250,000 TO SCHOOL IN SYRIA

Conditional Gift by Julius Rosenwald to University Announced.

CHICAGO, April 12.—A \$250,000 gift to the American University at Beirut, Syria, has been made by Julius Rosenwald, conditioned on the completion of a total endowment of \$4,500,000 by July.

This amount represents the university's share of the \$15,000,000 fund being raised for six American colleges in the Near East.

E. M. House Soon to Leave Hospital.

NEW YORK, April 12.—Edward M. House may be able in about 10 days to leave the hospital where he is recovering from an operation, his physician, Dr. A. B. Lamb, said today. House underwent an operation about 10 days ago for the removal of a growth from the bladder.

HOUSE FARM BILL GIVEN TO HOOVER FOR HIS OPINION

President Promises Sub-Committee to Suggest Any Changes He May Consider Necessary.

SPENDS HALF HOUR
IN DISCUSSION

Representatives Then Visit
Secretary of Agriculture
Hyde to Talk Over Measure.

By the Associated Press.

WASHINGTON, April 12.—The House Agriculture Sub-Committee was presented to President Hoover today by the five members of the sub-committee which worked out the legislation. They received the President's assurance that he would examine the measure and give them any suggestions as to changes he thought should be made.

After leaving the White House the sub-committee visited Secretary Hyde at the Department of Agriculture to discuss the bill with him and receive his suggestions. The sub-committee spent less than half an hour with the President. A Senate Agriculture Sub-Committee requested President Hoover yesterday to express himself on the proposed farm bill, but the President declined to give an official opinion.

Explaining that he had had no time to study what the White House subsequently described as an "export bounty," the President reminded the five Senators who accompanied him that a plan had been considered in the past of the farm relief plank by the Republican national convention and that it had not been discussed in the presidential campaign.

There was a suggestion by one of the Senators that the Senate Agriculture Committee hold further hearings on the subject so as to develop the views of the representatives opposing the plan. In this connection, Mr. Hoover offered to have Government experts obtain for the committee information as to how such a plan has operated in other countries and to make the data available to the committee.

Hearings on Bill Closed.
Hearings on the new farm bill, however, have been closed and the committee is agreed on the major features of the McNary bill. Under the McNary bill, the President is to have the right to suspend the operation of the McNary bill, and there is little expectation that hearings will be resumed.

The committee will meet today to discuss the McNary bill. The McNary bill, however, is to be discussed by the Senate Agriculture Committee. The McNary bill, however, is to be discussed by the Senate Agriculture Committee.

Chairman McNary of the committee, who headed the delegation which called on Mr. Hoover, said that in all likelihood the McNary bill would wait until Mr. Hoover's views had been finally determined.

In addition to Senator McNary, the delegation was composed of Senators Norbeck of South Dakota and Capper of Kansas, Republican, and Heflin of Alabama and Randall of Louisiana, Democrat. This subcommittee itself is considered to contain a majority against the McNary bill, and on the full committee, administration leaders expect there are not more than four who favor the plan.

Hope for Unanimous Vote.
It was the committee's intention, however, of seeking Mr. Hoover's views in the hope of obtaining a unanimous vote for either the McNary bill without the debarment plan attached to it, or for the McNary bill with the debarment plan.

The delegation pointed out to the President that the debarment plan would be so written that it could be invoked only at the discretion of a board whose members he himself would appoint. The President was represented as being of the opinion that the failure of the board to make use of the plan might be used by some to stir up opposition to the board and thus weaken its effectiveness.

The Senators, however, were assured that Mr. Hoover would look into the question and they said the President would communicate his views to Chairman McNary within a few days.

To Wisconsin Supreme Court.
MADISON, Wis., April 12.—Circuit Judge Chester A. Fowler of Fond Du Lac, Democrat, was named Associate Justice of the Wisconsin Supreme Court today by Gov. Walter A. Kohler, Republican. He succeeds the late Chief Justice and J. Vinje, Superior.

Mrs. Gann in Seat of Honor At Dinner of Chilean Envoy

Vice President's Sister Sits at Right of Host
While Her Husband Finds Place Far
Down the Side of Table.

By the Associated Press.

WASHINGTON, April 12.—At the first official social function she has attended since the controversy rose as to her rank, Mrs. Edward Everett Gann last night sat at the right of Ambassador Carlos Davila of Chile at his formal dinner in the Pan-American Union Building.

In this position was the sister of Vice President Curtis according to the precedence over wives of members of the diplomatic corps which had been demanded for her by Curtis, because she was his designated hostess. Two hundred guests were gathered around a huge oval table whose center was filled with a mass of ferns and palms. The heads of various Latin-American diplomatic missions and other members of the capital's official society were ranked on both sides of the table according to their protocol status.

At the farther end of the great hall of nations sat Senora de Davila, wife of the host. At her right was Vice President Curtis and on the left was Secretary Stimson. At the other end of the table on Mrs. Gann's right was Ambassador Velarde of Peru. On Ambassador Davila's left was Senora de Telles, wife of the Mexican Ambassador.

Mrs. Gann wore a white lace dress, heavily studded with sequins. Her slippers blended with her dress. About her neck was a pearl lavalier and her ear pendants were diamonds. Her husband was among the guests. He sat far down the side of the table.

The dinner was in honor of Pablo Ramirez, Chilean Minister of Finance, who sat slightly to the right of Mrs. Gann.

WILBUR ADVISES INTERSTATE PACT TO CONSERVE OIL

Suggests Plan to Industry in
Lieu of Agreement Dis-
approved by Attorney-
General.

DEPARTMENT TO
AID PROPOSAL

Federal Board Will Send Ex-
pert to Confer With Gov-
ernors Over Adoption of
This Procedure.

By the Associated Press.

WASHINGTON, April 12.—The Federal Oil Conservation Board has informed the American Petroleum Institute that in its opinion the proper conservation of oil resources could be effected by an interstate compact to which the Federal Government through congressional action would be a party.

Secretary of the Interior Wilbur, in a letter written for the board to the institute, said that with such a proposal in mind it was the intention of the board to have Dr. Otis Smith, on its behalf, visit and interview the Governors of the three or four dominating oil-producing states and learn their views on such a plan.

The letter was written in answer to questions asked by direct- ories of the institute who appeared before the board last week to out- line a plan calling for an agreement in the oil industry which would curtail production this year to the 1923 level. The institute at that time asked the board to approve the plan but was faced with an opinion of Attorney-General Mitchell that the board had no authority to approve or dis- approve of such agreements.

Test of Wilbur's Letter.
After outlining the situation Wil- bur wrote as follows:
"Purely negative action does not cure the prime difficulty—the rapid waste of our oil resources. The purpose of the board has been to find a constructive method for the prevention of the present reck- less waste of oil and it naturally sympathizes with every practicable step."

"As you are aware, the investi- gations of the board over the past few years have demonstrated large wastes in the production and utilization of our oil, and an alarm- ing prospect as to our future sup- plies. Its conclusions, in which it has been confirmed by scientific investigation and a considerable part of the industry, were that in the long view the positive method of conservation is the initial con- trol of development through the control of drilling to the end that discovery of a new oil pool a plan for its development should be established which would pre- vent the waste of gas, the conse- quent loss of gas pressures and its serious effect upon the total yield of the pool and to prevent other great losses which arise from flush flows due to periodic overproduc- tion from federal competition and offset drilling with the conse- quence in unnecessary diversion of oil from gasoline to fuel on such occasions. Had such control been in action during the last three years, not only would the present situation not have arisen but the vast waste of oil by diversion from gasoline to fuel would not be taking place. While such a course could not be wholly applied to old pools, it could be made effective in new pools and new strata. It is upon this program that the board has sought co-operation of the industry. To solely close off production temporarily to relieve present congestion and stop the immediate waste of gasoline to fuel would not effect the real prob- lem—that is, the long view wastes mentioned above."

Urges State Compact.
"It is determined by the legal advisory committee above men- tioned that there were no consti- tutional grounds upon which the Federal Government could impose such a regulation of drilling, but that the sole legal authority for such action lies within the States themselves. Suggestions were made which have been or are in course of discussion in the Legislature in various oil pro- ducing states."

"The problem appears to be, therefore, that the least in- hibitions to be one in the res- olution of which action must be secured from the different states. The board recognizes that individ- ual State action without co-ordi- nation would not cover the ques- tion, but with view to bringing about such a program and its co- ordination, the board believes it would be worth while to rene- discussion with the State author- ities."

every 10 years to determine the value of the tractage and a new survey is to be made soon. The Manufacturer's Railway also in- tends to utilize this tractage. Dou- ble track has been laid from Bar- ton to Leeper street.

SAMOA PAPER IS CHARGED WITH STIRRING UP SEDITION

Police Informations Accuses Pub-
lication With Libel and Intent
to Cause Disaffection.

By the Associated Press.

APIA, British Samoa, April 12.—Police informations charging sedi- tious libel and intent to cause dis- affection in Samoa, have been served upon the Samoa Guardian. The newspaper had printed an ar- ticle stating that one Stevenson at a public meeting in March in New Zealand moved a resolution which alleged "pillaging of funds from the Samoan Treasury by Samoan officials."

The statute provides two years' imprisonment on conviction, or a fine, at the Court's discretion.

Edwin W. Gurr, former editor of the Samoa Guardian, was ban- ished from Samoa in December, 1927, on the charge that he had aroused natives to subvert the Government. His term of banish- ment was five years. Olaf F. Nel- son, Legislative Councillor, and Al- fred Smyth, a retired merchant were deported for five and two years, respectively, on similar charges.

STATE ENTERS VIRGINIA U. ROW

Official to Investigate Alleged
Drinking at Fraternity.

By the Associated Press.

RICHMOND, Va., April 12.—E. H. Gibson, assistant to the At- torney-General of Virginia, who is head of the State prohibition force, left today for Charlottesville to in- vestigate alleged admissions of drinking at the Delta Tau Delta fraternity house of the University of Virginia.

Gibson said the admissions, quot- ed in reports on the current con- troversy over drinking between the National and Virginia chapters of the fraternity, if substantiated, would constitute grounds for crim- inal action against members of the chapter.

MORE THAN 1000 CHINESE RADICALS EXECUTED IN WEEK

Thirty Students of Sun Yat
Sen University Among
Those Put to Death by
Canton Authorities.

By the Associated Press.

CANTON, China, April 12.—More than 1000 alleged radical agitators are estimated to have been executed by machine guns during the last week in a cam- paign by the Canton authorities to stamp out radicalism here.

Accused of instigating Commun- ist agitation, 30 students of the Nationalist Sun Yat Sen University were arrested, court-martialed and shot. The university, a co-educational institution, has long been declared a hot bed of radicalism by local authorities.

In back of the current teneness is the "declaration of independ- ence" issued early this month by Canton in which the city's inde- pendence was declared openly. Fear- ing that the Kwang group might use the radicals as a means of stirring up disorder in Kwang- tung, local authorities declared martial law and troops now are patrolling the streets.

Legionnaires Welcomed in Greece.
By the Associated Press.

ATHENS, April 12.—City officials and representatives of the Ameri- can Legion met 1000 members of the American Hellenic Educational Protective Association tourist group at Piraeus yesterday. A cordial welcome to the scenes of Gre- cian antiquity was extended.

FEDERALS TAKE 100 PRISONERS IN SORTIE AT NAGO

By Cavalry Charge Scatter
Group of Gen. Escobar's
Besieging Force, Then
Retire to City.

INSURGENTS BEGIN
GUERRILLA WARFARE

Gen. Caraveo Divides His
Army Into Five Units to
Harass Federal Advance
From Chihuahua.

By the Associated Press.

NAGO, SONORA, April 12.—Fed- eral cavalry today carried battle into Gen. Jose Gonzalo Escobar's rebel camp. Ninety cavalrymen from the Federal garrison here charged a contingent of rebel troops on the Nogales road, west of San Jose Mountain, scattered them, and took approximately 100 prisoners.

The number of dead and wound- ed in the skirmish, which was fought out of sight and hearing of Nago, had not been determined definitely. The Federal cavalry- men returned to the garrison shortly before 11 a. m. with six or eight empty saddles. They said they thought one trooper had been killed and several wounded.

The fight was said to have raged hotly for some time before the rebel soldiers began to throw down their arms and beg for quarter from the Federal horsemen who fired on them from the brush.

First reports to reach Nago were that the rebels had deserted and turned themselves over to the Fed- eral cavalry when it approached. The Federals denied this.

Insurgent Force Split Into Bands
to Harass Federal Advance.
By the Associated Press.

JUAREZ, Mexico, April 12.—Un- successful in modern warfare against better equipped Federals in Central Chihuahua, Mexican rebel soldiers today began guerrilla war.

JOHN G. NEIHARDT

An Epilogue

THE FATE OF THE JURY. By Edgar Lee Masters. (Appleton.)

THOSE who admired Edgar Lee Masters' "Domesday Book," which appeared nine years ago, may now renew and intensify that experience by reading "The Fate of the Jury," published today.

It will be remembered that "Domesday Book" set forth with much gruesome detail and meticulous psychological and legal analysis the proceedings at a coroner's inquest upon the body of one Eleanor Murray. The purpose of the author was to show how one life may affect many others in a steadily widening circle, much as the dropping of a pebble into a pond results in a disturbance of the whole surface.

"The Fate of the Jury" is an epilogue to "Domesday Book," and we are told that Mr. Masters has been working upon it for five years. Here he carries the central idea of the former book a step farther. The plan of the new work is as follows: At the conclusion of the inquest, the six jurors and the coroner, feeling that it was somehow unfair to probe into the life of the dead woman while concealing the secrets of their own lives, agreed that each should write a frank confession which the others should read after his death. It is these confessions that we read here, together with a running commentary by the author.

Speaking of the new book and its purpose, Mr. Masters says: "The jury was composed of a lawyer, a clergyman, a newspaperman, a banker, an economist. The lawyer wrote out his life story and later died. It is the story of the son of an Abolitionist, who was a self-radical touched with the valediction and unsoundness of the American idealist and by his story a strong light is thrown on the American character, and the America of this day of liberty and spiritual confusion. The newspaperman relates the difficulties under which he tried to stand for a better social order, the banker who fails and disappears comes to Merival with the confession of a domestic tragedy, and the clergyman tells what his life to its real defeat; while the story of Merival the coroner unfolds through these contacts and revelations to the end of an advanced life.

"The Fate of the Jury" reveals the America of today and how it has evolved from the mental and spiritual conditions of the Great War. Especially is this to be found in the letter of Barrett Bays, the lover of the dead Eleanor Murray, long incarcerated for insanity and whose madness catches the key of modern American life with its turmoil and recklessness; and in the confession of the lawyer that his whole life has been a mistake; and in the lament of the newspaper

EDGAR LEE MASTERS.
From a Painting by Gordon Stevenson.

man that do as he would he could not control the circumstances that finally overbore him. The coroner, too, is swept down to tragedy by the insanity of Arielle, which he saw before marrying her, but into which he was forced by gathering influences upon his idealism."

VAGABONDING AT FIFTY. By Helen Caliste Wilson and Elsie Reed Mitchell. (McCann.)

Two middle-aged women here tell without any attempt to be literary the story of their journey, made alone and partly on foot, from the Trans-Siberian Railroad southward to Samarkand. It was certainly a remarkable adventure, well worth recounting. The spirit in which it was undertaken is expressed by the following lines of James Elroy Flecker, quoted by the authors:

We are the Pilgrims, master; we shall go
Always a little further; it may be

Beyond that last blue mountain
Barred with snow.

Across that angry or that glimmering sea,
White on a throne or guarded in a cave

There lives a prophet who can understand
Why men were born; but surely we are brave.

Who make the Golden Journey to Samarkand.

AN HOUR OF AMERICAN HISTORY. By Samuel Eliot Morison. M. A. P. D. (Appleton.)

An admirable brief account of our national development.

YOUTHFUL OLD AGE. By Walter M. Gallichan. (Macmillan.)

The author, himself hale and hearty at the age of 60, tells from his personal experience what simple rules of hygiene, if properly observed, will make anybody's life "a sweet potion of labor and laughter and love."

ST. LOUIS DOG SHOW OPENED AT COLISEUM

Hundreds of Animals Entered
in Competition for \$2500
in Prizes.

Dogs are having their day—three days, in fact—at the annual dog show of the Mississippi Valley Kennel Club, which opened this morning at the Coliseum.

While early visitors tried to hear each other above the barking and yelping of several hundred blooded animals, tardy owners were benching their proud possessions with tender care for the annual competition for \$2500 in cash and many other awards.

In the last-minute rush to get things in order, many were the fights that threatened, mostly between dogs, but occasionally between owners. Hugo St. Bernards pulling at heavy leashes and tiny lap dogs with diamond collars snarled at each other. Owners snapped, "get that beast away from here," when occasionally an animal slipped his leash and set out on a reconnoitering expedition.

As the opening hour approached Locust street was jammed with automobiles of St. Louis dog fanciers who had kept their pets at home until the last minute. The exhibitors' entrance was packed with nervous animals and excited owners waiting their turn to appear before veterinarians for examination.

Inside, the benches were arranged in long tiers with a wire compartment for each animal. While some exhibitors benched their dogs with the terse command, "Get up there," others left their animals to the tender care of assistants while they draped the cages with silks and satins.

One woman drew a chair up to the cage where her dog rested, and set tenderly waiting for it. Another woman worked diligently with a broad-toothed comb to make her collies more presentable, a third one turned away for a moment and then screamed for help when she discovered that her pet had caught a foot in the wire netting of his cage.

E. W. Leach of Minneapolis, professional superintendent in charge of the show, estimated that 600 animals of 50 different breeds would be on exhibition before evening. While most animals are owned by St. Louis fanciers and breeders, states far distant as Washington and New Jersey are represented. Most exhibitors are breeding dogs for commercial gain and many of the animals are veterans of previous shows here and elsewhere.

Big dogs far outnumber the small dogs, with the German shepherds, commonly known as police dogs, heading the list. Seventy-nine of this breed have been entered, with 24 Great Danes and 20 Russian wolfhounds. Under the show rules, all of the dogs must be kept in the show throughout the three days and arrangements have been made for feeding and exercising the animals. If the owners do not want to do this themselves.

For the first time here, each of the cages is provided with a wire screen which can be placed over the front at the owner's discretion. These screens will serve to protect owners who do not like to have their dogs petted and the visitors from being bitten.

Judging of the dogs started with the Cocker Spaniels, Irish Water Spaniels, Spring Spaniels, Bull-dogs, Chow Chows, Schnauzers and Pekingese, while the Collies and Beagles will be judged tonight. Other groups will be judged at various times tomorrow and Sunday and the best dog in the show will be chosen Sunday evening.

All dogs will be judged by points according to the American Kennel Club rules.

Rock A. Savageau Dies in West. Rock A. Savageau, retired capitalist of Denver, Colo., died Wednesday morning at Santa Barbara, Cal. Mr. Savageau, a native of St. Louis, was for many years engaged in the wholesale tea and coffee business in Denver. He is survived by his widow, Celeste Duhring Savageau, a sister of H. M. Duhring of this city; a son, Raymond and a married daughter, Gertrude Freeman. Interment will take place in Denver.

Mrs. Bernadine Collier Funeral. The funeral of Mrs. Bernadine Collier, 83 years old, 1904 Geyer avenue, will be held at 8:30 a. m. tomorrow at St. Peter and Paul's church. Interment will be in St. Peter and Paul's cemetery. Mrs. Collier, the widow of Anton Collier, pioneer South St. Louis merchant, was prominent in church work in that part of the city. Surviving are a son, Anthony Collier, and three daughters, Miss Johanna Collier, Mrs. Mary Albrecht and Mrs. Augusta Goedecker.

Illinois College Alumni Dinner. St. Louis alumni of Illinois College of Jacksonville, Ill., which is celebrating the centennial anniversary of its founding, will hold their annual dinner tomorrow night at the Kingsway Hotel, Kingshighway and West Pine boulevards. Speakers will include President Rammelkamp and Dr. Ames of Illinois College, Probate Judge Holtcamp and Dr. Willard Bartlett.

Hasselbusch Funeral Tomorrow. A life-long friend, Rev. H. F. Carl Haas, will officiate at funeral services for Herman Hasselbusch, 78 years old, at 2:30 p. m. tomorrow at the residence, 4610 South Grand boulevard. Mr. Hasselbusch, for 47 years a South St. Louis hardware merchant, died of cancer Tuesday at his home.

New York Day by Day

By O. O. McIntyre

NEW YORK, April 12. THOUGHTS while strolling: Those smartly dressed women who dine alone. And drive off in horse-drawn carriages. A bank gives a safety razor to each new depositor. Soapstone doo-dads sold as jade. Sign: "Mourning costumes in 12 hours." Arthur William Brown, the illustrator.

Flappers who lower their lids. And those who twitter. Four street clocks in a block. All telling different time. Those clinging police dogs on footloose leashes. And dragging their owners.

A house number studded in glass lights in the sidewalk flagstone. They say the old boys with face lifts wear sideburns. Spenders from the one-horse boom towns. Who visit Tex Guinan's. And are called by first names right out loud. Clair Maxwell, of the celebrated Maxwell brothers.

Many new German restaurants. Sour rye bread sandwiches with thick cream cheese. And schnitzel. Yum, yum! Also country sausages, fried apple rings, baking powder biscuits and fried mush. And waiters with a Jack Pearl dialect. Central Park protecting trees like Paris—with iron gratings.

The blind newsman who knits all day. And the dignified fellow in a frock coat who leads a stage donkey to the theater at night. That pleasant calm at dusk before the office buildings pop into a million lights. Sol Bloom and his pince nez. In Congress or something.

The Wall Street plunger who had a ticker installed at his table. And the man who looks like Colidge. A jewelry auctioneer hurling his insults.

A tipy cop. Queer crowds around the broadcasting stations. The Santa Claus fellows who work in the watch repairing shops. Vincent Lopez's buttoned shoes. Earl Benham's wide bottomed trousers. That haunting waltz from "Floretta." Silly work this. Wish I could land a job icing cookies!

THE show boat craze hit New York with a bang. Most metropolitans acquired the show boat "atmosphere" from Edna Feafer's "Show Boat" and its musical comedy glorification. A theater was turned into a showboat idea for several weeks this winter. The Hudson River is to have, for the

first time, a smart show boat presenting well known "names."

BUT away from the river landing the show boat performance is a dismal affair. It requires the background of the small town levee, the open air concert, banjo torch lights and picturesque characters of the water front to give it proper color. Even one so careful of details as Ziegfeld overlooked the best known feature of a show boat—the callopie. A show boat without a callopie is like New York without a Broadway. Only those who have rushed to the levee to watch French's Floating Opera turn the head and hear the callopie burst forth with its steaming rendition of "In the Good Old Summer Time" have a true appreciation of the show boat. It was the big yearly event in bum drum lives at the cross roads. Every player had the glamor of the adventurous life of the trouper and seasonal returns were awaited with far more eagerness than any theatrical offering in New York during a season.

THE morning mail brings a letter from a gentleman whose stationery proclaims him as a "Microscopist, Technologist and Scientist." He asks for assistance in hunting a job. And him with a microscope!

H. T. WEBSTER, the cartoonist, was upset at an afternoon tea recently when a waiter slumped to the floor in a dead white faint at his feet. "All right, Webster, 'was a cup of tea'." Mr. Webster, it might be explained, hails from Tomahawk, Wis., where they cling to the chaste custom of serving tea at afternoon teas.

WRITES J. M. F.: We were looking at some hideous ancestral chromos in a private gallery. With the owner out of earshot somebody cracked: "They look like Odd McIntyre's folks out in Missouri!"

All right, all right! But we'll bet one of them had the masterful McIntyre chin!

(Copyright, 1929.)

Gasoline Price Increase. NEW YORK, April 12.—Standard Oil Co. of New Jersey has advanced its price on gasoline in tank car lots 4 cent to 9 cents a gallon at New York, Baltimore, Norfolk and Charleston.

AIDS FASHION SHOW

MRS. ASA BROOKINGS WALLACE.

WHO will assist with the arrangements for the fashion show to be presented at the Junior League crystal ball, at Hotel Jefferson, Friday evening, April 19. She lives on Price and Clayton roads.

A dinner dance will be given tomorrow evening by Mr. and Mrs. Roy Siegel, 6246 Northwood avenue, at the Bridespur Hunt Club. There will be 60 guests. The party is being given to celebrate Mr. Siegel's birthday.

The Playhouse Club of St. Louis University has announced the dates for its next full stage production, April 15 and 16. The play will be "The Whole Town's Talking," by John Emerson and Anita Loos, and will be given in the St. Louis University auditorium, 3642 Lindell boulevard. Those taking part include Miss Margaret Boland, Miss Marie Kennedy, Miss Florence Ryan, Miss Frieda Marchand, Miss Virginia Pughen, Miss Mary McDonough, Miss Lucienne Deschodt, Miss Betty Kasper and Miss Florence Betz. Ralph McNamara, Delbert Morrissey, Lawrence Neville, Forrest Murphy and Joseph Orlick.

SOCIAL ITEMS

MISS EUGENIA ARMSTRONG, daughter of Mr. and Mrs. William Percy Armstrong, 654 Washington boulevard, has chosen Saturday, May 4, for her wedding to Charles Andrew Brandon, formerly of Auburn, Ind.

The ceremony will take place at her home, 6227 North Rosebury drive, in the presence of relatives and close friends. An informal reception will follow. A small bridal party will accompany Miss Armstrong and her fiancé to the altar, the personnel to be announced later.

Mr. Brandon and his bride will spend their honeymoon in Asheville, N. C. The bride-elect is a graduate of Mary Institute and Vassar. She spent one year at Washington University and became a member of Kappa Alpha Theta. Mr. Brandon is a graduate of Princeton.

Among the pre-wedding parties to be given for Miss Armstrong is a luncheon, April 25, at which Mrs. Henry H. Sludd will entertain at her home, 6227 North Rosebury drive, and an afternoon bridge by Miss Catherine Woermann, daughter of Mr. and Mrs. F. G. Woermann, 7 Arundel place, April 30. Miss Woermann will become the daughter of Charles Ormand Eames in June.

Miss Eleanor Fidler will entertain for Miss Armstrong at a date to be announced later.

Mrs. Tom R. Wyles of Highland Park, Ill., will come to St. Louis in May to be the guest of her son-in-law and daughter, Dr. and Mrs. Anthony B. Day, 336 North Newstead avenue, and their small daughter and son. The baby boy, born two weeks ago, has been named Tom Wyles Day, for his grandfather. Mr. Wyles, who has been here for a few days, has returned home. Mrs. Wyles has been spending the winter in New Mexico with her son, Tom R. Wyles Jr., and will visit in St. Louis on her way home.

Miss Carolyn Fowler, daughter of Mrs. Albert C. Fowler of the Kingsbury apartments, 501 Clara avenue, has been called to Pasadena, Cal., by the illness of Miss Louise Vaughan, formerly of St. Louis. During her stay in Pasadena Miss Fowler will be a guest at the Huntington Hotel.

dena Miss Fowler will be a guest at the Huntington Hotel.

Miss Bella, Miss Grace and Miss Charlotte Tausig, 20 North Kingshighway, will depart Sunday for New York to sail Tuesday on the De Grasse for Europe to be gone all summer. They will go directly to Paris for a visit and later will spend most of their time in Spain.

The semi-weekly Saturday hunt by members of the Bridespur Hunt Club on Denny road will start at 1 o'clock tomorrow afternoon. The hunt will be of two-hour duration, and afterwards the riders will be the guests for tea of Mr. and Mrs. Edward L. Bakewell at Melody Farms, their home on the Denny road.

Mr. and Mrs. John Burton Kennard Jr., are spending their honeymoon in Havana, Cuba, and will be away three weeks. Upon their return they will make their home at 4237 Laclede avenue.

Mrs. Kennard was Miss Elizabeth Scudder, daughter of Mr. Charles Scudder of the Hampden Hall Apartments. The wedding, a notable event of the spring season, took place April 4.

Invitations have been received from the president and directors of The Art Alliance of St. Louis to the annual exhibition of the work of the students of the St. Louis School of Fine Arts, Saturday afternoon, April 20, from 2:30 until 4:30 o'clock, in the City Art Museum, in Forest Park.

The College Club of St. Louis is well represented this week at the biennial convention of the American Association of University Women in New Orleans. The following nine delegates left Monday noon in a special car: Mrs. Roy V. Coffey, president of the College Club; Mrs. Harry A. Collins, Mrs. William Wittrig, Mrs. Henry Fett, Mrs. Ralph C. Trevillion, Miss Gertrude Blodgett, Miss Alice Gipson, Miss Marjorie Graham and Miss Susan Sherry. On the American Association of University Women convention program are addresses and talks by women educators of national and international repute. Banquets, luncheons and drives constitute the social features of the convention program.

DELPHIN EDITION TO ST. LOUIS U

Dr. V. J. Mueller Presents Set

Printed in London in 1820.

The Delphin edition Latin classics, comprising 135 volumes printed in London 100 years ago and including the works of 27 Great Romans, have been presented to St. Louis University library by Dr. Vincent J. Mueller of Osage Hills.

The original Delphin edition comprised 64 volumes printed in quarto in the year 1820 for the use of the Dauphin of France under supervision of Bossuet and Huet, 1674-1730. Abraham John Valpy, fellow of Pembroke, Oxford, published a new edition between 1819 and 1820 with critical emendations made by other scholars and his own notes, expanding the edition to twice the size of the original.

DR. HOLT TO VISIT HOLY LAND

Methodist Minister to Sail

Wednesday for New York.

The Rev. Ivan Lee Holt of St. John's Methodist Church will depart Sunday night for a Mediterranean tour, including his first visit to Palestine. He will sail Wednesday from New York on the Empress of Australia and plans to return to his pulpit July 7.

He will spend much of his time in Egypt, and will study the investigations into ancient civilization there and in Palestine. For 10 days after he lands in France, and later in June, he will make motor tours of France and Italy. He will lead joint services of St. John's and the Second Baptist Church in July and August.

CHURCH FOR DAYLIGHT SAVING

Evangelical Lutheran Congregation

Votes for Early Services.

A "daylight saving" Sunday service at 7:45 a. m. was over the regular service at 10:30 a. m. 522 to 192, in a referendum of Emmanuel Evangelical Lutheran Church, the Rev. Richard Kretschmar announced yesterday. The later service will be discontinued in favor of the earlier for the summer months beginning May 13. Neutral members included 255 who attend the 9 a. m. services in June, and 215 who attend only the evening service.

NEW HEAD OF MASONIC HOME

William W. Martin Elected to Succeed Sol E. Waggoner.

William W. Martin of Denham, Mo., a farm investigator for the Federal Land Bank, has been elected president of the Masonic Home of Missouri to succeed the late Sol E. Waggoner.

Martin was grand master of the Grand Lodge in 1925. His principal duty as president of the home, will be the investing of the endowment fund, which amounts to more than \$750,000.

Raise \$15,000 Toward Factory. BROWNSTOWN, Ill., April 12.—Brownstown citizens who started a subscription campaign about two weeks ago to bring the Mound City

Shoe Heel and Manufacturing Co. here, have raised \$15,000, one-half of the required amount. The committee believes the full amount will be secured in a short time.

FASCIST THREAT KEEPS AUSTRIA IN TURMOIL

Workmen's Party Fighting Movement to Establish Dictatorship.

By the Associated Press. VIENNA, April 12.—Eight days of conferences by leaders of the rival Christian Socialists of clerical party and the Democratic Socialist or workmen's party have not relieved the Governmental crisis in Austria. The leaders seemed as far apart today as they were when Mgr. Ignaz Seipel resigned the chancellorship.

On one side is threatened the establishment of a dictatorship and the suppression of Parliament unless the Socialists abandon their opposition to legislative measures while on the other is equal determination to guard the republic against encroachments by the clerical party. The Socialists also charge that the Fascist organization sponsored by the clericals is financed by industrialists and deliberately seeks to provoke fights in which the Socialists are invariably the heaviest losers.

Meanwhile, sporadic clashes between irregular military organizations maintained by the respective parties, keeping the republic in a state of turmoil. Socialist parliamentary leaders insisted yesterday that they were not responsible for Wednesday night's clash in Leising, in which 14 Fascists were injured and 15 arrests were made. The Socialists, who control the Vienna municipal government, declare that Communists embarrass them by inciting socialist workmen to make common cause against the clerical party. The Socialists also charge that the Fascist organization sponsored by the clericals is financed by industrialists and deliberately seeks to provoke fights in which the Socialists are invariably the heaviest losers.

WILBUR ADVISES INTERSTATE PACT TO CONSERVE OIL

Continued From Page 25. ties of the three or four principal oil producing states, particularly to learn if it is not possible for them to enter upon an interstate compact under the provisions of the Constitution authorizing such compacts to which the Federal Gov-

ernment through Congressional action would be a party. The character of such a compact would need much consideration but it could well compromise creating a joint board for the purposes of constructive conservation and thus secure the nation from the very real peril that will lie in the reckless exhaustion of our oil resources. With this in view the board is planning to have Dr. George Otis Smith, on its behalf, visit and interview the Governors of three or four dominating oil producing states and learn their views upon such a proposal.

"It believes that the above suggestion, if it can be consummated on constructive lines, should extend the life of our oil resources and give greater stability to the industry, should vastly increase the returns to those states, and at the same time should protect the consumer."

Mark Requa, one of the leaders of the oil conservation movement said that the board's letter "again emphasizes the long asserted opinion of the Government of the necessity for conserving our oil resources."

"This opinion," he said, "is no longer one solely of Government, but is now accepted throughout the petroleum industry, and the public is rapidly coming to realization of the truth."

Requa, who had charge of the petroleum industry during the World War and who has been a close friend of President Hoover for many years, declared that the public should become better informed as to the facts, "for when fully in possession of them there is no doubt that their verdict will

be for the immediate conservation as the one act that will most nearly guarantee ample supplies of gasoline over the longest period and at the most reasonable price."

Asserting that the country is rapidly reducing its supplies of minerals, Requa said that "the three parties at interest—the public, the Government and the industry—can well unite in a common cause for the elimination of waste now so painfully in evidence."

"My official control during the World War of the petroleum industry then convinced me that the nation must inevitably sooner or later adopt a policy of conservation and encourage the petroleum industry in every way in making that policy effect," he declared.

"The public, the Government and the industry may well join hands in promoting this great constructive measure for the conservation of our petroleum resources."

Hoover's Oil Policy Illegal Under Court Decisions, Says Abstractor. By the Associated Press. SANTA FE, N. M., April 12.—P. S. Donnell, oil abstractor of Santa Fe, yesterday advanced a contention that President Hoover's oil conservation policy is illegal because of the decision of the appellate court of the District of Columbia last Jan. 7 in the case of the Secretary of the Interior West vs. U. S. ex rel Alling.

This decision, Donnell said, favored the defendant when former Secretary of the Interior West refused an oil permit to a girl who was 17 years old.

Donnell declared the Department of the Interior lost the original

case and then suffered adverse decisions in both the supreme court and the appellate court. He said the Government, after losing in the appellate court, decided not to carry the case farther.

Two decisions of the court, Donnell pointed out, have a direct bearing on the Hoover oil conservation policy. One of them declared that the Secretary of the Interior is powerless to refuse a permit or to interfere with the statement of the statutes and that the law does not imply power to the Secretary of the Interior to make rules or regulations in conflict with the statutes.

CANADIAN OFFER ONCE REFUSED

By the Associated Press. WASHINGTON, April 12.—Treasury Department officials say that the offer by the Canadian Government to permit this Government to station customs inspectors on Canadian public docks will be declined, as was such an offer during the antimuggling conference in Canada last winter.

The offer was declined at that conference, officials say, because this Government thought it could derive no benefit from stationing inspectors on the Canadian docks.

L. & N. LEASE OF HENDERSON CONDITIONALLY APPROVED

By the Associated Press.
WASHINGTON, April 12.—A conditional approval of the Louisville & Nashville Railroad plan to take over under lease the property of the Louisville, Henderson & St. Louis line was granted today by the Interstate Commerce Commission, despite minority protests from the Henderson company's stockholders.

The L. & N. now owns 55 per cent of the common stock of the Henderson line, the commission's report said, and desires to lease the Henderson common stock and \$5 on all of its outstanding preferred. The commission held that the terms were fair and reasonable, but in view of the objections presented in behalf of Henderson minority stockholders, added that the Louisville & Nashville also had been required to arbitrate the question of the value of minority shareholdings and should agree to buy them at the arbitrated figure at any time.

Stolen Auto Hits Safety Zone.
After a Ford coupe struck a concrete safety zone at Page boulevard and Walton avenue at 11 o'clock last night, a man crawled from the wreckage and ran away. Tracing the license, police found the car was one which William Colby, 5071 Maple avenue, had reported stolen from Kingshighway and Page boulevards at 8:20 p. m.

Radio material is bought and sold through Post-Dispatch Wants.

MANY QUERIES ON U. S. RECOGNITION OF VATICAN STATE

To These the State Department Replies That "The Question Has Not Yet Arisen."

By the Associated Press.

WASHINGTON, April 12.—Many letters inquiring whether diplomatic relations are to be resumed between the United States and the Vatican are being received at the White House and the State Department from many parts of the country.

In response to these letters and to those inquiring about the American Government's attitude in the event the present concordat between Italy and the Vatican, recognizing the sovereignty of the latter state, is ratified, the State Department sends a brief note informing the writers that "the question has not arisen."

Following the policy of silence established by former Secretary of State Kellogg when the Italian-Vatican agreements were signed by Premier Mussolini and Cardinal Gasparri, the Papal Secretary of State, the State Department declines to discuss the American attitude in any way. It was pointed out today that the agreements had not been ratified and the matter could not be discussed until final action was taken by the papacy and the Italian Government.

No Formal Notification Received.
The American Government has received only the most highly informal information regarding the agreement and concordat between the Vatican and Italy. It is expected in some circles here that this Government will be officially informed of the recognition by Italy of the sovereignty of the Vatican after the agreements are ratified.

In that case, it was pointed out, the United States would then be "aware" of the existence of the Vatican state, but this would not necessarily imply diplomatic recognition of its sovereign status by this Government. It is, of course, not known what the attitude of the American Government on re-establishment of diplomatic relations with the Vatican would be if the concordat and agreements with Italy are ratified.

Feuders Likely to Be Sent Out.
While it is not impossible that Cardinal Gasparri might approach the United States on the question of diplomatic recognition after the signing of the agreements with Italy, it is doubted that any formal step would be taken by the Papal Secretary of State until informal approaches had been made to the American Government to learn its attitude.

The United States sent a diplomatic representative to the Vatican more than 80 years ago after a considerable debate in the Senate over the appropriation for his salary. Those who support the proposal contended that the Minister to the Pope would not be sent in a spiritual character, but "to evince sympathy with the spirit of freedom" which had broken out in Italy.

Jacob L. Martin of North Carolina, was made Charge d'Affaires to the Vatican April 7, 1848. He died at his post. Lewis Cass of Michigan, succeeded him and was later raised to the rank of Minister-Resident. From that time, the United States had four Ministers-Resident at the Vatican. The last of them was Rufus King of Wisconsin, who was commissioned Oct. 7, 1862, and resigned in 1867. Mentioned in Grant's Message.

In his message to Congress in 1869 President Grant said he had been officially informed of the annexation of the Papal States by Italy and that the United States had recognized the change in the status of their sovereignty.

An Apostolic Delegate, representing the Pope, has been in residence in Washington for many years, but he has no diplomatic status standing with the American Government. Great Britain, France, Spain, Germany and most of the other European nations, as well as most of the American nations except the United States and Mexico maintain diplomatic relations with the Vatican.

**ARCHBISHOP OF CANTERBURY
CANCELS TRIP TO PALESTINE**
English Primate Said to Have Made Decision in Deference to Pope's Wishes.

By the Associated Press.
LONDON, April 12.—The London Daily Telegraph says the recent cancellation of the proposed visit of the Archbishop of Canterbury to Jerusalem and the Holy Land was in deference to indirect wishes of the Vatican.

The English primate, the paper said, recognized the delicate religious situation in the Holy Land, and when he received intimations his projected trip there was regarded with some misgivings by the Holy See he abandoned it. He had planned the visit as a part of a cruise aboard J. P. Morgan's yacht while he recuperates from a severe illness.

The paper said it understood the Vatican received representations from the Latin Patriarch of Jerusalem, Mgr. Barlassina, that he was much disturbed at the prospect of such a visit from the head of the Church of England for the first time since the reformation.

Found Shot Dead on Roadside.

By the Associated Press.
KANSAS CITY, Mo., April 12.—A man thought to be H. W. Gooen, 25 years old, of Concordia,

Mo., was found dead from a shotgun wound in his head beside an automobile on U. S. Highway No. 40, east of here last night. A key-ring and letters bore the name.

The second you add Heinz Tomato Ketchup to steak or chop you'll find every morsel has a better flavor than it had before. And then besides there is the added delicious fresh tomato flavor of this ketchup itself, rich and spicy.

U.S. TO TAKE PART IN INTERNATIONAL LAW CONFERENCE

State Department Submits to League Viewpoint on Three Subjects to Be Codified.

Special Cable to the Post-Dispatch and New York World.

GENEVA, April 12.—The United States virtually pledged itself to participation in the first international conference for the codification of international law, to be held here early in 1930 under the auspices of the League of Nations, when the State Department forwarded to the League secretariat comments upon two of three subjects which will be codified.

The action by Washington is considered highly significant in League circles in view of the fact that heretofore American opposition to the World Court and the League has been based partly upon the absence of a codified national law to govern their procedure.

The American viewpoint upon nationality and territorial waters set forth in a document of about 100 pages on each subject. An accompanying note explained that the American comments on a questionnaire sent by the League to the State Department on the question of the "responsibility of states for damage done in their territories to the persons or property of foreigners" will be forwarded as soon as possible.

American co-operation with League members to establish what the Americans regard as the League's principal reason for existence is taken here as final proof of the changed attitude toward League activities in the United States.

The State Department's reaction to the recent disclosures that the League of the United States in reply to a query from the League was responsible for the inquiry on the part of the permanent legal committee to fix an earlier date for the meeting of the international conference is apparent in the communication.

A note to Sir Eric Drummond, secretary general of the League, explains because "it was not possible to submit the American government's response at an earlier date." Washington also explains that the observations upon League's questionnaire should be regarded informative and not necessarily commit the American delegation to the forthcoming conference.

While the American viewpoint on the question of nationality has been disclosed officially, the consensus of the other governments that have already submitted their viewpoints does not agree with the American laws regarding married persons. The Europeans are unwilling to agree that women marrying foreigners keep their own nationality. The marriage does not confer upon them the nationality of their husbands. Many other difficult aspects of the nationality problem, the different countries being widely split on fundamental points.

There is a general agreement that territorial waters limits should be fixed at three miles, except in so far as bilateral treaties established otherwise for fisheries, navigation, or other reasons. The preparatory law committee, which was unable to finish its work in February because of the absence of the American report, will start again in May to frame a final draft of the program for the 1930 conference.

MOTHER AND SISTER WHO GRAPPLES WITH HIM

Special to the Post-Dispatch.
NEW YORK, April 12.—Henry Thersa, Jr., 26 years old, a laboratory assistant at the Pan-American Hospital, yesterday shot and killed his mother, Mrs. Raquel Thersa, 55, and fatally wounded his sister, Theresa, 19, according to police. Laboratory associates said a young man had been acting strangely recently. The last they saw of him was at 2:30 p. m. yesterday.

An hour later he called at his home. As he entered he met his mother. Theresa, greeted her and went to the dining room. A moment later she heard a shot and ran to the dining room. Her mother lay on the floor, shot in the head. Above her stood her son, revolver in his hand. Theresa struggled with him and was shot in the right hand. Then he turned toward the door and Theresa went to telephone the police.

When his sister at the telephone, fired at her twice more, striking her in the right shoulder and chest. Then he fired another shot into his mother's body and ran from the room. Theresa ran after him, grabbed the revolver. She telephoned police headquarters and collapsed on the floor beside his mother's body. She died at a hospital. Theresa was shot in the right hand and a city-wide search is being made for him.

LIQUOR SMUGGLING IN POLICE AUTOS CHARGED

Second Officer on Detroit Force Accused of Aiding Bootleggers.

By the Associated Press.

DETROIT, Mich., April 12.—Police Sergeant Edward Shaw was suspended today on charges that he was involved with Capt. Joseph A. Burkheiser in the Belle Isle liquor scandal. The specific charges against Shaw are:

That he carried liquor and ordered police officers to carry liquor into Burkheiser's living quarters in the Belle Isle police station.

That he made a false statement to his superior officers on April 5, 1929, when questioned with respect to carrying liquor into Burkheiser's quarters.

Shaw made a complete denial of the charges. He was ordered to appear Tuesday for trial before the Police Board.

Burkheiser was suspended yesterday on allegation that on at least two occasions he had detailed Police Department's boats to escort liquor-laden boats to the United States from Canada to prevent their seizure by Federal patrol officers and had used Police Department automobiles to transport liquor from Belle Isle.

Burkheiser, who has been ill with influenza, is in a hospital. He will be tried by the Police Board as soon as his condition warrants, Rutledge announced.

New men added to the border customs patrol in the reorganization following the customs graft scandals last fall, and patrol boats and automobiles not speedy enough were given by Cary D. Ferguson, Collector of Customs, as the reasons why liquor runners have been able to land cargoes with impunity all day long at the foot of Riopelle street.

Two border customs inspectors were stationed all night last night at the dock at the foot of Riopelle street.

KIEL HIMSELF SPENT \$1832 COMMITTEE ABOUT \$45,000

Mayor Miller's Personal Expenses \$2489; Organization Said to Have Paid Out \$300,000.

Former Mayor Kiel spent \$1832.50 personally in his unsuccessful campaign for the Republican nomination for Mayor. It is shown in his account filed with the Recorder yesterday. The items were: Filing fee paid the Republican City Committee, \$200; donations, \$250; cigars, \$25.50; advertising, \$350; various workers, \$920; letters and postage, \$50.

Mayor Miller, whose personal account was filed Wednesday, spent \$2489.75 in the primary and election campaigns. Kiel's committee spent about \$45,000 and has a deficit of \$2000. It will file a detailed report if the law is found to require one. Miller's primary committee has decided not to file a report in the law does not require it, and charges that up to \$200,000 was spent in Miller's behalf have gone unanswered.

Comptroller Nolte, Republican, who was elected to a fourth term without Democratic opposition, spent \$1125, including a \$1000 assessment by the Republican City Committee after the primary. His other items were: Filing fee paid the committee, \$160; Promotional League Bulletin, \$15; the Squib, \$10; the Jewish Record, \$10.

JUGO-SLAVIA HOLDS CROATIAN STUDENTS AS REVOLUTIONARIES

Sixty Arrested, Charged With Distributing Pamphlets Attacking Present Regime.

By the Associated Press.

ZAGREB, Jugo-Slavia, April 12.—Sixty Croatian students were arrested yesterday, charged with printing and distributing seditious pamphlets attacking the present regime and signed "The Revolutionary Organization of Croatian Youth."

The Government telegraphed its Minister at Prague to seek permission of the Czechoslovakia Government to search the rooms of many Croatian students there in the belief that they had formed a branch of the revolutionary body whose premises were raided here.

PRAGUE, Czechoslovakia, April 12.—Foreign Minister Eduard Benes and United States Minister Lewis Einstein yesterday exchanged documents ratifying a treaty of friendship and arbitration.

THE REV. EDWARD S. WHITE TO QUIT TO GO TO CHICAGO

Rector of Episcopal Church of Holy Communion to Announce Resignation Tuesday.

The Rev. Edward S. White, for the last nine and a half years rector of the Episcopal Church of the Holy Communion, 289 Washington boulevard, will announce his resignation to the vestry Tuesday, to become rector of the Church of the Redeemer in Chicago, to which he was elected today.

The Rev. Mr. White, who came here from Chicago, said he was leaving St. Louis with regret, but looked forward to his association with University of Chicago students at his new church, which is near the university campus.

It is the second largest parish in Chicago.

new 1929 Water Witch Electric Gyrator Washer

7 Distinctive FEATURES

- 1 Large capacity, extra wide, copper tub for large washings. The tub is nickel-plated inside.
- 2 Automatic safety wringer release which removes all danger to hands and clothing.
- 3 Extra fast triple-vane gyrator. Washes safely, thoroughly and silently.
- 4 The famous Lovell Wringer. All metal, rust-proof. Employs balloon-type rolls.
- 5 Bronze graphite bearings that furnish a constant and positive supply of oil for the life of the washer.
- 6 Splash-proof, 1/2 h.p. electric motor. Will operate both washer and wringer at the same time.
- 7 All enclosed drive shaft. No exposed gears. Prevents injury to children.

The new Water Witch is of such sturdy construction and mechanical perfection that we guarantee it against all defects in material and workmanship for 10 years. That is an extraordinary guarantee. The Water Witch has proved itself to be one of the greatest washing machines on the market today. In a recent test, the new Water Witch was run continuously for more than 143 days and nights. More than a lifetime's washing without a stop! 3,455 hours of continuous action! That means more than 30 years of average washings. At the end of this record-breaking test, not one part of the machine was sufficiently worn to necessitate repairs.

That's why we guarantee it for 10 years. What other washer carries such a liberal guarantee and represents such a truly remarkable value?

30 Days' Trial

We have so much confidence in the Water Witch that we believe in letting it sell itself to you. You may have the Water Witch in your home for a 30 days' trial. Do all your washing with it. If, for any reason, you are dissatisfied with the machine, you may return it. Your experience will not cost you a cent.

Nymph Washerette

Only at Sears, Roebuck and Co. can you buy the Nymph Washerette. This exclusive feature comes to you free of charge with the Water Witch. It makes it possible for you to do that small mid-week washing without doing a whole tubful. The Nymph is really a small washing machine in itself.

MUST KISS HIS WIFE DAILY

If John McCabe Fails, He Will Go to Workhouse.

NEW YORK, April 12.—John McCabe of Brooklyn, who admitted that he beat his wife, was directed by Magistrate Kilperin yesterday

to kiss her every morning for six months or serve that period in the Workhouse. And there must not be any more beatings, the magistrate said, or McCabe will have to go to the Workhouse anyway, with no time off for the kisses already served.

McCabe executed the first day's sentence in court and the pair returned home.

M'DANIEL URGES PARTY ACTIVITY THROUGHOUT YEAR

Defeated Mayoralty Candidate Makes Proposal for Permanent Group at Dinner in His Honor.

Democratic leaders of St. Louis are considering the proposal made at a luncheon in his honor yesterday by Lawrence McDaniel, who failed of election as Mayor on April 2 by 7114 votes, that a permanent organization of active party workers be formed to meet at monthly or other intervals, in order to maintain the harmony and enthusiasm of the recent campaign for better luck in future elections.

The luncheon, at the Annex Hotel, was attended by about 200 men and women, including leaders in McDaniel's campaign and a majority of the Democratic City Committee. It concluded with the voicing of unanimous adoption of a resolution offered by John I. Nangle, who was chairman of McDaniel's Organization Committee, in which the gathering announced "our purpose to continue the fight for clean, honest, just and efficient government, and to support and uphold the hands of all those who labor to that end."

Resolution Praises McDaniel.

The resolution also congratulated McDaniel on the showing he made in reducing the usual big Republican majority and expressed belief in him and his principles of good government.

McDaniel had been away for a rest following the election. It was announced upon his departure that he had gone to the Ozarks, but he confided to a Post-Dispatch reporter at the luncheon that he had discovered after the announcement was made that Ozark hotels are not open yet, so he decided two hours before train time to go to Chicago, where he slept for 48 hours in a North Shore hotel. Mrs. McDaniel was presented with a large bouquet of pink roses at the luncheon by Mrs. C. B. Paris, Democratic National Committee woman, in recognition of the "tremendous asset" she was to her husband in the campaign.

Inferring that a powerful Republican machine backed Mayor Miller, his winning opponent, McDaniel said, in his address:

"I came within 7000 votes of election aided only by friends; this is more than a moral victory. The Democratic party is the most wonderful party in the United States 354 days in the year, but it's not worth a darn on the other day, which is election day."

Favors Permanent Organization.

"In the spring of 1923 we marched on the enemy, we came within 7000 votes of capturing the citadel. Let every one of us dig in right now, let's entrench right here, let's hold the ground we made for—if one of the enemy shows up in no man's land, sweat him; don't retreat. I'd like to see this organization (the one that backed McDaniel), which is practically the same one that served in the Smith campaign, made permanent. Why can't we have meetings of this kind monthly, or twice a month, or every three months, and keep the fires burning?"

"The people of St. Louis have shown repeatedly that there are enough independent voters here to elect a Democrat, if they think he is the best man, provided the Democratic party will show its strength. (Politicians) have blamed McDaniel's defeat on the failure of Democrats to vote. That will be true in the future. Some of my friends have said to me: 'I'll never vote for a Democrat again.' I say, 'You're not my friend; you're just a plain damned fool.' That's the trouble: Democrats have always retreated in the past."

"Early in this campaign we started with a committee to find a Democratic candidate. They said they couldn't find one, so they looked for a Republican. In the primary I got only 11,000 votes and it was said that if I got in the election all the Republican votes Kiel got in the primary I couldn't win. Why, if they had given us two weeks more we would have won. We had 'em on the run."

"Let's make this campaign committee permanent. It's going to be called on next time, anyway. Let's get ready for the election a year from November and the one two years from this April. Let's start right now, not the day before the election. I don't mean to imply that I'm a candidate, but I'm a Democrat unlicked, undismayed and untrifled."

Hay Cites Harmony.

Charles M. Hay, nominee for United States Senator last year, chairman of McDaniel's Radio Committee and one of McDaniel's leading campaigners, presided at the luncheon. In an opening address he pointed out that no scandal of suspicion of McDaniel's public or private life had been raised, called attention to the harmony of various groups in support of McDaniel and described the fight which Democrats had made for efficient city government.

Touching on the party revitalization which is in the minds of various leaders, Hay said: "I have no plan for the reorganization of the Democratic party, but it should be our plan and purpose to strengthen our party organization and to enkindle the devotion of the people to the party and the principles

for which it stands." In introducing one of the speakers, Hay recalled that McDaniel got only 11,000 votes in the primary but 101,000 in the election, while Mayor Miller got 90,000 in the primary and only 208,000 in the election. The Mayor's vote had been described as a "vote of confidence," he added, but he called it a "vote of suspicion."

Lashly Refers to "Crime of 1914."

Jacob M. Lashly, chairman of the McDaniel Executive Committee and president of the St. Louis Bar Association, said: "This fight is not over; we were not just fighting to elect McDaniel. We have come to the conclusion that we have a government largely controlled by materialistic influences. We have concluded that government by a party machine is not good government for the city. This meeting is testimony that we are not through; we are going on till the crime of 1914 shall have been rectified."

Lashly referred to the 1914 City Charter, which provided for election of Aldermen at large and has had the effect of giving the majority party exclusive control of the municipal government. He condemned this situation, pointing to the need for minority representation. He urged that persons desiring better government talk about it, replying on the spread of the spoken word to defeat other forces.

Miss Alberta Allen, the next speaker, declared that McDaniel's fine race should be an inspiration for the rebuilding of the Democratic party.

William L. Igou, nominee for Mayor in 1925, told the audience: "Mr. McDaniel lost the certificate of election but we won everything else. Political parties ought to be organized for some other purpose than holding office. In the last campaign, under McDaniel's leadership we were fighting for principles, for better government. I believe the discussion he led will prove of value to the party and to the people, also to the Republican party and, I hope, to the administration that goes in again."

For More Democratic Clubs.

"I believe it is unfair to blame the legal party organization (the Democratic City Committee) for the result when 40 per cent of the people failed to visit the polls to express themselves on vital issues. I lay the blame on the citizens. There isn't any Democratic machine that can drag the people out to exercise their right of suffrage, but there is a machine on the other side. It's a poor victory when the result shows that less than one-third of the people gave approval to the administration which is returned to power."

"McDaniel made a magnificent fight. One of the saddest things

DE GRAFF DENIED USE OF UNIVERSITY OFFICE

Dr. Meyer Will Continue to Use Laboratories Containing His Devices, However

COLUMBIA, Mo., April 12.—Dr. Harmon O. de Graff, former assistant professor of sociology, who was ousted from the faculty of the University of Missouri for his part in distribution of the sex questionnaire, has been informed by President Stratton E. Brooks that he can no longer occupy an office in the sociology department. Dr. de Graff asked Brooks before the president's departure on a trip East if he could use the office for the remainder of the present scholastic year.

Dr. Max F. Meyer, head of the psychology department, who was suspended for one year, said he would continue to use the psychology laboratories for private matters, although his official connection with the university for the present is severed. Meyer explained that the laboratory contained many devices which he had built in the 29 years of his faculty membership here.

"The whole thing is very interesting but I have not statement to make on the movement," Dr. Meyer said when asked if he intended to accept the offer to go to Europe on a \$5000 fund now being collected at Kansas City for him. He said he was not personally acquainted with Rabbi Samuel S. Mayerson of Ennis Jewish Temple, Kansas City, who heads the movement. Included on the committee to secure the fund is Dr. A. Ross Hill, former president of the University of Missouri.

It is that so many persons knew about conditions and wouldn't join us to correct them for fear of reprisals from a political machine. It was one of the hardest and most difficult campaigns of my experience; it was hard to get help. "I have no plan for the future. I am willing, no matter how many defeats, to go on helping. In 11 of the 23 wards the members of the Democratic City Committee have been in office less than three years. What we need is the active help of every Democratic man and woman to go on helping. In the party and the principles for which it stands. Let us encourage the present Democratic clubs and if necessary organize more."

URGES BRITAIN TO EXTEND TRADE THROUGHOUT EMPIRE

Chamber of Commerce Association Head Offers Solution to Industries Problem.

LONDON, April 12.—Making his presidential address at the annual meeting of the Association of British Chambers of Commerce, George Mitchell said the extension of imperial trade seemed to offer some solution of the difficulties confronting British industry.

"The ideal of the British Empire would be to have free trade throughout the Empire, and with

such free trade an enormous growth in trade could be expected," he declared.

Regarding the position of trade generally, the best that could be said was that there appeared to be a rather better foundation for an increased production than there had been for some years, Mitchell stated.

"The ideal of the British Empire would be to have free trade throughout the Empire, and with

such free trade an enormous growth in trade could be expected," he declared.

Regarding the position of trade generally, the best that could be said was that there appeared to be a rather better foundation for an increased production than there had been for some years, Mitchell stated.

GREENLAND RADIO STATION IN COMMUNICATION WITH BYRD
Michigan Observatory Exchanges Messages With Explorer for 30 Minutes.
ANN ARBOR, Mich., April 12.—Direct radio communication between the expedition of Commander Richard E. Byrd in the Antarctica and that of the University of Michigan in Greenland, was established Wednesday night and maintained for almost a half hour.
Prof. William Herbert Hobbs, director of the university weather observatory in Greenland, announced he had received a message from W. S. Carlson at the Mount Evans station, stating Byrd and his had exchanged meteorological observations for several minutes.

EIGHT BOYS CONFESS STORE BURGLARIES
Gang Led by 16-Year-Old Who Escaped From Bellefontaine Seven Times.
With the arrest of a gang of eight juvenile burglars led by a boy who had escaped seven times from Bellefontaine Farms, police expect to clear up about 50 Kresge store burglaries since last December.
All said to have Confessed.
His accomplices in most of the burglaries were Thomas Mackey, 16, and Jesse Ellis, 17. Occasional assistants were Louis Scholtes, 14; Virgil Dillingham, 14; John Cole, 17; Robert Easton, 14; and George Murphy, better known as "Wee Wee." Craden, Mackey and Ellis roomed together at 2651 Washington boulevard. The others lived with relatives, except Ellis and Murphy who are now in the House of Detention and Bellefontaine Farms, respectively.
All are in custody and have made confessions. Capt. Tabb of the Dayton Street Police District announced.
Grover Admits Buying Loot.
Max Weisberg, a grocer at 2701 Thomas street, who admitted buying merchandise from the boys, sold stolen butter, candles, cigarettes and razor blades to Weisberg for a fraction of their real value. Weisberg denied knowing he was buying stolen goods.
In an effort to rescue his friend, "Wee Wee" Murphy, from Bellefontaine Farms, Wednesday night, Craden hired a taxicab and with several companions drove to that institution. They threw pebbles at Murphy's window to awaken him, but broke the window and were chased by a guard. Their taxi bill was \$19.60.
Later that night Mackey and Ellis robbed a store, were shot at by one policeman and captured by another. They gave information which led to the roundup of the rest of the gang.

WOMAN PREACHER AND CHOIR SINGER HELD FOR BURGLARY
Illinois Pair Said to Have Admitted Breaking Into Summer Cottage.
JERSEYVILLE, Ill., April 12.—Mrs. Lucy Dawson, former pastor of the River Bottom Church on the Wild Cat Ranch, Greene County, is in jail here, charged with burglary and larceny. Alec Matthews, a former singer in her church, is accused with her.
They are said to have admitted entering the summer home of E. A. Smiley of Collinsville, near the mouth of Coon Creek, and taking clothing, silverware and other articles valued at several hundred dollars.
They were arrested by the caretaker, Willie A. Galde, on a second visit to the place. They later took Deputy Sheriff Clyde Myers to a houseboat moored on the Calhoun County side of the Illinois River, where the stolen property was recovered.
When arraigned, Matthews charged Mrs. Dawson had taken the articles, although he protested. He said she was his housekeeper and asserted his home was at Pearl, Ill. Mrs. Dawson asserted Matthews had taken the property. She said she formerly lived at Whitehall, where her husband was a junk dealer. She declared she had been licensed to preach. Her first and last pastorate had been the church on the Wild Cat Ranch. "I first met Matthews," she stated, "during the war, when he was on his way to the training camp. I wrote to him during the war."

GAMBLERS SAID TO HAVE SHARE IN WISCONSIN DOG RACE TRACK
Promoters Supposedly From St. Louis and Alton Accused in Legislative Debate.
MADISON, Wis., April 12.—Promoters reported to hail from St. Louis and Alton, Ill., have found places in Wisconsin's legislative discussion of dog racing tracks, as has Alfonso (Scarface) Capone, Chicago gang chieftain.
Assemblyman Evan A. Davies charged that Capone was the beneficiary of the contribution and refund system used at the Mount Kennel Club at Brookfield, Waukesha County, and that the St. Louis and Alton promoters were using the sport merely as a camouflage for gambling.
Davies is the author of a bill to prohibit dog racing. The committee voted 4 to 2 to present the bill for passage. He said the bill's receipts last year were more than \$346,000, but that only \$131,000 was reported for taxation, due to provisions of the present law.
Missions Body Calls on Hoover.
WASHINGTON, April 12.—E. P. Cotton and a committee representing the Allied Foreign Missions Board called upon President Hoover to urge that he consider the interests of foreign missionaries in making appointments to the diplomatic corps in countries where missionaries are active.

MADISON, Wis., April 12.—Promoters reported to hail from St. Louis and Alton, Ill., have found places in Wisconsin's legislative discussion of dog racing tracks, as has Alfonso (Scarface) Capone, Chicago gang chieftain.
Assemblyman Evan A. Davies charged that Capone was the beneficiary of the contribution and refund system used at the Mount Kennel Club at Brookfield, Waukesha County, and that the St. Louis and Alton promoters were using the sport merely as a camouflage for gambling.
Davies is the author of a bill to prohibit dog racing. The committee voted 4 to 2 to present the bill for passage. He said the bill's receipts last year were more than \$346,000, but that only \$131,000 was reported for taxation, due to provisions of the present law.
Missions Body Calls on Hoover.
WASHINGTON, April 12.—E. P. Cotton and a committee representing the Allied Foreign Missions Board called upon President Hoover to urge that he consider the interests of foreign missionaries in making appointments to the diplomatic corps in countries where missionaries are active.

EIGHT BOYS CONFESS STORE BURGLARIES
Gang Led by 16-Year-Old Who Escaped From Bellefontaine Seven Times.
With the arrest of a gang of eight juvenile burglars led by a boy who had escaped seven times from Bellefontaine Farms, police expect to clear up about 50 Kresge store burglaries since last December.
All said to have Confessed.
His accomplices in most of the burglaries were Thomas Mackey, 16, and Jesse Ellis, 17. Occasional assistants were Louis Scholtes, 14; Virgil Dillingham, 14; John Cole, 17; Robert Easton, 14; and George Murphy, better known as "Wee Wee." Craden, Mackey and Ellis roomed together at 2651 Washington boulevard. The others lived with relatives, except Ellis and Murphy who are now in the House of Detention and Bellefontaine Farms, respectively.
All are in custody and have made confessions. Capt. Tabb of the Dayton Street Police District announced.
Grover Admits Buying Loot.
Max Weisberg, a grocer at 2701 Thomas street, who admitted buying merchandise from the boys, sold stolen butter, candles, cigarettes and razor blades to Weisberg for a fraction of their real value. Weisberg denied knowing he was buying stolen goods.
In an effort to rescue his friend, "Wee Wee" Murphy, from Bellefontaine Farms, Wednesday night, Craden hired a taxicab and with several companions drove to that institution. They threw pebbles at Murphy's window to awaken him, but broke the window and were chased by a guard. Their taxi bill was \$19.60.
Later that night Mackey and Ellis robbed a store, were shot at by one policeman and captured by another. They gave information which led to the roundup of the rest of the gang.

WOMAN PREACHER AND CHOIR SINGER HELD FOR BURGLARY
Illinois Pair Said to Have Admitted Breaking Into Summer Cottage.
JERSEYVILLE, Ill., April 12.—Mrs. Lucy Dawson, former pastor of the River Bottom Church on the Wild Cat Ranch, Greene County, is in jail here, charged with burglary and larceny. Alec Matthews, a former singer in her church, is accused with her.
They are said to have admitted entering the summer home of E. A. Smiley of Collinsville, near the mouth of Coon Creek, and taking clothing, silverware and other articles valued at several hundred dollars.
They were arrested by the caretaker, Willie A. Galde, on a second visit to the place. They later took Deputy Sheriff Clyde Myers to a houseboat moored on the Calhoun County side of the Illinois River, where the stolen property was recovered.
When arraigned, Matthews charged Mrs. Dawson had taken the articles, although he protested. He said she was his housekeeper and asserted his home was at Pearl, Ill. Mrs. Dawson asserted Matthews had taken the property. She said she formerly lived at Whitehall, where her husband was a junk dealer. She declared she had been licensed to preach. Her first and last pastorate had been the church on the Wild Cat Ranch. "I first met Matthews," she stated, "during the war, when he was on his way to the training camp. I wrote to him during the war."

GAMBLERS SAID TO HAVE SHARE IN WISCONSIN DOG RACE TRACK
Promoters Supposedly From St. Louis and Alton Accused in Legislative Debate.
MADISON, Wis., April 12.—Promoters reported to hail from St. Louis and Alton, Ill., have found places in Wisconsin's legislative discussion of dog racing tracks, as has Alfonso (Scarface) Capone, Chicago gang chieftain.
Assemblyman Evan A. Davies charged that Capone was the beneficiary of the contribution and refund system used at the Mount Kennel Club at Brookfield, Waukesha County, and that the St. Louis and Alton promoters were using the sport merely as a camouflage for gambling.

PROGRESSIVES WANT ON SENATE COMMITTEE

La Follette and Brookhart Eye
Vacancies on Interstate
Commerce Group.

By the Associated Press.

WASHINGTON, April 12.—Senate Republican progressives are looking toward the two vacancies in the Interstate Commerce Committee, with Senators La Follette of Wisconsin, and Brookhart of Iowa among those in line for the appointments. The Republican regulars also are giving some attention to the membership of the committee.

Senator Watson of Indiana, majority leader, has declared that his new duties will forbid his retention of the Interstate Commerce Committee chairmanship. Watson, however, will serve under the new chairman, Senator Couzens of Michigan, as the ranking member. Looking ahead to the regular session beginning in December, leaders see the possibility of railroad legislation, including the pending consolidation bill of Senator Foss (Rep.), Ohio, coming up for consideration.

One of the wealthiest men in the Senate, Couzens is regarded as one Republican independent, of the so-called progressive group in the Senate. However (Rep.), Nebraska, and Dill, Washington and Wheeler, Montana, Democrats, also are on the committee. Senator Schall (Rep.), Minnesota, is reported to be among those seeking membership on the committee, and it seems likely he will get ahead of La Follette or Brookhart. The Republican Committee on Commerce probably will meet Tuesday or Wednesday.

For Uruguay Tariff Reprisal.

MONTEVIDEO, Uruguay, April 12.—The directorate of the National "Frigorifico" has asked the Government, in view of the proposed increase in the United States tariff on chilled and frozen meats, to double or raise even higher the local tariffs on goods imported from the United States. Last year Uruguay imported goods to the value of \$28,415,394 while its exports to the United States \$10,245,225.

DIES SHORTLY AFTER RELEASE FROM NEW YORK POLICE CELL

Special to the Post-Dispatch.

NEW YORK, April 12.—An investigation is under way today into the arrest and subsequent death of Arthur M. Smith, wealthy Cleveland, O., manufacturer, who died at the Hotel Barclay yesterday after spending half a night in a police cell. An autopsy also was to be performed on his body.

Smith, who had been in ill health for several weeks, was arrested by a patrolman who found him in the

driveway of a Park Avenue hotel, dazed, bleeding from the mouth and with a bump on the right side of his head. The patrolman summoned an ambulance from Bellevue Hospital, but after a hasty examination, Dr. S. C. Wallace, in charge of the ambulance, returned to the hospital without the patient. Smith was then locked up. Two hours after his release in the morning he died.

The police, it is said, will seek to determine why the man was not taken to the hospital instead of a police station.

Smith, who was an officer of the

Gas Machinery Co. of Cleveland, came to New York from Atlantic City, accompanied by his daughter, Susanne, 7, and a nurse, last week. He was 49 years old and was born in Quincy, Ill.

\$10,000 Bank Holdup in Chicago.
CHICAGO, April 12.—Two men with sawed-off shotguns held up employees of the Lansing State Bank today, shielded themselves from the weapons of bank guards by kidnapping the cashier and escaped with two bags containing about \$10,000 in cash. A confederate waited in an automobile outside to aid the getaway.

\$5,000,000 AIRPLANE MERGER

Aircraft & Airways, Inc. Takes
Over Pittsburgh & Reading.

PITTSBURGH, Pa., April 12.—Merger of Pittsburgh & Reading Airways, Inc., of Reading, Pa., with Aircraft & Airways of America, Inc., was effected here yesterday and meetings of stockholders have been called to ratify the action.

The new corporation will be known as Aircraft & Airways of America, Inc., with an authorized capital of \$5,000,000 and offices in Pittsburgh and New York. The

president of the company is F. Le Moyne Page of Pittsburgh.

The name of Reading Airways, Inc., will be changed to Eastern Air Transport and will, it is planned, operate daily service between Pittsburgh and New York City; Pittsburgh, Philadelphia and Atlantic City and Cleveland. Pittsburgh, Baltimore and Washington.

Greece to Buy Legation in U. S.
By the Associated Press.

ATHENS, April 12.—The Government has announced its decision to purchase the Legation Building at Washington by means of a loan from the Bank of Athens.

INQUIRY ON CRUDE RUBBER

WASHINGTON, April 12.—Secretary of Commerce Lamont has started an informal inquiry as to the status of the American reserve for crude rubber, organized a few years ago by large consumers in this country at a time when foreign monopoly of the product was engaging attention. Congressional inquiry as to the reserve, generally known as the rubber pool, caused the secretary's action.

At the time the American movement was initiated, an organiza-

tion of East Indian rubber producers with British Imperial government support, was engaged in restricting production. These restrictions were lifted last year.

Pilot Hurt, Brother Killed.
GREENVILLE, S. C., April 12.—Herbert L. Simon of Greenville was killed and his brother, Charles, was seriously injured yesterday in an airplane crash. Charles Simon was piloting a plane, a new machine which he had just sold. It went into a spin at an altitude of a few hundred feet as it was gliding toward the municipal airport.

had just sold. It went into a tail
spin at an altitude of a few hun-
dred feet as it was gliding toward
the municipal airport.

NORTH DAKOTA LOSES CLAIM FOR OVERCHARGE BY RAILROAD

**C. C. Makes Only Minor Finding
Against Northern Pacific**
Complaint of State.
WASHINGTON, April 12.—A
North Dakota State complaint ask-
ing for the return by the Northern
Pacific Railroad of alleged over-
charges on a series of ship-
ments of wheat products made through
Grand Forks, N. D., between Octo-

ber, 1928, and October, 1929, has
been dismissed by the Interstate
Commerce Commission with only a
minor finding against the railroad.
The State Mill & Elevator Asso-
ciation, owned by the State, alleged
the overcharges resulted from
wheat shipments milled in transit
at its Grand Forks plant. The
Commission decided that on all
such shipments which moved to
points east of North Dakota, a
proper charge had been made by

the railroad.
However, that part of the ship-
ments which went back to Mc-
Henry, N. D., after being moved
over a Northern Pacific route
through Minnesota was declared to
have been subjected to overcharge.
The Commission ruled that the
Northern Pacific should make a
refund of the amounts held to be
overcharged after estimating the
total, but dismissed the complaint
without further order.

24-HOUR AIR SERVICE TO WEST COAST MAY 1

New Schedule for St. Louis-
Kansas City—Omaha Line
Is Announced.

The schedule for the Universal
Aviation Corporation's St. Louis-
Kansas City—Omaha mail and pas-
senger service, which will open
May 1, was announced today. The
new route will make connections
at Omaha, which will permit of
less than 24-hour service between
St. Louis and the Coast, which is
two days and nights faster than by
rail.

A plane will leave St. Louis at
7:25 a. m., and connect with the
Boeing and Western Air Express
lines at Omaha, the cargo arriving
in Los Angeles at 4:15 a. m. next
day, or in San Francisco at 4:30 a.
m. Eastbound service will leave
Los Angeles at 7 p. m. and San
Francisco at 8 p. m., arriving in St.
Louis at 5:30 p. m. next day. By
June the company expects to run
two planes daily each way.

Mail and passengers will be car-
ried between St. Louis and Kansas
City in two and one-half hours, and
between St. Louis and Omaha in
four and one-half hours. The pres-
ent passenger service between St.
Louis and Kansas City will be dis-
continued.

Three Fokker transport planes,
with upholstered cabin for passen-
gers and another for pilot and
mail, will be used. They have been
ordered and are expected to arrive
in a few days. Each will be pow-
ered by a 400-horsepower Pratt &
Whitney Wasp engine, a radial air-
cooled type, and will have a cruis-
ing speed of 110 miles an hour,
with maximum ground speed of
140 miles an hour.

ONE DEAD, ONE MISSING, THREE HURT IN DETROIT EXPLOSION

Police Seek Cause of Detonation
That Wrecked a Four-Story
Building.

By the Associated Press.
DETROIT, Mich., April 12.—
While firemen searched through
debris, police today sought to de-
termine the cause of an explosion
which late yesterday demolished a
four-story building on East Jef-
ferson avenue, between Randolph
and Bates streets, damaged two ad-
jacent structures and caused the
death of one man.

Three persons were injured and
one is missing. The explosion oc-
curred at 6:23 p. m., in a build-
ing used on the ground floor as a
paint and varnish warehouse.
Within a few seconds fire broke
out in the two adjoining buildings.
The dead man who had not been
identified early today, was blown
into the street as he passed the
building. The three injured per-
sons were knocked down, suffering
minor hurts. Herbert Tallon, head
of a furniture company, who was
thought to have been in the build-
ing at the time of the explosion,
had not been found early today.

EX-CROWN PRINCE VISITS MILAN AS "VON GELDEN"

Also Goes to Geneva, Where He
Registers Under the
Same Name.

By the Associated Press.
ROME, April 12.—The newspa-
per Lavoro Fascista says that the
former German Crown Prince re-
cently spent three days at Milan
under the name "Von Gelden," ac-
companied by his secretary, Count
von Schwering.

The Prince was said to have vis-
ited a number of city monuments
and the public gardens. He later
left for San Remo.

By the Associated Press.

GENEVA, April 12.—Former
Crown Prince Frederick William
arrived here Wednesday night and
remained at a hotel under the
name "Von Gelden." He visited
the principal monuments of the
city yesterday and then motored to
Rapallo, where he intends to stay
a week.

SUES TO DIVORCE YOUTH WITH WHOM SHE ELOPED

Mrs. George Comfort of Webster
Groves Charges Husband
Abandoned Her.

A suit for divorce was filed yes-
terday at Clayton by Mrs. Georgia
B. Comfort against Harley B.
Comfort, 215 North Gore avenue,
Webster Groves, with whom she
eloped two years ago when both
were 18 years old.

The petition, brought by her fa-
ther, George O. Herbert, superin-
tendent of the service bureau of
the Missouri Pacific lines, as next
friend, alleged general indignities,
abandonment and failure to sup-
port. They were married Dec. 1,
1926, at Greenville, Ill., and sepa-
rated May 16, 1928, when she went
to live with her parents at 634
Fairview avenue, Webster Groves.
Clarence Comfort, president of
the Comfort Printing and Station-
ery Co., is the father of the de-
fendant.

The petition asks for restoration
of her maiden name.

The Rev. G. F. Degen, 80, Dies.
BOSTON, April 12.—The Rev.
George Frederick Degen, 80 years
old, former canon of the Episcopal
Church at Augusta, Me., and once
dramatic critic of the Chicago Tri-
bune, died here yesterday at the
home of his daughter, Miss Jessie
Degen. He served pastorates in
Iowa, Arkansas, Kansas, South
Carolina and Tennessee. He was
once chaplain of the Actors' Church
Alliance. His widow, his daugh-
ter and a son, Lieutenant-Colonel
John Alden Degen, U. S. A., re-
tired, survive.

SPONSOR OF ALLEGED ROMNEY WON'T SUBMIT TO X-RAY TEST

London Dealer Says It Might In-
jure Coloring; Doubts Value of
Method Anyway.

By the Associated Press.
LONDON, April 12.—A. L. Nich-
olson, the London art dealer who
sold an alleged Romney portrait
of the Duchess of Sutherland, has
written to the London Daily Mail
a refusal to submit the painting to
an X-ray test. It had been sug-
gested that such a test of the pig-
ments would reveal whether the
portrait was genuine, as Mr. Nich-

olson believes, or only a copy as is
contended by the Duke of Suther-
land.
Nicholson explained that the X-
rays might damage the colors on
the canvas. He also declared that
he had little confidence in such a
mechanical ratification of a mas-
terpiece.

The dealer, who has offered to
refund the money he received for
the portrait, still believes that if
the Duke of Sutherland would con-
sent to the showing of the portrait
that is in his gallery side by side
with the disputed picture, the au-
thenticity of the latter would be
proved.

The Nicholson picture was sold
to Howard Young of New York,
\$1650. It was catalogued as a
who in turn disposed of it for
\$150,000 to Carl Fisher of Detroit
Nicholson bought the painting in
work.

March, 1928, at auction for about
\$1650. It was catalogued as a
copy, but he was convinced then
that it was a genuine Romney
Nicholson bought the painting in
work.

Choice of American Coffee Lovers

PEOPLE who enjoy delicious
coffee, who relish the fragrant
steamy aroma that rises from
each cup—these people drink Old
Judge because of its inimitable
flavor. They know that it is always
good, always inviting, always
roasted and blended to the same
degree of excellence.

The Finest Financial News Published in St. Louis

Beginning next Monday the Post-Dispatch will
contain the most complete, accurate and in-
teresting financial news published by any St.
Louis newspaper.

Besides the closing prices and a complete re-
cord of sales on the New York Stock Exchange,
the Curb and the Bond Market, all these new
financial features will be included:

Closing prices of all stocks on the Chicago Stock
Exchange... special daily story from Washington
on financial and business developments there...
comment from Wall Street on important opera-
tions, personalities, etc... prices on the Boston
Exchange... paragraphs on important financial
activities of the day... reports from the New
York Produce Exchange... reviews of the Stock
Market, the Curb and the Bond Market, pointing
out price movements and the reasons for them,
the state of the Money Market, Foreign Exchange
news and happenings in the Commodities
Markets.

This news will come to the Post-Dispatch over
special Associated Press Wire direct from Wall
Street. You can get it in its complete form every
business day about 4 o'clock exclusively in the
Post-Dispatch.

THREE MEN TAKEN IN DRY RAID FREED

Identification by U. S. Agents
Who Drank Evidence
Doubted.

Investigations made by Federal prohibition agents who drink the evidence they buy to make their case were discredited yesterday when United States Commissioner James H. Mulderig dismissed three defendants in a raid March 16 on a poolroom at 2906 Park avenue. The defendants were William H. Scheer, proprietor of the poolroom, and William S. Martin, an employee. They were charged under the new Jones law with sale and possession of liquor, conviction of which carries a maximum penalty of five years in the penitentiary and fine of \$10,000.

The prosecuting witnesses in the preliminary hearing were Prohibition Agents John P. Mulderig and Charles J. Huning. Mulderig formerly was a street car conductor and admitted he wore his conductor's uniform when obtaining evidence of liquor sales until ordered by his superiors to discontinue the practice. Huning formerly was a day policeman.

Both Mulderig and Huning testified they bought whisky March 7 at 10 cents a drink in a back room of Scheer's poolroom from a man they identified as Scheer. They said they drank the liquor and that it was "pretty good," and that they took with them when they arrested a 75-cent bottle of moonshine. Both men described themselves as good judges of whisky "taste," and on cross-examination Mulderig said he had had his "taste" three times a week regularly since prohibition became effective up to the time he was appointed a prohibition agent a few months ago.

Scheer denied that he served liquor to the agents or that he had been found in a room in his house when it was raided. He said he had rented the back room to a man named Hall, who conducted card games there and was known as a hip-pocket bootlegger. Several employees of the St. Louis Public Service Co., whose office is across the street from Scheer's poolroom, testified that at the time the prohibition agents came to have bought whisky from Scheer he was in his office passing checks for them. The men told about Hall and said he resembled Scheer.

Further doubt on the identification made by Mulderig and Huning came from their failure to agree in identifying a man they took them to the place. Mulderig pointed out one man and Huning took the stand, having been out of the room when Mulderig testified, he pointed out a positively identified another man.

Under the circumstances of doubtful identifications Assistant District Attorney Hapke recommended the men be discharged, saying the Government did not desire to clutter up the docket with "trivial cases."

WARRANT AGAINST POLICE CHIEF FOR DESTRUCTION OF PROPERTY

Nameoki (Ill.) Officer Charged
With Breaking Manholes in
Granite City.

A warrant charging Police Chief Herman Raub of Nameoki, Ill., with destruction of property was issued today on an affidavit of Assistant District Attorney Hapke of Granite City, who charged Raub destroyed manholes to allow flood water from Nameoki, to drain through the Granite City sewer system.

Nameoki, which adjoins Granite City on the North, has no sewer, and streets were flooded during the recent rains. The Granite City sewers and pumping plant were overburdened and further damage resulted from flood water.

MICHIGAN VILLAGE BURNS

Without Fire Protection and
Communication Falls
MANISTIQUE, Mich., April 12.—Without fire fighting equipment and with outside communication cut off, residents of Good City were forced to stand by and watch fire destroy most of their village today.

Eleven buildings were destroyed, including the telephone exchange and the lines to Manistique, the nearest town with a fire department. Damage was estimated at \$100,000.

DRINKS CUSTOMER; FINED \$50

Store Manager Appeals, Alleging Self-Defense.

Emmett White, manager of a saloon drug store at Eighth and Washington avenues, was fined \$50 yesterday by Police Judge Mack for striking a Negro customer.

White testified that Lonzo, owner of 2228A Walnut street became hostile in the store last Saturday after making a purchase and approached him in a threatening manner when he went outside and called a policeman. He said he was defending himself. A charge of assault was returned against White, who was dismissed. White appealed.

Grants Bombed Negro Dancer.
KAGRE, Coala, April 12.—Croatian University students of the Clerical party expressed their contempt at the appearance of a woman named Baker, American Negro dancer, at a theater here by hurling various missiles at her and shouting: "Long live Croatian culture. Down with such vulgarity." The students eventually were ejected from the theater and several arrests were made.

ONE CHANGE EXPECTED IN SERVICE BOARD

Caulfield Likely to Reappoint
Ing and Painter but Not
Calfee.

By a Staff Correspondent of the
Post-Dispatch.

JEFFERSON CITY, April 12.—Announcement of at least one change, and possibly two, in the personnel of the Public Service Commission is expected from Gov. Caulfield within the next week, the terms of three commissioners having expired.

Although the Governor has not authorized a statement of his plans regarding the commission, it is the expectation here that he will reappoint Almon Ing of Poplar Bluff, the chairman, and may reappoint J. P. Painter of Milan, who was appointed six months ago by former Gov. Baker to succeed Thomas J. Brown, who resigned. It is not expected that Dudley F. Calfee of Jefferson City, another Baker appointee, will not be retained.

If only one new member is appointed, there is strong probability that the place will go to Milton R. Stahl, a lawyer of St. Louis. One obstacle to his appointment is the fact that one of the five members of the commission, J. H. Porter, is from St. Louis.

It is known that the Governor has a particular interest in the Public Service Commission, with which he became very familiar when as city counselor he appeared before it in utility cases. He is said to have a determination to build up the personnel of the commission with the strongest men he can find, and he also is said to lean to the idea that it will be necessary for him in most cases to pick young men.

The salary of a commissioner is \$5500 a year, and the Governor is said to doubt that he can find the experienced men he would like to have at that figure.

Among others under consideration are: A. H. Harrison of Steelville, now president of the State Penal Board; Dr. Ed S. Brown of Edina; Sam Clark of Carrollton, and George E. Murrill of Hartsville.

MISSOURI AND ILLINOIS RIVERS RECEDING FROM FLOOD STAGE

Both Expected to Be at Normal
Height in Few Days; Meramec
Also Dropping.

Recession of flood waters in Missouri and Illinois rivers was reported today by Weather Forecaster Montrose W. Hayes, who said the streams would be back to normal in a few days, unless there are heavy rains.

The Mississippi here stood at 30.5 feet today, .5 of a foot over flood stage. The flood along the Missouri between Booneville and St. Charles is about spent and falls were recorded from Booneville east today.

The Osage at Tuscumbia will start to fall tonight, as will the Illinois at Beardstown. The Meramec at Valley Park dropped .3 foot between 1 a. m. and 7 a. m. today and will continue to fall.

Thirty acres of wheat were inundated when the Mississippi broke a small levee protecting the farm of George Buehner, near Granite City yesterday. Men worked with sandbags last night reinforcing a levee protecting 900 acres of fertile land on Gabaret Island, owned by the Noddinghaus estate, west of Granite City. The water was within two feet of the top of the levee.

Indian Lake is spreading along Illinois Highway 11 and workmen are laying sandbags to protect the road. Horseshoe Lake has left its banks, blocking a highway around the lake.

CONTRACT TO CLEAR DRAINAGE DITCH LET FOR \$121,860

Wolf Hole Canal in Southeast Missouri to Be Cleaned and
Widened.

Special to the Post-Dispatch.
SIKESEON, Mo., April 12.—Bids for the cleaning of Wolf Hole ditch, two miles south of here, were opened by drainage district officials here Wednesday. The Colohan Construction Co. of St. Louis was awarded the contract on a bid of \$121,860 for removal of 1,100,000 cubic yards of material, clearing right-of-way and construction of embankment along the 15½ miles of ditch.

The ditch will be cleaned and widened from the Scott-New Madrid County line, south to St. Johns Bayou in New Madrid County.

Other bidders were: Otto Ketchickzy Construction Co., \$121,031; Clark Construction Co., \$130,154; Willis Construction Co., \$142,301; Fred M. Crane Co., \$144,241, and Winston Bros., \$152,492.

FORGES CHECK TO PAY SALOON

Man Uses Name of Prominent
Broker on Draft.

A man who used the name of a prominent broker to persuade a garage to pay an \$11 saloon debt for him with \$53 worth of tires is being sought by police.

Michael Been, saloonkeeper at 1023 Allen avenue, questioned last night when Johnson Bros. Tire & Service Co., 2147 Washington boulevard, reported a \$52 forged check, said a man named Maloney who owed him \$11 had offered to pay with tires. Maloney, he said, made a telephone call and later showed him two new tires on Been's machine, parked at the door. Johnson Bros. had been summoned by a man who gave the service attendant a \$52 check forged with the broker's name when the tires were mounted.

When "go" finds you gone

You don't have to beat the signal. It's just the quick flash of power from SHELL 400 "EXTRA DRY" that gives you the jump on the other cars. . . . And you can keep ahead of them just as easily on the road. For SHELL 400 "EXTRA DRY" is an honest, clean-bred, hard-working gas that never thinks of quitting. CARDINALS RETURN HOME; WILL ENGAGE IN PRACTICE HERE TODAY

"BIG THREE" OF HURLING STAFF DUE TO WORK IN SERIES OPENER

American League President to Visit St. Louis April 19

CHICAGO, April 12.—PRESIDENT E. S. BARNARD of the American League will be among the notables at the season's opening games between Washington and Philadelphia at Washington next Tuesday.

In accordance with his announced plan to see more baseball games this summer, Barnard will make a swing around the circuit following the opener.

His itinerary calls for New York, April 17; Cleveland, April 18; St. Louis, April 19; Philadelphia, April 21; Detroit, April 22; Boston, April 23, and Chicago, April 24.

Showing many new faces, the Cardinals arrived home last night and went to Sportsman's Park at noon today, where they held a two-hour workout. The team, with the exception of two pitchers, Fred Frankhouse and Bill Hallahan, is ready to start the playing season, and, just to prove his veteran hurlers are in condition, Manager Southworth intends to use Haines, Alexander and Sherdel for three innings each against the Browns tomorrow in the opening game of the spring series. This would leave Southworth's choice for the opening game at Cincinnati Tuesday between this trio, Mitchell, Haid and Bell will work in Sunday's game.

"I will use the same team that has played in the exhibition games," Southworth explained, "when we take the field against the Browns tomorrow. That is the 1929 Cardinal club. Bottomley will be at first, Frisch at second, Gelbert at short, Haney at third, Hays in left, Douthett in center and Roettger in right. I will switch my catchers around according to the pitchers used by the Browns."

Will Use Substitutes.

"The Cardinals will be out there trying to win the Browns' series and if the weather opens up a bit, I will give my men orders to cut loose. I plan to do a lot of substituting, using practically two teams in each game. Eddie Delker, the kid infielder, will be in there, too, and if he continues the way he has been going, he may stay in there. I am going to give him a thorough chance to gain a regular position on the Cardinal infield."

"I am well satisfied with the outcome of our training trip. Frisch impresses me a great deal and I will predict he is going to have another year like he did in 1927. Hallahan and Frankhouse, the only players who are not ready, are going to be coached along carefully. Both will fill in as relief pitchers until they show me they are ready to start games. Then I may add them to my staff of starting pitchers."

Lingrel a Fine Prospect.

"Lingrel looks like a good prospect to do relief duty. Haid is greatly improved, but will only relieve. Doak will relieve, too, as will Herman Bell. Haines, Sherdel, Alexander, Mitchell and now and then Syl Johnson, will take care of the starting assignments."

"I plan to play myself occasionally, and may take part in the spring series as an outfielder, going to right field. But Holm and Orsatti are very dependable outfielders and I intend to give them plenty of opportunities to help us win ball games."

Plenty of Hand Shaking.

There was a great deal of hand shaking as the Cards scampered out of Springfield, Ill., yesterday as their final road game was called off on account of rain. Members of the St. Paul club, who were there for an exhibition game, were wishing the Cards all kinds of luck. Included in the lot was "Bubbles" Hargrave, former Cincinnati catcher.

Manager Southworth announced to the players that he had accepted on their behalf an invitation to attend, in a body, tonight's performance of "The Desert Song" at the Shubert-Rialto. The invitation was extended by J. L. Karty, who wired Secretary Lloyd at Springfield.

"Gaby" Street will continue to coach at first base and "Greasy" Neale will remain on third, with Manager Southworth in the dugout, according to the Cardinal skipper's present coaching plans.

Boxers Suspended

PHILADELPHIA, April 12.—A number of suspensions of boxers were announced yesterday by the Pennsylvania State Athletic Commission. Among them are Freddie Mitchell, (Young Irish), Akron, O., suspended indefinitely for unsatisfactory services at Meadville, Pa., April 2, and Dick Evans, Youngstown, O., Evans is suspended indefinitely for failing to honor a contract at Oil City. He must honor it or obtain a release before competing elsewhere.

Rival Managers in National League Flag Race

National Clubs to Start With Only Two Minor League Graduates

Many Changes in Team Personnel but Nearly All Are Due to Trades of Veterans.

By Herman Wecke.

National League clubs, the Cardinals excepted, will rely on athletes who were snared from other major league teams for added strength in the coming pennant campaign. Only two men who were in the minors a year ago are expected to break in as regulars. They are Earl Sheely, who will play first base for the Pirates and Frederick, an outfielder, with the Robins.

Other teams will make changes, but they have added men who were in the big tent in 1928. For instance, the Cubs hope to land the pennant through the addition of Rogers Hornsby; the Giants expect Fred Leach to work wonders. These are the principal additions among the regulars with clubs which are picked as real flag contenders.

In addition to Frederick, the Robins expect aid from Glenn Wright, former Pirate, if his shoulder ever comes around. Frank O'Doul, an ex-Giant, will be in the Phillie outfield, while the Braves will rely on Rabbit Maranville and George Harper, former Cardinals, and Fred Maguire, from the Cubs. Or course, there will be some newcomers from the minors, with the various clubs, but they are not expected to get into the box scores daily.

A brief resume of the National League clubs, excluding the Cardinals, follows:

Cubs.

A real pennant contender, what with the addition of Rogers Hornsby's batting punch. Joe McCarthy, however, still has a gap to fill satisfactorily at third base. O'Doul, an ex-Giant, will be in the Phillie outfield, while the Braves will rely on Rabbit Maranville and George Harper, former Cardinals, and Fred Maguire, from the Cubs.

Catchers: Hartnett, Gonzales, Angley, Grace.

Infielders: Grimm, Hornsby, English, Beck, McMillan, Blair.

Outfielders: Cuyler, Heathcote, Stephenson, Wilson, Taylor, Moore, Giants.

Chief strength added by John McGraw to the machine which ran second a year ago has come in the outfield, where Fred Leach, late of the Phillies, will hold forth in one of the positions. Hubble, who proved a sensation late last season; Ogden and Walker are expected to furnish added pitching strength. But McGraw is having troubles at the important second base position. McGraw's roster:

Pitchers: Benton, Fitzsimmons, Gooden, Hubbell, Henry, Mays, Ogden, Scott, Walker, Judd, Pyle.

Catchers: O'Farrell, Hogan, Schaik, Cummings.

Infielders: Terry, Reese, Cohen, Jackson, Lindstrom, Crawford.

Outfielders: Roush, Leach, Welsh, Kaufmann, Veltmann, Ott (also plays infield).

Pirates.

Donie Bush's outfit will again be a real pennant contender if all the players get into condition. Traynor has been acting as his pitcher Knepper. This team will show a fine outfield, a good infield, fine pitching and first-class catching.

Thomas Will Face Browns in Opener Here Next Tuesday

INDIANAPOLIS, Ind., April 12.—LPHONSE THOMAS, the Baltimore blonde curve artist, has been picked by Manager "Lena" Blackburne to hurl for the White Sox in their season's opener at St. Louis Tuesday.

Thomas has been improving rapidly under Texas sunshine and Blackburne believes he will give his mates a running start in the campaign.

There is plenty of hitting and defensive strength. The men Bush will rely upon:

Pitchers: Brame, Dawson, Fussell, Grimes, Hill, Kremer, Petty, Swetonic, Meadows, Mahaffey, French.

Catchers: Hargreaves, Hemsley, Linton.

Infielders: Sheely, Adams, Traynor, Bartlett, Stroner, Riccarda.

Outfielders: P. Waver, L. Waver, Grantham, Brickell, Comorosky.

Reds.

Jack Hendricks, from all appearances, will again have a fine pitching staff, but the club apparently lacks punch. In addition, one of the Reds' athletes, Pichnich, is still on the holdout list. Pichnich is needed. The team does not appear strong enough to put up a real battle for the pennant. The roster:

Pitchers: Ash, Donohue, Gudat, Johnson, Kapp, Lucas, Luque, May, Rixey, Zahner, McCoy.

Catchers: Pichnich (if he signs), Dixon, McMillen, Siskoford.

Infielders: Kelly, Criz, Ford, Drensen, Pittenger, Stripp, Lutzke.

Outfielders: Allen, Walker, Purdy, Zitzmann, Crabtree, Swanson.

Robins.

Club will finish just where some star pitchers, notably Vance and McGraw, can bring it home. Changes have been made, but team apparently is not of pennant caliber. The club has a shortstop threatened with appendicitis and various other ailments, not figured to give the nine a sensational start, even with great hurling.

Scribner Bowls Average of 273 For Six Games

Special to the Post-Dispatch.

DETROIT, Mich., April 12.—Joe Scribner, one of the country's leading bowlers, recently set a new individual record for six games in a practice round on the Garden alleys here. Scribner topped 1637 pins in the six games, for an average of 273. One of his games was a perfect score of 300.

Scribner is preparing for the city tournament at the Cadillac alleys. He opened with 268 and came back with two scores of 264. He then put 12 balls in the 1-3 pocket for a perfect game. Following this, he just missed making another in his fifth game, when the 10-pin stood on a pocket hit and he wound up with 273. He closed with 273, for a grand total of 1637.

Joe's 300 is the sixth one he has gathered in a period of three years. He recently won the world's match championship from Adolph Carlson of Chicago and then successfully defended it against Mort Lindsey, who is considered the leading bowler in New York City.

Thenow's Injury, a Tragedy for Phillies, Takes Lots of Color Out of the Race.

Robinson's roster:

Pitchers: Vance, McWeener, Clark, Balfou, Ehrhardt, Elliott, Koupp, Moss, Dudley.

Catchers: Gooch, Healine, DeBerry.

Infielders: Bisnette, Flowers, Wright, Gilbert, Bancroft, Rhel.

Outfielders: Carey, Herman, Bressler, Frederick, Cullop, Hendrick (also an infielder).

Braves.

Appear a hopeless proposition, even though Owner Emil Fuchs has declared that he will manage with the assistance of Johnny Evers and Hank Gowdy. That, however, will not help, inasmuch as pitchers, infielders, outfielders and what not are needed. The roster of the club:

Pitchers: Brandt, Cantwell, Cooney, Cunningham, Delaney, Greenfield, Hearn, Jones, Leveritt, Seibold, Bob Smith, Wertz.

Catchers: Collins, Leggett, Spolner, Taylor.

Infielders: Slater, Maguire, Maranville, Bell, Dugan, James, Farrell.

Phillies.

Burt Shotton's only real asset, a fine infield, snapped recently when Tommy Thevenow was badly smashed up in an automobile accident in Florida. Now Shotton must start all over and his chances of going higher than seventh appear not too promising. One thing certain, the club has few major league pitchers worthy of the name. The roster:

Pitchers: Benze, Baecht, Collins, Feneuse, McGraw, McGraw, Sweetland, Roy, Willoughby, Elliott.

Catchers: Lorian, Davis, Susce.

Infielders: Thompson, Hurst, Whitney, Thevenow (not expected to play this year), Friberg, Lyons.

Outfielders: Klein, O'Doul, Peck, Sothern, Williams.

A resume of the American League clubs will be published in Sunday's Post-Dispatch.

Voight to Play Fownes in Final At Pinehurst

By the Associated Press.

PINEHURST, N. C., April 12.—George Voight, New York, defending champion, shot the No. 2 championship golf course here in three under par 72 today, eliminating Phillips Finlay, Belmont, Mass., in the semifinals of the twenty-ninth annual men's amateur North and South golf tournament.

William C. Fownes Jr. of Pittsburg defeated Richard Wilson of Southern Pine, N. C., three and one to win the right to meet Voight tomorrow.

Voight played a remarkably accurate game, never once being in a trap and going into the rough only once, when he slightly over-pitched. He was out in 27 to Finlay's 49, and came back in 22, with two birdies, and an eagle on the inward nine.

Fownes, former national amateur champion, went out in 36 to 27 for Wilson to stand one up on the Georgetown University star. He came back in even 48, with an eagle three on the sixteenth when he holed from off the green.

BILLIKEN GRID SQUAD SHOWING GREAT PROMISE

By James M. Gould.

With the finest material in years engaging at the present time in spring practice, it is well within the possibilities that followers of the football fortunes of the St. Louis University Billikens will this year be rewarded for their years of loyal and patient vigil. Backs that can run, block, pass and kick; linemen that know how and when to charge and ends of speed and judgment. All these—and quite a number of each—may be seen working out every afternoon at old High School Field at Grand and Laclede.

Despite the fact that the Billikens' record for 1928 was a good one, St. Louis U. grads still talk about the great eleven coached by Eddie Cochems as "the team." Perhaps, this fall, watching the 1929 machine in action they may think some master hand has rolled back the curtain of the years to that time when St. Louis U. football was famous the country over.

Blocking is stressed.

The spring practice is being held under the direction of Head Coach Heartley (Hunk) Anderson and his capable assistant Charles (Chlie) Walsh. Both are products of Notre Dame; both were All-American selections. For years, Anderson was the chief assistant to Knute Rockne at the South Bend university.

If, in watching the new Billikens, you are struck by the blocking, it is the intensive training in blocking. Notre Dame teams have been famous for their wonderful adeptness at this art and the knowledge is being passed on to the Billikens by their coaches. And, many football observers declare that blocking is the most necessary part of any team's offense.

A squad of from 35 to 40 men works out each day. Of these, 23 are experienced football men. Naturally, Head Coach Anderson refuses to predict anything, but he cannot prevent a smile of satisfaction as he reads over his list of available players for next year.

From last year's eleven are Captain Joe Lintzsch, Eaton, Kimmel, Nadoff and Gazelle in the backfield. Returning linemen are Davidson at center, Edges, Corcoran, Schwartz, Eddie Brown and Cornell. Veteran ends are Drury, who came fast in the latter part of the season of 1928, Fred Brown and Daubner.

Coming up are a number of men who should prove stars. Foremost of these is Charles McKinney, who, it may be said right now, will be the team's 1929 field general; McKinney, a Philadelphia boy, played a year at Notre Dame and with the Billikens freshmen last season. He is listed among those who can "do everything."

Another picked to shine is Selesnik, from Portsmouth, O. He is short and stocky, but fast and an excellent blocker. Then, Abraham, the speedy Syrian youth, who is most likely to qualify for a backfield position. Murphy and De Cristoforo are two other freshmen of 1929 who are counted on to make the varsity backfield brigade. Trying for line positions with an excellent chance of making the grade are Fox, Newton, Antoine and Muller.

An Interesting Schedule.

The Billikens face a tough schedule opening late in September with the Oklahoma Aggies and continuing with Georgetown, Davis Elkins, South Dakota, Ogleshorpe, Coe and Washington.

Football seems a long way off, but to these ambitious Billikens. Their afternoons are spent in kicking, passing, running and blocking. And the greatest of these is blocking.

With the Washington Bears playing an attractive schedule and having splendid prospects, the St. Louis football season would seem to hold considerably more promise than usual, with the climax coming on Thanksgiving, when Bears and Billikens meet.

TRACK STARS QUALIFY FOR MEET TOMORROW

Preliminaries in the quadrangular track meet between Principia, Academy Clayton, University City and Country Day School were held at Taylor Field yesterday afternoon. It was necessary to run off trials in only the 100 and 220-yard dashes. The finals will be held tomorrow starting at 1:45 p. m.

The runners who qualified for the finals in the 100 and 220-yard dash events are as follows: 100-yard dash—Flavin and Israel, Clayton High; Allen, Principia; Taft, Smith, Landberger, University City; Boettler, Morton, Clayton Day School.

220-yard dash—Israel and Flavin, Clayton; Allen, Dennison, Principia; Boettler, Morton, Hirsch, Country Day; Taft, Smith, Landberger, University City.

Hartnett Ready to Work.

By the Associated Press.

KANSAS CITY, Mo., April 12.—"Gaby" Hartnett, Cub catcher, insist his salary wing is healed and that he is ready to work. Hartnett had caught a game all spring because of his lame arm and it is doubtful whether Manager Joe McCarthy will let him risk it for two weeks more.

Brownies Battle Springfield Club in Last Spring Game

SPRINGFIELD, Mo., April 12.—The Browns closed their spring exhibition schedule this afternoon, playing a game here against the Springfield club, the Phil Ball organization's newest farm addition.

Walter Stewart was Manager Dan Howley's pitching nominee, while Miller worked for the home club.

FIRST INNING—BROWNS—Blue rolled to Lewis. O'Rourke looked at a third strike. Manush singled to right. Jenkins walked. Kress forced Manush, Ccharein unassisted.

SPRINGFIELD—Church doubled to right. Thenhus tripled to center, scoring Church. Hooten flied to McGowan. Thenhaus scoring after the latch. Lewis popped to Kress. Best doubled to right. Hines was hit by a pitched ball. Hines was picked off first. Manion to right. **TWO RUNS.**

SECOND INNING—BROWNS—McGowan walked. Thenhaus threw out Melillo. McGowan moving to second. McGowan out stealing third. Camalo to Scharein. Manion looked at a third strike.

SPRINGFIELD—Scharein singled to right. Camalo sacrificed. Manion to Blue. Miller singled to right and Scharein was caught at the plate. Jenkins to Manion to Stewart. Miller went to second on the throw-in. Church looked at a third strike.

THIRD INNING—BROWNS—Stewart flied to Hooten. Blue singled to right. O'Rourke was safe on Thenhaus' error. Blue stopping at second. Manush singled past second, scoring Blue and sending O'Rourke to third. Jenkins flied to Hooten. O'Rourke scoring after the catch. Kress singled to right. Manush stopping at third. Kress was caught off base and was out. Camalo to Thenhaus. **TWO RUNS.**

SPRINGFIELD—Thenhaus popped to Melillo. Hooten walked. Lewis fanned. So did Best.

FOURTH INNING—BROWNS—Roberts went in to pitch for Springfield. McGowan flied to Roberts. Hooten made a glove-hand catch of Melillo's fly. Manion got two bases when Best dropped his fly. Manion went to third on a passed ball. Stewart singled to center, scoring Manion. Blue tapped to Roberts. **ONE RUN.**

SPRINGFIELD—Roberts played first. Dondoro second. Grimes third and McNeely left field for the Browns. Hines looked at a third strike. Scharein rolled to Kress. Camalo flied to McGowan.

FIFTH INNING—BROWNS—Grimes walked. McNeely forced Grimes. Thenhaus to Lewis. Jenkins rolled to Lewis. Kress singled to left, scoring McNeely, but went out trying to reach second. Hines to Church to Lewis. **ONE RUN.**

SPRINGFIELD—Dondoro threw out Roberts. Church looked at a third strike. Thenhaus flied to McNeely.

SIXTH INNING—BROWNS—Delp went to second base, Alexander left field. Stone to center field. Gray to right field and Wright to third base for Springfield. McGowan out, Church to Roberts, who covered first. Dondoro flied to Alexander. Manion rolled to Delp.

SPRINGFIELD—Streich went into of pitch for the Browns. Alexander singled to right. Delp forced Alexander. Dondoro to Kress, and muffed Kress' throw. Gray fouled to Grimes. Stone popped and flied to left center. Wright fanned.

SCHALK OWNS BALL WITH SIGNATURES OF FOUR PRESIDENTS

WASHINGTON, April 12.—One of the most prized possessions of Ray Schalk, big league catcher, is a baseball bearing the signatures of four presidents of the United States.

Schalk called at the White House today and obtained President Hoover's autograph upon the sphere to add to those of Taft, Harding and Coolidge.

For 30 years the House of Whiz has been making autos last longer

WHIZ Auto Products keep your car conditioned and make driving more of a pleasure. Whiz Gear Grease takes the noise out of gears. Whiz Top-Dressing makes your auto top better looking and longer lasting too. Have you a leaky, drippy radiator? Whiz Top-Leak fills the holes. Whiz Polish for Ducco and Lacquer removes smudges and stains from your auto body. . . and helps keep your paint job like new. Whiz Nickel Polyriv makes the metal on your car shiny as a mirror. Ugly scratches never get rusty if you paint them over with Whiz Touch-Up Enamel. They're backed by 30 years' experience. See your Whiz dealer today.

Whiz Products make your car look better, run better and last longer.

"BOXING CZAR" ADVOCATED BY JACK DEMPSEY

By the Associated Press.

CHICAGO, April 12.—Dempsey, promoter, is advocating a "boxing czar."

"What boxing needs is a man of action and power. Landis is in baseball," Dempsey said. "Today, there are too many controlling boxing organizations and none is in agreement with the other, it seems."

"These bodies should get together. There is much to be said and a supreme head is enough to make final decisions could lift the game up to a high standard."

Paul Frohn, chairman of the Illinois State Athletic Commission and president of the National Association agreed with suggestion.

"A good man with the power to carry out his ideas would be a great asset to the ring," Frohn said. "Today, there is too much difference in opinion. The various organizations should get together, form a compact organization and work in harmony for the good of the game."

"Nice work, Bill . . . that gives you the match 4 and 3"

"PLAYING mismatched clubs is like starting a match 4 down—too big a handicap. A Kroydon Matched Set, gives you the edge right from the start, because every club feels and swings alike. Concentrate on your shots, instead of on making allowances for clubs that are out of balance—and for better golf play a Kroydon Matched Set."

Only with Kroydon Matched Clubs is PERFECT BALANCE Certain

Every club in a Kroydon Matched Set is individually balanced and checked against other clubs in that set. This is important, because many so-called "matched clubs" are only roughly balanced on a straight edge or by trying their "feel" in the hands.

The only set that STAYS MATCHED

Ordinary irons invariably dent and nick. Dents are removed by filing, but this cuts away metal, and destroys balance. Irons made of soft steel also bend at the neck, which changes their loft.

Kroydon irons of hardened steel are dent-proof and do not bend. They are the only matched irons that remain in perfect balance.

Kroydon Sets are REGISTERED

An index is kept showing specifications for every club in a Kroydon Matched Set. A serial number is stamped in the club, and players may order duplicates or additional clubs by means of this index.

Same balance as your PUT CLUB

A complete set "made to measure" and duplicating the feel of your best club may be secured by having this club forwarded to the Kroydon plant. There is no extra charge.

RUST-PROOF (and non-tarnishing)

These irons are plated with a heavy layer of chromium. They not only remain like new, but are much harder than stainless steel clubs and have nick-proof, rust-proof soles.

Twelve piece Super-Matched Set consisting of three "Imperial" wood clubs, and nine irons with new Fly-Power steel shafts, \$150.00. Other sets of five, six, eight, or nine irons, \$48.00 to \$108.00. Set of three Matched Woods, \$25.00 to \$35.00.

Single irons, \$4.50 to \$8.00. Individual woods, \$5.00 to \$15.00.

Whiz Auto Products make your car look better, run better and last longer.

SEMIFINALS

EGGMANN ME BOEHMER, W HODGE OPPO ROBERT NOR

By the Associated Press.

CHICAGO, April 12.—Dempsey, promoter, is advocating a "boxing czar."

"What boxing needs is a man of action and power. Landis is in baseball," Dempsey said. "Today, there are too many controlling boxing organizations and none is in agreement with the other, it seems."

"A good man with the power to carry out his ideas would be a great asset to the ring," Frohn said. "Today, there is too much difference in opinion. The various organizations should get together, form a compact organization and work in harmony for the good of the game."

Good Doubles Match.

Both semifinal contests men's doubles should prove fast tennis. The feature of the tournament, Eggmann and Karl Hodge, logical finalists in the final match, will meet in the final match.

Eggmann meets Junior J. Hodge and Mrs. Violet Hodge. Eggmann has won previous matches. He is favored over Robert Nor.

The feature of the mixed semifinals is expected to be a match between Davis, Davis, and Davis. Davis, Davis, and Davis are the logical finalists in the final match.

Eggmann defeated Junior J. Hodge and Mrs. Violet Hodge. Eggmann has won previous matches. He is favored over Robert Nor.

Yesterday's Results.

Quarterfinal matches: Fred Justine, 6-4, 6-3, 6-4, defeated William J. Hodge. Fred Justine, 6-4, 6-3, 6-4, defeated William J. Hodge.

Quarterfinal round: Karl Hodge, 6-4, 6-3, 6-4, defeated William J. Hodge. Karl Hodge, 6-4, 6-3, 6-4, defeated William J. Hodge.

Quarterfinal round: Karl Hodge, 6-4, 6-3, 6-4, defeated William J. Hodge. Karl Hodge, 6-4, 6-3, 6-4, defeated William J. Hodge.

Quarterfinal round: Karl Hodge, 6-4, 6-3, 6-4, defeated William J. Hodge. Karl Hodge, 6-4, 6-3, 6-4, defeated William J. Hodge.

HIGH SCHOOL AND PREPARATORY LEAGUE

C. B. C. LINEUP FOR SEASON IS STILL IN DOUBT

By Robert W. Herr.
The opening game of the Prep League baseball season, which was scheduled for yesterday, between C. B. C. defending champions, and St. Louis U. High, on the Brothers' campus, was postponed because of wet grounds and probably will be played early next week. The contest, a second-round affair, was originally scheduled for late in the season, but was advanced because of conflicting schedules.

By Robert W. Herr.
The teams are in excellent condition for the tilt, which will have an important bearing on the final standing of the teams. The Brothers are out to win their third consecutive baseball title, but with only two letter men of last year back, prospects are none too bright for the Purple and Gold. The champions have been able to win but one practice game out of the six played. The regular lineup is still an uncertainty.

By Robert W. Herr.
The Brothers' only strength, apparently, lies in the battery. Both Duvic, veteran hurler, and Murphy, recruit, have done well in practice contests, but have not had the necessary support from the rest of the team. Johnny Lamb has been doing well as the catcher, and with Barry, a newcomer, as a capable second, the big problem at the Clayton road school is the development of a good infield and outfield.

By Robert W. Herr.
At St. Louis U. High things appear brighter. Coach Ed McCarthy, though having but three letter men returning, has a fairly representative team. The nine, though green in many departments, showed power in downing Central, a team which divided a two-game series with C. B. C. The Blue and White displayed a real batting punch.

By Robert W. Herr.
Though McCarthy has shifted his lineup, it is likely that the battery of Max and Sig Krygiel will remain intact. Sig did good work against Central, and in the continued illness of Bill Vollmer, all-star hurler of last season, will handle most of the mound duty at the U. High. The infield is fairly certain, with Pico holding down first base and Hartrich and Manahan fighting it out for second. Murray, veteran, has clinched the shortstop berth and Schultenreich looks the best bet at third. In the gardens, Mirette, Joe Connors, McCann and Stieber are the mainstays, but Courtney, a newcomer, is pressing the regulars.

By Robert W. Herr.
County meets during the past few years invariably have been attended with very close competition and rivalry between the schools of Benton, Christopher and West Frankfort and this year promises to witness even more determined efforts on the part of several entrants to capture the leading honors.

KID CHOCOLATE IS FAVORED TO DEFEAT GRAHAM

NEW YORK, April 12.—Elligio Sardinias and Angelo Geraci—otherwise Kid Chocolate and Bushy Graham—hope to shed a little light on the much-muddled bantamweight situation tonight. They clash at Jess McMahon's New York Coliseum in a 16-round bout which should see one or the other eliminated from the bantamweight picture.

Both were well over the bantamweight limit when they weighed in this afternoon. Graham scaled 121½ and Chocolate 120.

Chocolate, undefeated in his short career, rules the betting favorite at 7 to 5 but the experts, almost to a man, expect the Cuban Negro to find Graham the toughest man he has ever met.

Graham, who hails from Utica, N. Y., has been rated at or near the top of the bantamweight heap for more than two years. Some of the edges of his phenomenal speed may have disappeared but he still is a fighter worthy of any 115-pounder in the business.

Chocolate is much the harder hitter of the two and can box to boot. But it is doubtful if the Cuban will be able to stop Graham. The Utica "Spider" has been knocked out only once in his seven-year professional career. Spike Sullivan turned the trick in 1922, Graham's first year in the pro ring.

The bout is the first of a tentative series designed to produce a king for the now vacant bantamweight throne. There has been no generally recognized champion since early in 1927 when Charlie Phil Rosenberg forfeited his title by coming in over the weight in a championship match with Graham.

La Bara has several offers to fight in the East, including a bantamweight title fight with the winner of the Bushy Graham-Kid Chocolate bout which will be held in New York shortly.

By the Associated Press.
BOSTON, April 12.—Though many wise baseball men have warned Emil Fuchs, president-manager of the Boston Braves, he has made up his mind to give himself a fair trial in that dual role. In other words, he is not going to be discouraged from attempting the most amazing experiment in the National League.

TWO DISTRICT CHAMPIONS WIN AMATEUR BOUTS

CRYSTAL KNOCKS OUT KERNS; LEE GAINS VICTORY IN VOLMER TILT

M. P. A. C. AMATEUR BOXING RESULTS

SPECIAL BOUTS.
Heavyweight—Lester Schulte, Business Men's A. C., defeated Andy McColl, University Pacific A. C., three rounds, judges' decision.
Lightweight—Nathan Crystal, East St. Louis Knights of Columbus A. C., defeated Bobby Kerns, Missouri Pacific A. C., three rounds, judges' decision.
Welterweight—Cliff Doetzel, South Broadway A. C., defeated Jack Emmerich, East St. Louis Knights of Columbus A. C., three rounds, judges' decision.
William Finnegan, Missouri Pacific A. C., defeated John Voke, East St. Louis Knights of Columbus A. C., three rounds, judges' decision. Weight—135 pounds.
Joe Parks, Missouri A. C., defeated Jesse Pitt, East St. Louis Knights of Columbus A. C., three rounds, judges' decision. Weight—135 pounds.
John Voke, East St. Louis Knights of Columbus A. C., defeated Lester Schulte, Business Men's A. C., three rounds, judges' decision. Weight—135 pounds.
Harold "Spider" Kaderabak, South Broadway A. C., defeated John Chaffin, Missouri Pacific A. C., three rounds, judges' decision. Weight—125 pounds.
George Bechler, Missouri Pacific A. C., defeated George Smith, East St. Louis Knights of Columbus A. C., three rounds, judges' decision. Weight—125 pounds.
Referee—Harry Knauer.
Judges—Bill Jern and Ed Johnson.

By Damon Kerby

Two district amateur boxing champions who will compete in the National A. A. U. junior tournament at Chicago within 10 days, won their bouts on the Missouri Pacific A. C. amateur fight card last night at the Missouri Pacific arena, before about 1500 persons.

Nathan Crystal, district lightweight king, knocked out Bobby Kerns of the Missouri Pacific A. C. in the third round, and Kenneth Lee, welterweight titleholder, won by a hair-line decision over Louis Volmer of the Business Men's A. C. after three rounds.

Crystal had everything his own way, almost from the opening gong, in his bout with Kerns. Nathan, a youngster just now at the period of appearing to be all arms and legs, wearing the green trunks of the East Side K. of C., forced the fight throughout. He used an overhand right with success.

Dropped Five Times.
Kerns assumed a low crouch in an effort to stay out of range, and was partly successful until the final round. Crystal bored in, throwing overhand rights at Kern's jaw, and knocked the Missouri Pacific battler to the floor five times before Referee Harry Knauer awarded the bout to Crystal. There was no need for a count.

In contrast, the Lee-Volmer event was evenly contested. The district welterweight champion was busy every minute of the three rounds in working for the narrow decision he received. Volmer carried the fight to Lee much of the time, and was aided by the fact that Lee tried, with indifferent success, to follow the style of Davey Abad in bouncing around the ropes. Perhaps Volmer hadn't heard that an opponent could come out of the ropes in a hurry—at least he waded right in—and he never really gave Lee an opportunity to show whether the latter could bounce out of the ropes in a successful attack. Lee's best round was the second, when he drove Volmer around the ring with a series of smashing rights, mixed with an effective left jab. Boobs, mixed with cheers, and calls for "another round" greeted the decision in favor of Lee.

Doetzel Beats Emmerich.
The heavyweight sport brought together Lester Schulte of the Business Men's A. C. and Andy McColl of the Missouri Pacific A. C., two boys, remarkably alike in physique, but there the similarity ended. Schulte carried the fight all the way. McColl's followers probably considered it a moral victory that he lasted the distance.

Clifford Doetzel, former Western A. A. U. flyweight champion, who did not defend his crown at the last tournament, won the decision over Jack Emmerich of the East St. Louis K. of C. in a fast flyweight event.

Between bouts, Bob Probst, president of the Western A. U. U., presented John Schwake, heavyweight, and Lee, with awards for having won the championships in their respective divisions in the recent tourney.

20 to 1 Shot Wins Newbury Stake

By the Associated Press.
NEWBURY, Eng., April 12.—Anthony de Rothschild's 2-year-old Sionia won the Greenham Plate today by a length from Sol Jodel's Modder, with Major McCallum's Empire Builder third, another four lengths away. Sixteen 3-year-olds ran the straight mile in this feature, which had \$5000 added.

The winner, a chestnut gelding by Gallager Light-Salvus, started at 20 to 1, Modder at 19 to 1 and Empire Builder at 7 to 1.

Basket Captain Named

BLOOMINGTON, Ill., April 12.—Joe Baker, all conference choice for three straight years in the Little Nineteen, has been selected captain of Illinois Wesleyan's 1929 basketball team.

Dray's COLUMN

Is Babe Slipping?

BABE RUTH is approaching the serene and yellow, as baseball ages go. At 35 the assumption is that his "peak" is behind the Babe and that the toboggan chute awaits the King of Swat, just ahead.

In training games Ruth has made only one home run this spring. Also, the old pros have not moved with the same suppleness; and the feet no longer twinkle as they travel down to first.

However, Babe is not the only star who is not shilling this early. In fact, in other years it was mid-June before many of our best-known athletes attained their full stride. It may be that Babe will be later in rounding to form, but it seems unlikely that he will fade away to whisper in just one season, after having slugged out 54 homers last year.

This is the last season of the Bambino's \$70,000-a-year contract, and it is probable that Babe is working up slowly to his best form so that all of his power will be ready for delivery during the championship season.

Babe will have to spread something new on the records if he is to get another such contract as his last one—\$210,000 for three years.

Batting Eyes Dim Slowly.

As the batting eye is the last thing to go of all baseball playing talents, the Bambino probably will be found searching out the weak fences of enemy parks with those far-flung drives, just as of yore.

At least he can get a lot of encouragement by reading the records of Cap Anson and Ty Cobb, who, down to their very last days, continued to pound the old onion with almost youthful vigor.

It's About Time.

IN the questionnaire of President Avery Brundage of the Amateur Athletic Union are two questions of interest to the public, that long ago should have been brought up and disposed of. They are:

1. Shall an amateur be permitted to take part as an individual in competition with a professional?

2. Shall an athlete who is a professional in one sport be allowed to compete as an amateur in other sports?

The first question has been answered affirmatively by history, which shows several instances in which this wedding of the two divisions has been achieved without harm. We see it annually in golf, where the professionals and amateurs meet in "open" tournaments. These events create keener interest than either the purely "pro" or the amateur events, as they furnish a comparative test of the two classes.

In England and other countries amateurs have been permitted to become nonpaid members of professional teams, as in soccer football. They play merely for the glory and the experience.

No harm appears to have resulted. Amateurs should be permitted to play professionals so long as they are not doing it for profit.

As for No. 2, the plan of making a man professional in ALL sports because he has profited in one, is one of the outstanding incongruities of the sport code. It is almost as much a joke as the "no substitute" rule in soccer football.

Because an athlete earns his way through college by playing professional baseball in summer, he is therefore classed as a professional in football, track, tennis, basketball and all other sports.

This writer has never been able to find a solid reason for such discrimination. There would be less deception and concealment, if this uncalled for restriction were removed.

A. A. U. Is Needed.

THE present drive to break up the A. A. U. control of sports may have been brought on by lax management, but none the less this organization is needed. The advantage of nationwide control of amateur sports seems apparent; the problem is to prevent abuses of power.

President Brundage deserves the co-operation, not the antagonism, of other athletic bodies. He is making an honest effort to amputate the evils that have grown up and substitute a new and better governing system.

If the A. A. U. were wrecked it would merely bring about its replacement by some other governing organization with precisely the same functions—that of nationwide control.

Why not give the A. A. U. some help in its fight to clean house?

Built First Cinder Path.

Tigers' Manager Has Not Decided on First Sacker; Schuble Will Not Start

By James M. Gould.

Unwilling to hazard a guess as to where his team would finish and unable to gauge the situation as to furnish a probable lineup for the start of the season, next Tuesday, Manager Stanley (Bucky) Harris led his Detroit Tigers out of St. Louis last night and will start them, today against the Toronto Internationals in a final exhibition series.

While Manager Harris was a bit reticent as to his chances, he nevertheless did express confidence that the Tigers would finish higher than they have for some time past. "There's plenty of power on this ball club," he said, "and if the pitching comes up to my expectations, we may furnish the surprise of the season."

That being his idea, the natural question was, "Well, how about the pitching?"

"Look 'em over," Bucky replied. "George Chle is in great shape; Earl Borchert, as usual, ready to start the first day; Emil Fede, once with Pittsburgh, is sure to help, while Carroll, Sorrell, Billings, Smith, Gibson, Vangilder, Prudhomme and Barnes all have given good accounts of themselves. This kid left-hander, Frank Barnes, was a revelation to me and I am counting on him as a regular."

Harris still undecided. "How about the first base situation?" Will Alexander or Heilmann start the season?

"To be absolutely frank, I don't know. But if Alexander does start, you may be sure that Heilmann will be in the outfield. You can't keep either of that pair of punchers on the bench."

The impression gained was that Alexander would be at first next Tuesday, with Heilmann patrolling his old beat in right field.

"Really," Harris continued, "there's only one infield position unsettled at this time, and that's second base, where Charley Gehringer is a sure starter. I was disappointed in Schuble as a shortstop and I expect to use young Richardson at that position next Tuesday. That is, unless we can pull a trade or two before that post. If he is all right again, Harry McManus will be there, but he's had a tough time with that serum-affliction and may not be able to go. If he isn't—well, I guess I'll play there myself. In the outfield we have a lot of strength with Johnson, Stone, Heilmann, Rice, Ruble and Fothergill. As to which three will start the season, I'm not sure, but I always did like power. And there, so you may do some figuring yourself."

Satisfied With Catching. "Satisfied with your catchers?" "Well, yes. Shea is a fine receiver, and this young Ed Phillips, a fine hitter, is sure to stick. Looks like the third catcher will be "Pinky" Harrgrave. We may keep Larry Woodall and we may not."

Asked for a hint as to his place expectations, Harris said: "Don't know what you have the power to do. Every manager has confidence in his team, of course, but to make a prediction even as close to the opening of the season as this, is a bit precarious. So many things can happen—and generally do—that you don't expect that I'd rather say that the chances of our having better pitching than in some years is a fine one. Everyone knows that we have the power to supplement good pitching. And good pitching, plus power on the offense, will win a lot of ball games."

Bowie Charts

Weather clear; track heavy.

Special to the Post-Dispatch.

BOWIE, Md., April 12.—Following are the results of today's races:

FIRST RACE—\$1000, maiden 2-year-olds, four furlongs; Start good, won easily, place and show good.

Value to winner \$8.50, second \$2.00, third \$1.00, fourth \$0.50.

ADDITIONAL SPORT

BECKMAN WILL
HURL FOR BEARS
IN TIGER GAME

By Jerry Bernoudy

Some 10-odd athletes, members of the three Washington University squads, will depart for Columbia early tomorrow morning, where they will engage the University of Missouri teams in three sports. The two schools will meet in a baseball game, track meet and tennis match as the features of the annual Washington day program.

In tennis the Bears are conceded the edge over the Tigers, while the baseball game appears to be a toss-up. The State school athletes appear to hold the upper hand, however, in so far as the outcome of the track and field meet is concerned.

Capt. Jimmy Murphy, Joyce Patton, Harold Wiese and Vernon Tietjen will represent the local school in tennis. This quartet recently defeated the championship Grinnell team in a dual match. The addition of Fortney and Tietjen, sophomores, has greatly strengthened the squad.

The baseball game will be the second of the season for the Bears. In the initial battle, Don White's charges were defeated by the University of Iowa. Capt. Bill Beckmann will probably do the hurling for the Bears with Dave Tompkins being held in reserve.

Locals Strong in Track.

Washington has one of its best track squads in recent years, but the Bengals have always stacked up near the top in Big Six circles, so a Bear victory is unlikely. Weakness in the sprint and hurdle

events is expected to hamper the Bruins.

The three weight events appear to be the locals' strongest points. Captain Carl Bickel, who won both the javelin and discus events at the Missouri Valley meet last season, is counted upon to give the Bears a pair of first places, while Charles "Tiny" Glazer, the Missouri Valley indoor shotput champion, should add another five points in his event.

Carl Weber, veteran high jumper, has been doing over six feet in practice and if he is in form he should win. In the distance runs Washington's chances appear to be about on a par with Missouri. Thies Lohrding, Edward Blades and Paul Hageman will represent the Bruins in these races.

The list of track men scheduled to make the trip follows: 100-yard dash, Falzone, Freund and Kelly; 220-yard dash, Falzone, Freund and Gilmore; 440-yard run, Gilmore and Freund; 880-yard run, Lohrding and Hageman; mile run, Lohrding, Hageman and Olie; two mile run, Olie and Blades; high and low hurdles, Weber, Mann and Summers; broad jump, Poos, Timberlake and Kelly; high jump, Weber, Timberlake and Poos; pole vault, Miller and Marston; shotput, Glazer and Paris; discus, Bickel, Glazer and Paris; javelin, Bickel and Jablonsky.

Baseball players are Wagner, Rawdon, Ruehman, Kurz, Free and Jablonsky, outfielders; Smith, Ruehman, Meyer, Christiansen and Warner, infielders; Captain Beckman, Lyle and Tompkins, pitchers, and Hornsby and Gutman, catchers.

Clistock Meets Jones.

Jim Clistock, the big Oklahoma Indian, who Wednesday defeated Joe "Toots" Mondt of Colorado, in 14 minutes and 20 seconds, has been matched with Paul Jones, Los Angeles heavyweight, for the main event of a New Coliseum wrestling show. April 17 it was announced today.

CALIFORNIA BEARS TO
DEFEND ROWING TITLE
IN EASTERN EVENT

BERKELEY, Cal., April 12.—California's intercollegiate and world champion crew will defend its intercollegiate rowing title in the 10 regatta at Poughkeepsie, N. Y., next June. The executive committee of the University's student body decided yesterday to send both the varsity and freshman crews. An appropriation of \$10,000 will be made for the trip. The committee also approved plans to send a six-man track and field team to compete in the I. C. A. A. meeting in the East.

CHICAGO SUIT AGAINST
JACK DEMPSEY REVIVED

CHICAGO, April 12.—The Jack Dempsey-B. F. Clements feud was revived today with the service of papers on the former world's heavyweight boxing champion, notifying him he is being sued for \$200,000 damages by the Chicago

Coliseum Club and B. F. Clements, its president. The club charges Dempsey had signed to fight Harry Wills, then a contender for Dempsey's heavyweight title, and that the champion refused to go through with the match.

'BABY' STRIBLING TO
BOX GOLDBERG HERE

Eddie Goldberg, local welterweight, and Herbert "Baby" Stribling of Georgia, have been matched for an eight-round bout as a preliminary to the State championship featherweight battle of 10 rounds between Johnny "Peewee" Kaiser and Mexican Joey Rivers next Monday night at the New Coliseum. "Baby" Stribling is a brother of W. L. "Young" Stribling.

The Stribling-Goldberg match is the third bout closed by Matchmaker Tippet. Besides the Kaiser-Rivers match, the program calls for a 10-rounder between Mickey Gill, the Irish bantam, who defeated Mike Sansone a few weeks ago, and the Denver Kid.

BY PHILADELPHIA CLUBS

PHILADELPHIA, April 12.—Pruning has started in the ranks of the Phillies and the Athletics. Manager Shotton of the Phillies announced today that he had sent a rookie battery, Bill Derham, left-

handed pitcher, and George Shetliff, catcher, to the Scranton Club, of the New York-Pennsylvania League, on option.

Nick Borrelli, formerly of Muhlenberg College, has been sent on option by the Athletics to the Portland Club of the Pacific Coast League, also for seasoning.

Homer Peel, young outfielder obtained by the Phillies from Waco,

of the Texas League, is ill at his hotel and may not be able to play in the opening game of the National League season next week. Physicians said there were indications of appendicitis.

POLICE CONTINUE RAIDS ON BARS, FOUR VISITED

At 325 Commercial Building
Sergeant Asks for Key to
Safe and Finds Liquor.

Continuing activity against
places suspected of selling li-
quor, police yesterday raided four
places.

Men were sitting around tables
in Room 325, Commercial Build-
ing, Sixth and Olive streets, when
Detective Sergeant Willis and the
rum squad entered, but no drinks
were in evidence. Sgt. Willis
asked for the key to the safe and
was given it by Paul J. Murphy,
of 6110 Delmar boulevard. In the
safe were found 13 pints of whisky,
half a gallon of alcohol and a
quart of gin. Murphy was ar-
rested.

The rum squad confiscated 45
bottles of beer, 6 pints of whisky
and two quarts of wine found un-
der the bar at 4237 North Twen-
tieth street, and arrested John
Dyer, 40 years old, proprietor.
A gallon and a half of wine
were found in a shed in the rear
of 3123 Seventh boulevard by po-
lice who arrested Conrad Unger,
proprietor of a saloon at that ad-
dress.

A quart of whisky was found on
the drainboard of the bar at 939
Market street, where John Lee,
bartender, and Andrew DeMaggio,
proprietor, were arrested. It
was the second visit of the police
there in the past few days.

WOULD BAR RESTRICTIONS ON SUGAR FROM PHILIPPINES

Chairman of House Insular Com-
mittee Expresses Opposition
to Proposal to Hoover.

By the Associated Press.

WASHINGTON, April 12.—Op-
position to the proposed restriction
on the importation of sugar from
the Philippine Islands was ex-
pressed to President Hoover yester-
day by Chairman Kiess of the
House Insular Committee. When
the proposal comes before the
House, he said, it will go to the
Ways and Means Committee rather
than to his own group, and for this
reason he wanted to make his op-
position known to the President.

Like all other commodities im-
ported from the Philippines, sugar
is now free from the operation of
the tariff or other restrictions.
Kiess said that as long as the
islands are under the American flag
such barriers should be avoided. He
thought there was no danger that
the amount of sugar which comes
from the archipelago would break
down the sugar business in the
United States. He also called at-
tention to the increasing amounts
of exports from America to the
Philippines, citing this factor as
another reason for opposing the
sugar restrictions.

"I have never been for Philip-
pine independence," Kiess said,
"but I am with the Philippines 100
per cent on this."

GETS 60-DAY SENTENCE FOR DRIVING WHILE DRUNK

Dennis Buckley Was Arrested
After Auto Collided With
Police Machine.

Dennis Buckley, 34-year-old me-
chanic of 5946A Wabasha avenue,
was sentenced to 60 days in the
Workhouse yesterday by Police
Judge Beck on charges of driving
when intoxicated and careless driv-
ing.

Buckley was arrested March 14
when an automobile he was driv-
ing collided with a police depart-
ment car driven by Patrolman El-
mer Bruns about a half block from
Buckley's home. Buckley ap-
pealed.

SURPLUS IN FARM LABOR

Wages Somewhat Higher, Agricul-
tural Department Reports.
By the Associated Press.

WASHINGTON, April 12.—Agriculture is reported by the Department of Agriculture to have entered the spring season with a farm labor supply slightly in excess of the demand in all parts of the country. Farm wages April 1 were a little higher than on that date during the last three years.

The index of the Bureau of Economics of the department showed the supply of labor approximately 4 per cent higher than the demand, compared with 7 1/2 per cent last year. This difference was attributed to the higher volume of industrial employment.

CHILD, 2, FATALLY BURNED

Struck Match While Playing in
Blytheville Home.

ELYTHEVILLE, Ark., April 12.—Eleanor Arian, 2 years old, died at the Blytheville Hospital Wednesday night from burns suffered when her clothes were ignited by a match she struck while playing. She was badly burned from her knees to her head.

How the baby obtained the match is unknown. They were kept in that room, according to members of the family. When the child's cries attracted the attention of her sister, her clothes were in flames. The body, accompanied by the parents, Mr. and Mrs. Wolf Arian, was sent to Cleveland, O., where burial will be made. A sister, Miss Florence Arian, also survives. The family moved here six months ago from the Ohio city.

Flying Instructor Resigns.

By the Associated Press.
MARION, Ill., April 12.—Lieut. George L. Boyd of Minneapolis, flying instructor in the Universal Aircraft School here, has resigned, effective Saturday, to become an air-
mail pilot between Salt Lake City and Cheyenne. He expects to leave here Saturday.

THIS ARTICLE
MAY-STERM
GUARANTEED

Look for the May-Stern metal guarantee tag on every article of furniture you buy during this sale. It means you are buying merchandise that is actually guaranteed to give service and satisfaction regardless of its cost.

Bed-Davenport Suite
Your Choice of 2 Pieces

The exquisite colors used in the design of the Jacquard velour which covers this Suite would blend artistically with any color scheme. Be one of the first to be here Saturday for your choice. The comfortable davenport opens into a full-size bed which holds all bedding.

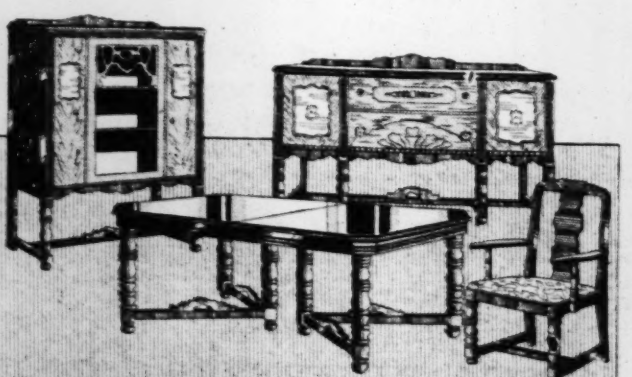

This 3-Pc. Bed Davenport Suite—\$98

This wonderful bargain is a typical May-Stern value. Three large, comfortable pieces for your living room upholstered in beautiful Jacquard velour. The Davenport serves a double purpose—it can be opened into a full-size bed.

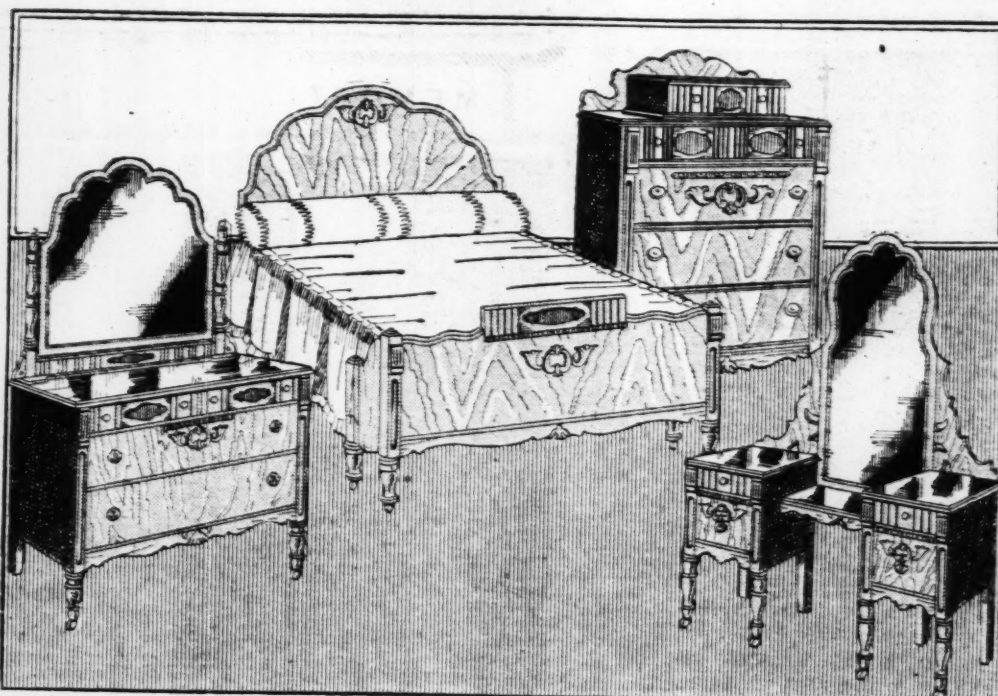

Your Choice of 3 Pieces—\$98

Many decidedly attractive features make this walnut bedroom Suite a value way above average. Every article is durably made with all dustproof interiors. Quality of workmanship is equal to that found in higher priced Suites.

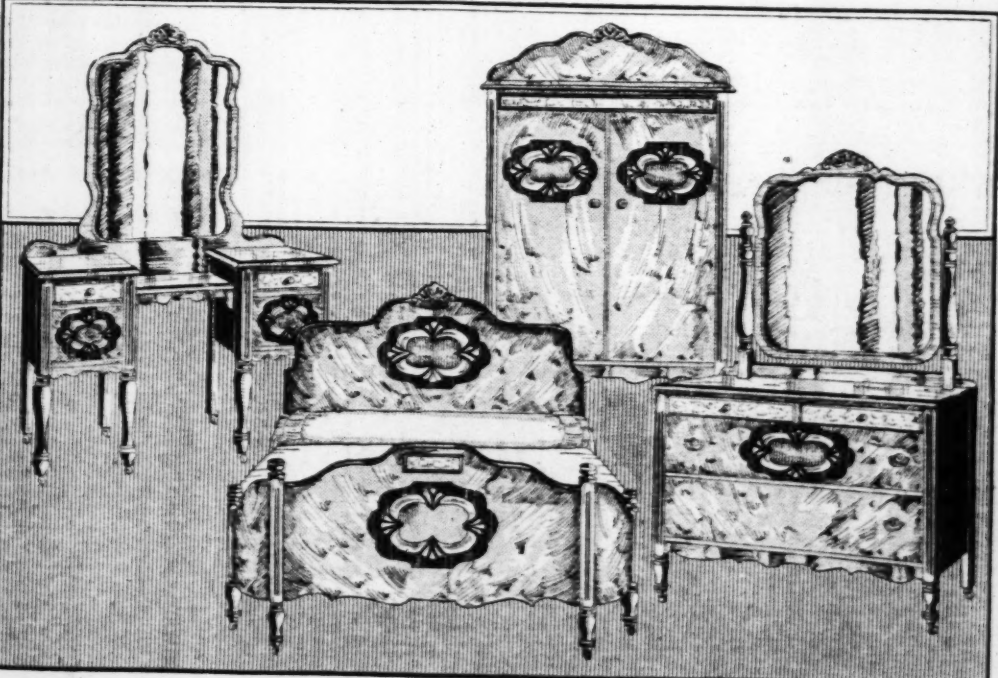

9-Piece Walnut Dining Suite—\$98

We cannot be too emphatic in any statement we make regarding this Suite. It sells regularly for \$147.50. You are getting all 9 pieces for only \$98. Genuine maple overlays form handsome decorations on the large buffet and china cabinet. Extension table, five side chairs and host chair complete the Suite. By all means see it Saturday!

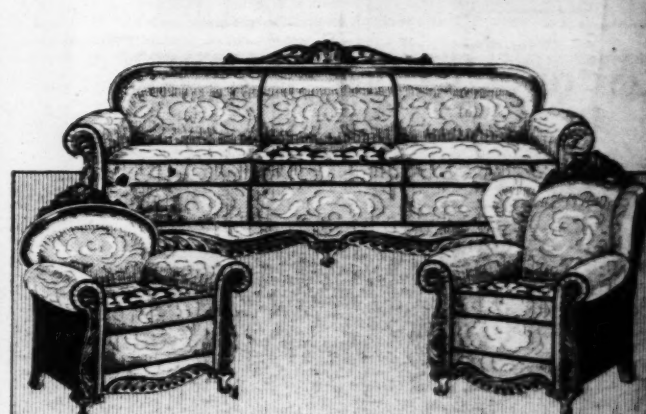

Your Choice—3 Pieces—Genuine Walnut—\$98

This is an extraordinary offering of Bedroom Furniture. See it Saturday without fail. All four pieces—including double bow-end bed, dresser, decktop chest and French vanity—sell regularly for \$175. You can have your choice of any 3 for \$98.

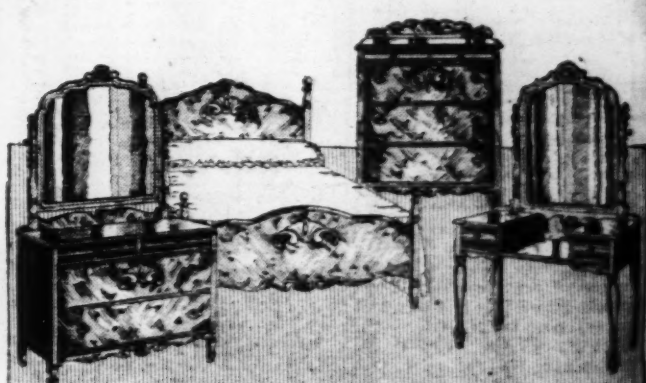

Your Choice—3 Pieces—Genuine Walnut—\$98

Bedroom Furniture of exquisite beauty. This Suite sells regularly for \$180. See this Suite as it stands on the floor. You'll agree it is a remarkable value at this low price. All genuine walnut—dustproof construction. Bed, Dresser, Chiffonade, Vanity. Your choice of 3 pieces.

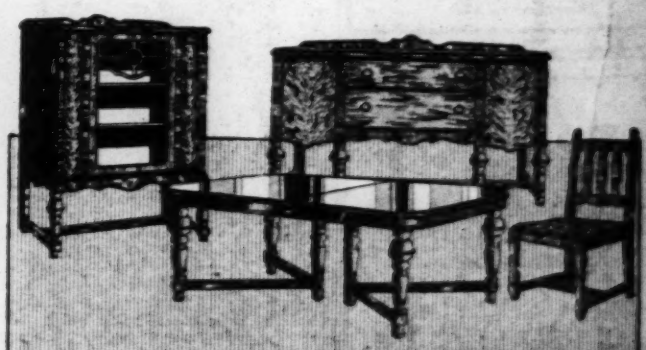

Your Choice of 2 Pieces—\$98

Buy furniture like the living-room Suite illustrated above and take pride in your ownership. The walnut finished carved frame is a work of art. Loose, reversible cushions. Mass-filled and spring construction throughout.

These 4 Pieces for Only—\$98

Only 7 of these remarkable Suites to be sold at this price Saturday, so be here early and get yours. All genuine walnut—durably made—lovely design. French vanity and dresser have heavy plate glass quality mirrors.

This 9-Pc. Walnut Dining Suite—\$98

She is a shrewd shopper who takes advantage of the sale price on this dining-room Suite and buys it Saturday. The beautiful, rich finish of the walnut is enhanced by panels of matched fiddle-back mahogany.

RECIPES FOR DISHES IN WEEK'S MENUS

Will Appeal to Cooks Who Tire
of the Everyday Routine
of Meals.

The fudge shortcake that is served for dessert is made by pouring a hot, thick chocolate sauce over plain cup cakes and garnishing each with a small spoonful of whipped cream. There are excellent chocolate sauces that may be bought ready to use for those who want the convenience of ready-to-serve foods.

Bavarian Cream.
Soak two tablespoons of plain gelatin in one-third cup of cold milk for 10 minutes. Beat two egg yolks with one-half cup of sugar until well blended. Scald one cup of milk and stir this into the egg yolk mixture. Add the soaked gelatin and stir until the gelatin dissolves. Add one teaspoon of grated lemon rind and a teaspoon of vanilla extract. Cool the mixture until it begins to thicken and then fold in the stiffly beaten whites of the eggs and two cups of whipped cream. Continue beating or folding mixture until quite thick. Pour into individual molds and chill. Turn out and serve with fresh fruit, with a thin custard sauce, or with thin cream.

Spring Salad.
Wash and crisp one bunch of watercress, a small head of lettuce, one bunch of radishes, a bunch of scallions, and a small cucumber. Separate the lettuce leaves, break the watercress in small pieces, slice the radishes and scallions and peel and slice the cucumber. Put all together in a salad bowl and pour in one-half cup of well-seasoned French dressing. Mix lightly with a fork and serve on chilled plates. This type of salad must be mixed just before serving and should be just as cold as possible. Its crispness and piquant flavor make it particularly appetizing at this time of year.

Hot Rolls.
Baking powder Parker House rolls are made with four cups of flour, one teaspoon salt, six teaspoons baking powder, two to four tablespoons shortening, one and one-half cups of milk. Sift flour, salt and baking powder together. Add melted shortening to milk and add slowly to dry ingredients, stirring until smooth. Knead lightly on floured board and roll out one-half inch thick. Cut with biscuit cutter. Crease each circle with back of knife one side of center. Butter the small section and fold larger part well over the small. Place one inch apart in greased pan. Allow to stand 15 minutes in warm place. Brush each with melted butter and bake in moderate oven 15 to 20 minutes.

Nut Cakes.
These cookies are called "Friendly Cookies." To make them take two eggs, one cup brown sugar, one-half cup flour, one cup nut meats and one teaspoon vanilla. Beat eggs till thick like whipped cream. Gradually add sugar, beating continuously. Sift in flour and beat again. Then add nut meats and vanilla. Drop from spoon onto

*Indicates that recipes for dishes so marked in above menus may be found in "Recipes for Dishes in Week's Menus," published in today's Home Economics Department of the Post-Dispatch.

cookie sheet and bake 10 minutes in a moderately hot oven.

Pineapple Meringue Pie.
For the filling use two eggs, three-fourths cup sugar, one and one-fourth cups canned shredded pineapple and one tablespoon butter.

Separate eggs; beat yolks and sugar together and add to shredded pineapple with melted butter. Pour into pie pan lined with crust and bake in a moderate oven 35 to 40 minutes.

When cool cover with meringue made by beating egg whites until frothy, adding one-fourth teaspoon baking powder and beating until stiff; then folding in four tablespoons sugar. Brown quickly in hot oven or under broiler.

When Peeling Apples.
To prevent apples from turning brown when peeled, add a little lemon juice to the water in which they are put.

PIEAPPLE A VALUABLE FOOD

Scientific Research Has Discovered Its Fine Qualities.
At the University of Hawaii studies have been made to determine the nutritive value of pineapple and have shown that it has a very high vitamin content. So high, in fact, as to give it a place among the most valuable of the canned foods in this respect.
These studies have also shown that pineapple possesses decided value in the treatment of some kinds of acidosis. In addition to these it has long been known that this fruit aids in the digestion of protein foods when it is eaten raw. The canned pineapple loses most of this power in the process of canning, but retains its high vitamin content.
From a nutritive standpoint, therefore, it is wise to include a generous supply of pineapple on your fruit list.

PLANNING MENUS FOR THE COMING WEEK

Appearance of Spring Vegetables Makes This Task an Easy One.

Now that the fine spring weather is coming it is a good plan to arrange Sunday's meals so that as little time as possible need be spent in the kitchen, and more time can be allowed for outdoors.

Heavy roasts seem to have become almost traditional Sunday dishes, but there is no reason why steak or chops, broiled chicken or some similar dish cannot be planned just as well for Sunday and a roast for the early part of the week.

In this week's menus I have done this, suggesting a steak for Sunday's dinner and a roast of lamb for Monday. On Sunday a hot, clear tomato soup is served as the first course, but it may be omitted to simplify the meal. Boiled new potatoes are cooked in their jackets, peeled just before serving and then rolled in melted butter seasoned with lemon juice and chopped parsley. If fresh beet greens are not available, spinach may be substituted.

As a change from potatoes, serve broiled rice with the roast lamb on Monday. Make a good brown gravy to serve with the meat and to pour over the rice.

There is no excuse for serving a soggy mass of boiled rice, as a little care will insure dry, flaky grains. Wash the rice and cook in plenty of boiling salted water, allowing at least one quart for each half cup of rice. Keep the water boiling actively, and stir the rice from time to time with a fork. If the water boils away, add more. Cook for 20 minutes, strain through a colander or strainer and rinse with boiling water. By this time each grain of rice will be separate, flaky and tender. If it must be kept hot, put it over boiling water with a folded towel as a cover. The left-over lamb is made into a stew with carrots, onions and diced celery and served with boiled dumplings instead of potatoes.

LETTUCE JUICE COCKTAILS AND LETTUCE SOUP ARE NEW

Use of Lettuce Has Increased With Amazing Rapidity in This Country.

The use of lettuce has grown enormously in the last few years as we have developed our appreciation of the importance of salad greens in the diet.

It is said that the production and sale of the iceberg lettuce that is raised on the Pacific Coast has increased with greater rapidity than any crop in history.

Most of us know that we eat lettuce from the health standpoint at least, because of its wealth of vitamins and mineral salts.

Recently we hear that pure lettuce juice has made its appearance on the market and is said to make a most refreshing drink when combined with tomato juice and lemon—a combination by the way which seems to be brimming over with wholesome, nutritious elements.

Grilled Fillets of Mackerel.
Lay fillets in a well-greased baking dish with slices of Bermuda onion between each; dot over with butter and bake in a moderate oven. Garnish with sliced lemon and parsley leaves.

Buttered Cauliflower.
Wash and separate cauliflower into flowerets. Cover with boiling water and cook until tender, about 20 minutes. Sprinkle with salt and pepper and serve with melted butter.

Buttered Onions.
Cover onions with boiling water and cook in uncovered kettle until tender. Drain, season with salt, pepper and butter.

Buttered Cabbage.
Cut cabbage into fine pieces. Wash and cook in rapidly boiling water for seven minutes, counting from the time the water starts to boil. Sprinkle with salt and pepper and serve with melted butter.

Buttered Green Peas.
To prepare green peas, hull the vegetables and boil them for a few minutes until tender. A pinch of salt and a few grains of sugar may be added to the cooking water.

DRAWN BUTTER FOR SPRING VEGETABLES

The Early Vegetables Are More Appetizing When Simply Prepared.

Up to date no more appetizing way has been devised to prepare the young spring vegetables than to serve them with melted butter dressing.

Later in the season, cream sauces dress up the vegetables and make them more palatable, but in the early spring, the tender young vegetables such as cauliflower, spinach, green peas, new cabbage and onions are most appealing to the taste when served with a dressing of drawn butter.

Tomorrow at the Hotel Chase

—these wonderful California
peaches in a new dessert

Adolph Feuz, distinguished chef of the Hotel Chase, who created the enticing dessert shown here

This unusual dish made with Libby's California Peaches was christened Peaches Alpine by Monsieur Feuz in honor of his native Switzerland

TOMORROW it will be served in the dining room of the fashionable Hotel Chase! Peaches Alpine—masterpiece of the famous chef, Adolph Feuz. A creation made with a certain kind of large, golden peach halves that are causing a sensation in St. Louis. They are Libby's California Peaches of the Golden Harvest Year, described by Monsieur Feuz as "so luscious and fine flavored that I enjoy serving them to our guests."

It is not surprising that Monsieur Feuz chooses these remarkable peaches of Libby's. For they are fruit of the most famous peach crop in all the history of the Golden State. A crop so surpassingly fine, so amazingly bountiful that 1928 was acclaimed California's Golden Harvest Year.

And now the first great shipment has reached St. Louis—Libby's California Peaches of the Golden Harvest Year! A luxury new to many, and at a price within the reach of all!

Glistening, tender gold! Peaches picked on the day of perfect ripeness.

Packed in sunlit kitchens with all their natural flavor at its best. Libby's California Peaches! Surprise your family with them at dinner tonight. Your grocer can supply you. Libby, McNeill & Libby, Chicago.

To get choice varieties of all fruits: Hawaiian Pineapple, Bartlett Pears, Apricots, Plums, Cherries, etc. as well as Peaches, be sure to ask for Libby's.

Now—the first great shipment of Libby's California Peaches of the Golden Harvest Year! Your grocer can get these famous Peaches from Libby, McNeill & Libby, 613-75 Spruce St., Phone—Main 4870 or 4632

"Has the true Flavor"
MAYONNAISE
THE FINEST COOKS SAY

"I used to think no mayonnaise was like my own..."
"The rich delicious flavor of Hellmann's is as fine as mine ever was. It is easy to see how good the ingredients must be."

Edna Gustafson...cook for Mrs. Donald Ogden Stewart, wife of the famous author and actor, New York City

HELLMANN'S
MAYONNAISE

JUICY, red tomatoes with cool crisp cucumbers, tiny rich shrimps, or delicate white pears—all taste better topped with true mayonnaise.

And everywhere—all over America—housewives are choosing Hellmann's.

They recognize in the bland, delicious flavor of Hellmann's, a mayonnaise blended from the very choicest ingredients.

The finest eggs, pure salad oil, clear vinegar, rare spices—these and only these go into the Hellmann mixing bowls and are blended by an old secret recipe from France.

Hellmann's flavor and smoothness never vary. Buy a jar today from your grocer. The popular family size is 1/2 pint—25c. Other sizes, 3 1/2 ounce, pint, and quart jars.

CHILDREN'S MEALS REQUIRE MUCH CARE

Sufficient Nourishment Must
Be Supplied for the Growing
Bodies.

In the average home where there are growing children, there is often a feeling that there is no time to fool away in planning separate or special meals for the children. They must eat the food provided for the grown people.

In planning meals for both children and grownups, it should be kept in mind that the essential foods are about the same with the exception that children must have milk.

Vegetables in abundance should be included in the food supply of both, a moderate amount of meat or other protein food should be added, and as much fruit as possible should be used.

Rich fried foods and elaborate dishes of all kinds can very advantageously be omitted, as they have no place at all in the children's diet.

The following rules, which have been given as a guide in the feeding of children, are quite suited as well for general use by the whole family.

1. See that fresh, clean whole-some milk is used for children—at least one pint a day.
2. Serve plenty of simply cooked vegetables of all kinds. Be sure to use the leafy vegetables at least twice a week.
3. Eat a hot breakfast and a good luncheon.
4. Eat some coarse food—oatmeal, whole wheat, bran bread or muffins, etc.—to prevent constipation.
5. Eat meals at regular hours.
6. Eat slowly and chew well.
7. Drink plenty of cold water between meals.
8. Avoid overeating. Do not eat between meals. Children need a mid-afternoon lunch when they come home from school, but this should be given at a regular time and no indiscriminate nibbling allowed.

STRAWBERRY GLACE TARTS FIT TO SERVE THE KING

Make Strawberry Combination
Dishes While the Season Is
New.

Many persons believe it is a human impossibility to prepare any type of a strawberry dessert that can compete in toothsome-ness with strawberry shortcake.

Be that as it may, glazed strawberry tarts are simply delicious and here is how they are made:

The tart crust which is unusually rich is made with three-fourths cup flour, one-fourth cup sugar, one-fourth teaspoon salt, four tablespoons shortening and two tablespoons milk.

Sift dry ingredients, cut in shortening, then cut in milk. Roll to one-fourth inch thickness, cut into six portions and fit to inverted tart tins. Bake in a hot oven until browned, about 10 minutes.

The filling is made with two quarts strawberries, two cups sugar, two tablespoons cornstarch and one-half cup lemon juice.

Wash berries; then select the ripest ones. Crush remaining berries to make two cups of pulp.

To make glaze sift sugar with cornstarch; add crushed berries and lemon juice, and simmer until clear, about 20 minutes.

Put one tablespoon glaze in each baked shell, covering all of the crust to prevent berries from soaking through. Fill with whole fresh berries and cover with glaze. The edges may be sprinkled with hopped pistachio nuts.

This recipe will make six tarts.

Sponge Cake.

Separate the yolks and whites of four eggs, beat whites until very stiff, then the yolks until creamy. Add one level cup granulated sugar to the yolks, beat well, then add one tablespoon lemon juice and the grated rind of one lemon. Sift one cup flour with one teaspoon baking powder and a pinch of salt, add one-third to the yolk and sugar and fold in gently, then fold in one-third of the stiffly beaten whites and alternate until all are used, folding in gently rather than beating in. Bake in ungreased tin in moderate oven. When done, turn upside down in tin until cool.

Nice Caramel Sauce.

One cup boiling water, one cup sugar. Spread the sugar evenly over hot iron or aluminum frying pan, place on stove, stir gently with a spoon until melted to a smooth light brown syrup. Gradually add boiling water and let simmer from five to ten minutes. The sugar will again become hard but will melt in a few minutes. If too thick when cold, add a little hot water.

Corned Beef Hash Balls.

Moisten one can of Corned Beef hash with milk. Shape into balls or croquettes. Roll in bread crumbs, slightly beaten egg and again in bread crumbs. Fry in deep fat until a golden brown. Serve with tomato sauce made by heating a can of tomato soup with a bit of onion and chopped green pepper.

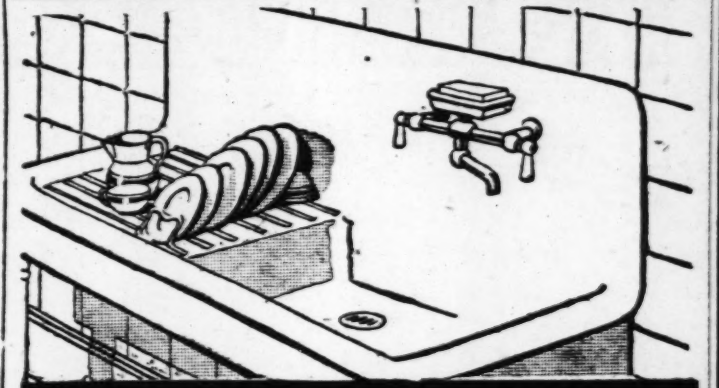

TUNA FISH SOUFFLE ADDED TO THE LIST OF SOUFFLES

This Type of Food is a Popular Fancy of the Moment. The souffle being such a popular delicacy at the present time, it is not surprising to hear that tuna fish may be utilized in the preparation of a nice luncheon souffle.

To make it, take two eggs, one cup canned tuna fish, one tablespoon lemon juice, one tablespoon chili sauce, one-half teaspoon salt,

one-half cup white sauce and one teaspoon baking powder. Separate eggs, add yolks to finely flaked fish with lemon juice, chili sauce and salt; mix well; then fold in white sauce. Beat whites until frothy, add baking powder; beat until thick and creamy, and fold into first mixture. Turn into greased casserole and bake in moderate oven 45 to 50 minutes.

If no oven control is used, set casserole in pan of water to keep temperature below boiling point.

Velveeta— is cheese plus

And it is plus in everything; in flavor, in texture, in food value, in appearance and adaptability for cooking, spreading or slicing.

Velveeta represents a new idea in cheese making. We extract from the pure whole milk more Vitamins, Lactose (milk sugar), Calcium and other milk minerals in greater quantities than ever was possible by old methods, and these we add in making Velveeta. The result is purely a milk product that looks like cheese, tastes like cheese, but which because of its enhanced food value really should be called a super-cheese.

Use Velveeta wherever you would use any cheese. It spreads like butter or will slice when chilled. It melts, dissolves and blends so readily with other foods that for cooking purposes there is no comparison. And however used it is as digestible as milk itself.

Get a package of Velveeta with your next grocery order. Its own creamy richness will win your immediate favor as it does all who try it.

ST. LOUIS POST-DISPATCH

SURPRISE EGGS ARE NICE
They Make an Easily Prepared Nutritious Luncheon Dish.
Six two-inch slices of bread; four tablespoons melted shortening; one small can asparagus tips, one cup creamed cheese, six eggs. Salt, pepper and paprika.
Remove centers from slices of bread, leaving cases; brush these with melted shortening and heat in oven. Drain asparagus and half fill cases, cover with grated cheese, slip in raw eggs. Add rest of cheese and seasonings. Place in oven, or under low flame of broiler, until eggs are set and cases browned.

A Simple Salad.
Arrange tiny boiled red beets in vinegar and pickled onions on lettuce leaves. Pour over them salad dressing.

SERVE DAINTY MINT JELLY
WITH ROAST MEAT OR FOWL.
Made With Apple Juice as a Base and Flavored With Fresh Mint Leaves.
Wash six or eight large, tart cooking apples. Cut in slices without peeling or coring. Put in large kettle and add enough water to barely cover the apples. Cover and boil rapidly until the apples are very soft. Strain through a jelly bag. To one quart of juice add four cups of sugar and enough green color to tint the mixture a good green.
Vegetable coloring is used and may be bought in almost any grocery store. The amount used depends somewhat on the brand. A little goes a long way and it is best to start with a small quantity on the end of a spoon, and gradually add more as necessary.
While the apples are cooking, wash a bunch of mint and chop it fine or cut in pieces with a pair of scissors.
Add the mint to the apple juice and sugar, stir until the sugar dissolves, then boil rapidly for 20 minutes or until the mixture jells as it drops from the spoon.
Line a small strainer with a piece of cheesecloth and strain the jelly into hot glasses. This recipe makes from six to eight glasses.

Baked Potatoes.
Select even sized potatoes, scrub clean; bake in a moderate oven (350 degrees) one hour or until soft. Remove from oven, wash with a knife at once in the shape of a cross and squeeze potato at bottom to make it puff out. Place a piece of butter in opening; sprinkle with paprika and serve at once.

Grocers from
Coast to Coast recommend Puritan because they know it's highest quality, strongest extract and gives best results.

Here's that Simplified Recipe for Cream Puffs
That's Making Even Brides Famous as Cooks
Mixing Time—Less Than 5 Minutes!

Mrs. Frank Johnson, a bride of last June, seems quite pleased with her prize Cream Puff baking.

This Week's Prize "Kitchen-tested" Recipe

Try this prize recipe in the new, Simplified Baking. Of 238 women who first tried it, 236 had perfect results first time. The two who failed blamed wrong oven temperature.

By the development of an utterly new type of flour—Gold Medal "Kitchen-tested" Flour—baking has been simplified amazingly for housewives. And the cause of most baking disappointments banished. "Kitchen-tested" means that every batch of this flour has been tested in an oven just like yours, before it goes to you. Tested for uniformity of result with home recipes.

That means Gold Medal Flour always acts the same way EVERY TIME with your recipes.

Ask your grocer for GOLD MEDAL "Kitchen-tested" Flour. For perfect results, be sure and get that brand of flour before you try this recipe.

RECIPE . . . Cream Puffs
Cut out along this line and save

1/2 cup butter, 1 cup boiling water, 1 cup GOLD MEDAL "KITCHEN-TESTED" FLOUR, 4 eggs.
METHOD: 1. Heat butter and water together to boiling point in enamel saucepan. 2. Sift flour once before measuring. 3. Add flour all at once, and stir constantly with wooden spoon until mixture clears the pan and forms into a ball, about 1 minute. 4. Remove from fire, add unbeaten eggs 1 at a time, beating to a smooth paste after each egg is added, then beat mixture until smooth and velvety. 5. Grease a baking sheet or shallow pan lightly and drop paste from spoon, keeping puffs at least 1 inch apart. 6. Place in hot oven, lowering temperature after the puffs have fully expanded. 7. When done remove to cooling rack and allow to cool slowly away from draft. 8. When cool cut tops off with sharp knife, scoop out any filaments of soft dough with spoon, fill with sweetened whipped cream or custard and replace the tops. Dust with confectioner's sugar. TIME: Bake 45 to 50 minutes, depending on size. TEMPERATURE: 450° F., hot oven for 15 minutes, reducing to 350° F., moderate oven for remaining 30 to 35 minutes. AMOUNT: 12 cream puffs. **Custard Filling for Cream Puffs:** 1/2 cup sugar, 6 tbsps. GOLD MEDAL "KITCHEN-TESTED" FLOUR, 2 cups milk or cream, 4 egg yolks, 2 tsp. vanilla or almond flavoring. METHOD: 1. Mix sugar and flour together, stir in milk or cream and cook until no starchy taste remains, about 10 minutes. 2. Add well beaten egg yolks and cook 2 minutes over hot water. 3. When thoroughly cool, add flavoring and fill cream puffs.

WASHBURN CROSBY COMPANY, Minneapolis, Minnesota

This and other delightful "Kitchen-tested" recipes are given every Wednesday and Friday in the Gold Medal Radio Cooking School. You are invited to listen in. BETTY CROCKER, Gold Medal Home Service Dept.

KROGER STORES

Now the Favorite Bread Plain or Toasted

In More than Ten Million American Homes

By ALICE ADAMS PROCTOR

Do you like crisp toast? Delicious and evenly browned? Then in big letters at the top of your grocery list write WONDER BREAD.

It's that new bread, as you may know, that so many women are adopting.

For toast it knows no equal. And eaten plain it amazes with its delicate flavor. The millions who buy it today consider it the most delicious bread baked in America.

It's splendid, too, from the housekeeper's point of view.

It slices without crumbling. It keeps fresh for days. If eaten daily, it promotes family health to a marked degree. It restores burned-up energy and fosters growth. This because of its high caloric value. Also its remarkable protein content.

To maintain its quality day after day, we go to

SEVEN QUICK FACTS about Wonder Bread

1. Slo-baked to seal in delicate flavor, prolong freshness.
2. Toasts quickly to an even golden brown.
3. Rich in food elements for growth and energy.
4. Made of specially milled short patent flour. The heart of the wheat berry.
5. Double the usual quantity of milk. Pasteurized.
6. All ingredients tested for purity and nutritive value.
7. At grocer's, oven-fresh, morning and afternoon.

great lengths. We specify a specially milled short patent flour. Only the heart of the wheat berry is used.

We use double the usual amount of milk.

We employ a special method of baking. Slo-baking, it is called. A method that seals in the dietetic value of our ingredients and improves their flavor. Hence when you get Wonder Bread you get the best. Millions have found this to be so.

So please try it at once. Simply to prove what it offers

you and yours. Note its dairy flavor. See how evenly it toasts. How easily it slices.

But remember! Ordinary breads are not like this. Avoid them. Insist on Wonder Bread always.

RHUBARB IS A GOOD FOOD FOR SPRING

Especially Nice When Used in Combination With Other Foods.

The appearance of the first pink, tender stalks of rhubarb in the spring points the way to many gustatory delights for lovers of this succulent and appetizing plant. Its agreeable tart flavor is due to the important acids present which do so much for the system; it possesses some laxative qualities and while most of its food value is due to the sugar required for sweetening it, or the other foods used in combination with it, it is, nevertheless, a valuable spring food because it stimulates the appetite and supplies valuable minerals.

There are a great many delicious ways of using rhubarb—some or them are mentioned in the menus planned for this week when we use baked rhubarb, rhubarb tarts and a pudding made by combining it with rice.

The juice from the stewed fruit combined with lemon and orange juice or with ginger ale makes a most refreshing beverage for the first warm spring days.

Prepare With Care.

In spite of the fact—or perhaps because of it—that stewed rhubarb is an extremely simple dish, it is very often poorly prepared. This is because it is not realized that the young stalks contain a large amount of water, which is drawn out by heat as the rhubarb cooks; therefore, it is necessary to use very little water if the best flavor is to be retained.

Young tender stalks should not be peeled, but should be washed and then cut into inch pieces. Next, put them into saucepan, add just enough water to cover the bottom of the pan, cover the saucepan and boil about five minutes. Then add the sugar, allowing about one-half cup to a pound of rhubarb. The amount depends on the acidity of the fruit, but be careful not to use too much. Stir until the sugar dissolves, then remove from the fire and cool.

Rhubarb may be cooked without the addition of water by putting it in a double boiler with the necessary amount of sugar and cooking until tender. Baked rhubarb is preferred by many to the stewed, and when slowly cooked, it certainly has a flavor that cannot be gotten by any other method of cooking. Use an enameled or glass baking dish and fill it with the pink slices of rhubarb, mixed with sugar, allowing one cup to a pound. Add one thin slice of orange or lemon, cover the dish and bake slowly for an hour. Chill before serving.

A REAL BREAKFAST DAINTY IS FRIED CORNMEAL MUSH

It Is a Great Regret That This Dish Is Not Served More Generally.

Fried cornmeal mush, when carefully cooked, is one of the most appetizing dishes that can be served for breakfast.

Use 10 tablespoons whole yellow cornmeal, two cups water, one-half teaspoon salt, two tablespoons drippings, oil or vegetable oil, bacon fat, one egg, two tablespoons water and one cup stale bread crumbs.

Put water in top of double boiler and bring to boiling point; add salt and oil, then add cornmeal slowly, stirring constantly. Have water in bottom of double boiler boiling; put top in place and cook 35 minutes.

Uncover, turn into mold and when cold slice about 1/4 inch thick. Place bacon fat in frying pan; dip slices of mush into egg mixed with water, then dip in crumbs and saute to golden color. Fat must not smoke.

Chill Cookie Dough.

In rolling out cookies, it is easier if the dough is first chilled in the refrigerator. Otherwise, more flour will be needed, and the cookies will not be so tender. Flour the board and roller slightly and roll out with a light touch as much prepared dough as can be handled quickly, keeping the rest in the refrigerator to prevent its softening. Save all pieces left between cookies until the last and roll together, as repeated working in of these pieces adds more flour and toughens the cookies.

A Tasty Hasty Dessert.

One that is made in no time uses three inch squares of pastry, baked flat, a lump of preserved strawberries and a topping of whipped cream. If there is no cream to whip, a can of evaporated milk serves the purpose admirably. While the square of pastry is baking, whip the cream, and putting the fruit on the pastry and the cream over it takes no time at all.

Dainty Cup Puffs.

One-half cup of white sugar, one-half cup of milk, two eggs, two teaspoons of baking powder, a pinch of salt. Use flour enough to make a batter that will drop from a spoon. Butter six cups and put a teaspoonful of batter in each, then a few very thin slices of apple and fill half full of batter. Steam an hour in a steamer over a pot of water. When done, the puffs will be light and spongy; serve with plenty of sauce.

Lemon Juice in Dressing.

One way of making spring salads even more valuable is by using lemon juice instead of vinegar in the dressing. Such a salad has a most refreshing flavor, is more digestible and has the added nutritive qualities that the lemon juice possesses.

BRAN COOKERY IS POPULAR IN HOME AND RESTAURANT

These Dainty Cookies Containing Bran Meet With Instant Favor.

Readers of the Home Economics Department are constantly asking for recipes for bran cookery which is becoming very popular with persons who are confined to certain types of diets.

Very simple small cakes called hermits feature bran. These cakes are attractive, easily made and very appetizing. Directions for making them follow:

Take one-third cup butter, two-thirds cup sugar, one egg, two

tablespoons milk, one and three-fourths cups white flour, one-half cup bran, one teaspoon baking powder, one-third cup raisins, three-fourths teaspoon cinnamon, one-half teaspoon cloves, one-fourth teaspoon mace, one-fourth teaspoon nutmeg and one-half teaspoon salt.

Cream the butter, add the sugar and egg, and beat well. Add the milk, bran, raisins and flour which has been sifted with the spices. Chill, roll thin, cut and bake in a moderate oven.

When the cakes are cool, they may be frosted with confectioner's sugar frosting and chopped nuts sprinkled over the top.

'That Rich Mellowness'

To Introduce Pillsbury's Cake Flour

a large 9-inch colored glass mixing bowl free with the purchase of two packages! You can have the bowl in either rose, green or crystal—you'll find it most attractive, and handy in a thousand ways around the kitchen. And we believe you'll like Pillsbury's more than any cake flour you have ever used!

Here is a new product with an old and famous name—a new Cake Flour, made by Pillsbury. Try it with your favorite recipes—we believe you will notice a distinct improvement, especially in your angel food and other delicate cakes.

The Pillsbury laboratories have been at work on this new flour for a long time. They believed that if they could properly combine certain grades of wheat they could produce a real improvement in cake flour. Finally they discovered the secret—the correct blend of special types

of wheat, unusually soft, milled to a silky fineness. You will like Pillsbury's Cake Flour. You will find that it is easier to handle—that it has taken the last bit of uncertainty out of your flour ingredient. Try it—your cakes will have an unusually smooth, even texture, a delicate tenderness, a richness of flavor that will surprise the most expert, practiced cake-maker.

Make a note now on your shopping list—get your colored glass mixing bowl immediately—they won't last long!

TO REMOVE PAINT or VARNISH

PAINTERS say, "Use a paste made of genuine Lewis' High Test Lye for removing paint or varnish."

Just dissolve 4 heaping tablespoonsful of cornstarch in 2 quarts of water in a wooden pail or stone crock and in another container dissolve one can of LEWIS' LYE in 1 quart of water. Pour the lye solution into the cornstarch very slowly, being careful to stir well all the time. This will make a thick paste without lumps. Paint this on the surface from which the paint is to be removed with an old brush or swab, putting it on in an even thick coat. Let it stand until almost dry... then rinse with water. After removing paint or varnish, wash with a solution of vinegar. The better grocers sell genuine LEWIS' LYE... don't accept a substitute. Write for book of directions.

LEWIS' LYE

The Pennsylvania Salt Mfg. Co., James D. Swan, Selling Agent, 30 N. La Salle St., Chicago

CAN THE BEGINNER MAKE A GOOD CAKE?

The Question Can Be Answered Affirmatively if Directions Are Followed.

All young housekeepers—and many that are not so young—yearn to make good cake, judging by the inquiries that are constantly made for good recipes and for reasons why "my cake" fails. There are three main rules that must be kept in mind in order to be successful in cake making: accurate measuring, thorough mixing, and baking at the right temperature. Then, too, all recipes unfortunately are fool-proof. In the beginning, it is best to use one from a standard cook book, as that is sure to have been worked out for accurate measurements and good results. As soon as you have mastered the technique you can use almost any recipe.

There are two types of cakes—those that are made with shortening and those that are not. The first type is perhaps the simpler and is by far the most common. The second comprises angel and true sponge cakes. In this talk we will discuss only the first type.

Good Foundation Recipe.

A good basic recipe for a cake made with shortening should be in every new housekeeper's recipe file. The possibilities for variations in such a recipe are almost endless, and can be noted down as they are worked out, once the plain recipe is mastered. There are several ways of mixing or combining the ingredients used in making cakes. These ingredients are sugar, shortening, eggs, a liquid, flour and baking powder.

The method I am going to describe is about the simplest and quickest. It can be used for making loaf cake, layer cake or cup cakes. Be sure that measurements are accurately made, and that flour is sifted before measuring. Cake flour will give better results than the plain bread flour, and should be used whenever possible.

Here's How It's Done.

For a medium-sized loaf cake, or two layers, sift together two cups of cake flour, three teaspoons of baking powder and one-fourth teaspoon of salt, stir in three-fourths cup of sugar. Beat two egg yolks and mix with three-fourths cup of milk. Measure one-half cup of melted fat (butter or any of the vegetable shortenings); beat two egg whites until stiff. Stir the egg and milk mixture into the flour, then add the fat and beat until thoroughly smooth. Fold in the stiffly beaten egg white by drawing the spoon through the batter and lifting it up and over the egg whites. Add a teaspoon of flavoring extract and pour the batter into two greased layer cake pans, or into a well-greased, medium-sized bread pan. Bake the layers in a hot oven—425 degrees—for 15 minutes, and the loaf cake in a moderate oven—350 degrees—for 45 or 50 minutes.

SUBSTITUTES FOR POTATOES

Often times the Family Enjoys a Change From This Vegetable.

Well seasoned rice, noodles, spaghetti, or macaroni and even canned corn and lima beans, will take the place of potatoes, and then eliminate the time required to prepare them for cooking.

Start rice to cook in plenty of boiling salted water. Boil vigorously until tender. Drain well and rinse with cold water. Then heat over boiling water. Cooked this way, the rice is white and each kernel stands out separately.

DAINTY ORANGE PUDDING

Modern Cooks Extend the Use of This Delicious Fruit.

Take one cup sugar, six eggs, juice and rind of one orange and one-fourth pound of almonds.

Cream the sugar and yolks of eggs together; add the almonds, chopped fine; orange juice and grated rind, and the whites of eggs, beaten stiff. Bake in a moderate oven about 20 minutes, until firm. Cool in the baking-dish and cover with icing or a meringue and garnish with sliced oranges.

About Fine Grained Cake.

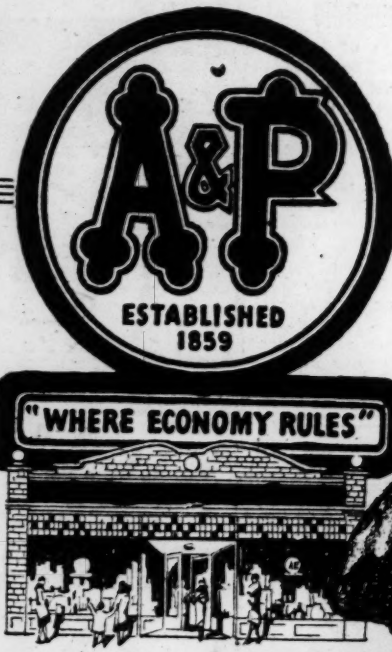

If you want a fine-grained cake, such as pound or other butter cakes, beat the shortening to a cream, then beat the sugar after sifting into the butter. Beat yolks of eggs and add, then the milk, flour, baking powder, etc., and last the egg whites beaten dry and stiff. Stir, do not beat, the whole mixture for a full five minutes, then put in a paper-lined pan and let stand for five minutes before putting in oven.

Toasted Salad Sandwich.

Mash a cream cheese and moisten with boiled dressing. Cut graham bread in one-fourth-inch slices spread with cheese mixture and sprinkle with chopped pecan nut meats. Put together in pairs, remove crusts and cut in finger-shaped pieces. Toast, pile log-cabin fashion on a fancy plate, and serve as an accompaniment to a dinner salad.

Cream of Mushrooms soup.

Stew one pint of fresh mushrooms in stock or water, barely keeping them below simmering point and closely covered. Press through a colander. Make a smooth paste of one-fourth cup flour, two teaspoons salt and one-fourth teaspoon of pepper. Add this to one quart of scalded milk, in saucepan, and stir until the whole boils and is slightly thick. Add mushrooms, stir well, and let boil up once.

**BLANKET CHICKEN PREPARED
WITH YOUNG BROILERS**
These Small Birds Used to Good
Advantage When Cooked
This Way.

Split sufficient broilers to supply a half to each person to be served and place the halves in a dripping pan.

Sprinkle them well with pepper, salt, green pepper, which has been chopped so fine it becomes minced, nearly a pulp, and some chives cut very fine.

Place strips of very thinly sliced bacon across the chicken over the seasonings and bake in a hot oven until fowl is tender when pierced with a fork. Remove from oven and place on heated serving dish and surround with the following sauce:

Blend four tablespoonfuls of flour with three tablespoonfuls of fat taken from the dripping pan in which chicken was baked. Add a cupful and a half of thin cream or stock (either carrot stock or chicken stock may be used with the cream). If carrot stock, then use a third of the stock; if chicken, half may be used. Season with pepper and salt and serve very hot, pouring around the pieces of chicken.

TEMPTING CHEESE FINGERS

These Are Just the Thing to Serve With Salads.

Remove all crusts from loaf of fresh sandwich bread. Spread bread with softened butter that has been blended with grated or soft cheese; then cut from loaf in slices as thin as possible.

Roll each slice tightly and place in towel, place on cookie sheet and toast in hot oven until brown, about 15 minutes.

How to Clean Meat.

Clean meat with a damp cloth instead of putting it under the faucet. This keeps the juices in the meat.

HASTY STEAMED PUDDING

Mix and sift two cups of cake flour, one-half teaspoon of salt and one tablespoon of baking powder. Stir in three tablespoonfuls of sugar and about one-half cup of milk or enough to make a very thick batter.

Butter individual molds, and fill little more than half full with the batter. Tie a piece of wax paper over the top of each mold and steam for 15 minutes.

Turn out and serve with crushed fresh or canned fruit, or with any rather rich hot sauce. If desired, a slice of peach, a teaspoon of raspberries or a few strawberries may be put in the molds before adding the batter.

RURAL DISTRICTS BUY CANNED MILK

Even Farmers' Wives Appreciate the Convenience of Canned Milk.

Time was when it was a sign of shiftlessness for a farmer not to have enough cows on the farm to supply the family with milk. Today, many farmers keep only one cow and some keep none. They have found the value of canned milk—milk which is evaporated or condensed with sugar or dried.

A case of this milk is insurance against ever being without that staple of the diet, and big distributors report that more and more canned milk of every kind is being sold in rural districts.

While evaporated milk retains the good qualities of fresh milk, it adds some of its own. All that is done to make evaporated milk is to remove a large percentage of its water. Consequently, evaporated milk is concentrated. It is also uniform; the first can is exactly like the last one.

Because the evaporation breaks up the fat globules into tinier ones, the milk will never separate; yet the milk can be whipped. Because evaporated milk is whole milk it is especially rich in flavor and makes the most delicious gravies and sauces imaginable as well as lending special richness to all dishes in which milk is used.

Condensed milk has been evaporated and has had sugar added in the manufacturing process. Accordingly, it saves in the addition of sugar and also saves time in the preparation of dishes which contain milk and sugar.

Dried milk is known the world around; for this powdery product is simply the solids of milk, from which all the water has been removed. To use dried milk, water must be added, but the amount of water can be varied just as in the other forms of canned milk.

DOES DIET COLOR THE EYE?
A Chicago Doctor Has Raised This Interesting Question.

An extremely interesting question has been brought up in the announcement recently made by a doctor in Chicago that the color of the human eye is influenced by the diet.

This doctor says that his experience in treating eyes has shown that the color can be changed by a change in food.

Whether this is correct or not so far as the general run of humanity is concerned, it does open the way of considerable speculation and for further study and research.

Whoopee McGurk Must Be Found!

The entire police force has been unable to find a trace of Dinty Moore, the man who disappeared with Maggie's diamond necklace. But they have found one slight clue. "Whoopee" McGurk, the mysterious man last seen with Dinty, was observed getting on a train, fleeing the town.

It looks as though something has happened to Dinty Moore. Perhaps poor Dinty's body is lying in some lonely spot while the murderous McGurk is feasting his eyes on Maggie's necklace in some far away city.

"Whoopee" McGurk must be found. He is the one key to the reason for Dinty's disappearance and the loss of the diamond necklace.

"Bringing Up Father" will be filled with more excitement and hearty laughter than you have had in years during the search for "Whoopee" McGurk. You can get all the thrills and enjoyment of this hilarious mystery—today and every day in the

POST-DISPATCH

WELL MADE CUSTARDS ARE REAL CULINARY DELICACIES

These Directions Will Help Amateur Cooks Make a Successful Dessert.

The eggs should be well mixed, not beaten light; the hot milk slowly added, the sugar and salt next, stirring all the while.

Custards must be cooked over moderate heat, over hot water if baked in the oven or in the double boiler. Care must be taken to cook it just long enough or it will curdle; when right thickness it coats the spoon.

In making soft custards use the

yolks rather than the whole egg. Always strain custards.

Baked Custards.

One pint milk, two eggs, four tablespoons sugar, pinch salt. Beat eggs slightly, add salt and sugar and stir until the sugar dissolves and pour the milk into the beaten eggs. If desired a little nutmeg or flavoring may be added.

Pour into buttered cups or a pudding dish, place the cups in a pan of boiling water, put the pan in the oven and bake until the custards are firm in the center—20 to 30 minutes. Try with a knife. If the knife comes out clean the custard is done.

A NEW PARTY SANDWICH

Hostesses Are Always on the Lookout for New Ideas.

A new kind of fancy sandwich can be prepared by merely slicing the bread lengthwise instead of crossing and spreading on the filler—perhaps sliced dates and chopped nuts or dates and cheese.

The whole is then rolled lengthwise and cut into slices, each slice making a dainty party sandwich, which is fluffy and different looking from the ordinary sandwich.

Spaghetti and Tomato Soup. Spaghetti heated with tomato soup and well seasoned will serve as two vegetables.

WHITE STAR BRAND TUNA FISH

A DELICIOUS DELICACY

CHICKEN OF THE SEA

The most delightful food the ocean provides... firm, tender and satisfying. Ideal for salads, sandwiches and cocktails... splendid as the main course. Rich in iodine and phosphorous, therefore a goiter preventative. The superior quality of White Star Tuna has made it America's preferred brand for more than 16 years. It is packed in the spotless kitchens of the world's largest canner of tuna.

BAKED TUNA
2½ cups of milk, ½ cup bread crumbs, 2 tablespoons butter, 1 teaspoon chopped parsley, 1 teaspoon chopped onion, salt, one 7-oz. can White Star Tuna and 3 eggs. Mix the first five ingredients and bring to a boil. Then add the finely flaked tuna fish. Break a egg into the mixture and mix thoroughly. Bake in casserole in a moderate oven for 30 minutes. This will serve 6 people.

No more slow dissolving chips or flakes

Here's a new quick way to get rich, lasting suds

Clothes emerge fresh and white with one less rinsing when Super Suds is used.

HAVE you heard about Super Suds? Only a year old, one out of every three homes in America uses it, according to a nationwide survey.

Super Suds is not a chip, not a powder, but soap in tiny, hollow beads with walls so thin they actually burst into suds the moment water strikes them. Four times as thin as chips, Super Suds is the thinnest soap made. Hence the fastest working.

Super Suds dissolves instantly and completely. The test opposite reveals this. In your dishpan or laundry tub Super Suds sends instant, rich, lasting suds all through the water just as shown in the glass. There are plenty of top suds but what's more important, a rich soapy solution down underneath.

These quick under-water suds make Super Suds wonderful in the dishpan. And because Super Suds dissolves completely, it rinses like magic. Just rinse with hot water and you can let dishes drain dry without wiping. Not a trace of soap-film remains. Your hands remain white and smooth.

*This estimate is based on 212,960 answers given us by housewives in a recent nationwide investigation.

In laundry, likewise, Super Suds washes faster, rinses cleaner. Do you wonder that women have been quick to accept this new improved form of soap? Won't you try it? The big box of Super Suds is only 10¢.

Make this test

Demonstrate for yourself how much more rapidly and completely Super Suds dissolves. In one glass put a teaspoonful of Super Suds. In another a teaspoonful of any chip or flake. Now fill both glasses half full of water of dishwashing temperature. Empty water into glasses containing soap. Instantly every bit of Super Suds dissolves, sending thick suds to every part of the water. The chips or flakes, on the other hand, yield suds but slowly. Undissolved bits of soap remain long after every particle of Super Suds has become suds.

Super Suds The big box of Soap for **10¢**

TRY A BAKED HAM KENTUCKY STYLE

Raisin Sauce Which Accompanies the Dish Is a Delicious Addition.

Most lovers of ham never really appreciate the delicacy of this meat until they have enjoyed a ham served a la Kentucky which means served with the raisin sauce which Kentucky cooks are noted for preparing.

An eight or 10 pound ham is a nice size ham for the average family.

Soak the meat overnight in cold water.

In the morning boil the meat for one hour then remove from pot and drain. Remove the rind and cover the ham with a paste made with one-half cup brown sugar, one-half teaspoon mustard, four tablespoons flour, three tablespoons of vinegar.

Put the meat in a baking dish and stick two tablespoons of whole cloves into the ham. Bake in a slow oven for about four hours.

Kentucky raisin sauce is made with one-third cup brown sugar, one-half teaspoon sauce, two tablespoons cornstarch, two cups seeded raisins, one cup water, liquor from the ham and one-half cup vinegar or cider.

Mix the dry ingredients together; add the raisins and mix well. Add the liquids and boil in a double boiler until thickened which will be about twenty minutes. Serve the ham hot with the hot sauce and the participants at the feast will ask for a second helping as sure as the world goes round.

HELPFUL HINTS

Brown Butter Sauce.

Put three tablespoons butter into a small saucepan. Place over a low fire until melted, then increase heat slightly and cook until golden brown. You will have to watch this closely for after butter melts it will brown very quickly and spoil if allowed to become too brown. This sauce has a fine flavor but is not so wholesome as melted butter.

Green Vegetable Cookery.

When cooking green vegetables, if you do not cover the pan the vegetables will retain their color.

Pear and Beet Salad.

Cover beets with vinegar for two hours, or use pickled beets. Slice beets and pears and arrange alternate slices on bed of crisp lettuce. Garnish with mayonnaise and maraschino cherries.

Buttered Spinach.

Wash spinach thoroughly and drain. Place in kettle and put on cover. Cook 10 minutes with cover on and 10 minutes with cover off. Serve with melted butter and salt.

Serve Noodles This Way.

Noodles are good cooked in a can of meat soup or just boiling salted water with bread crumbs sprinkled over the top and slipped in the oven just long enough to brown.

Flavor Green Peas.

Add a teaspoon of sugar to each quart of water in which peas, marrow and other green vegetables are cooked. This brings out the flavor of the vegetable and is very agreeable, especially in very young peas, which the French cook serves, pods and all, with cream.

Cheese Sandwich Filling.

Take equal parts of cream cheese and pecan nut meats. Mix cheese with finely chopped nuts. Add salt, enough cream to soften mixture, mustard and pepper. Mix together spreading on slices of buttered bread.

How to Make Potato Chips.

Slice potatoes very thin, cover with cold water and let them soak for two or three hours. Dry them well before frying and you will find they will be more crisp as the starch has been soaked out.

Strawberry Cocktail.

Remove pulp from grapefruit, divide in small portions. Wash and hull strawberries and cut into halves. Toss fruits lightly together and pour over grape juice. Chill before serving.

Take Your Choice.

Salt placed in cold water lowers the temperature, but salt added to hot water speeds up the boiling.

Soup from Leftovers.

Use all leftover vegetables for soups for the next day. Cream soups can be made with spinach, celery, cauliflower, carrots, etc. Peas, carrots, celery and tomatoes can be used for meat-vegetable soup.

Boiled Cabbage.

Cut cabbage into fine pieces as for cold slaw. Wash and cook in rapidly boiling water for seven minutes only, counting from the time the water starts to boil. Drain and serve with Hollandaise sauce.

Cooked Shredded Cabbage.

A different way of preparing this vegetable makes it quite a different dish. Shred cabbage as for cold slaw. Cook 3 minutes in half as much milk as you have cabbage. Then for each quart of cabbage add 1 cup of cream and 2 tablespoons flour. Season with salt, pepper, cover and boil for 4 minutes. Serve piping hot.

PINEAPPLE ICE BOX CAKE

Two dozen lady fingers or a sponge cake, one tablespoon granulated gelatin, three tablespoons cold water, two tablespoons lemon juice, one-quarter cup sugar, one-half cup stiffly whipped cream, one cup diced pineapple, one-half cup diced marshmallows, one-quarter cup shredded blanched almonds, one-eighth teaspoon salt.

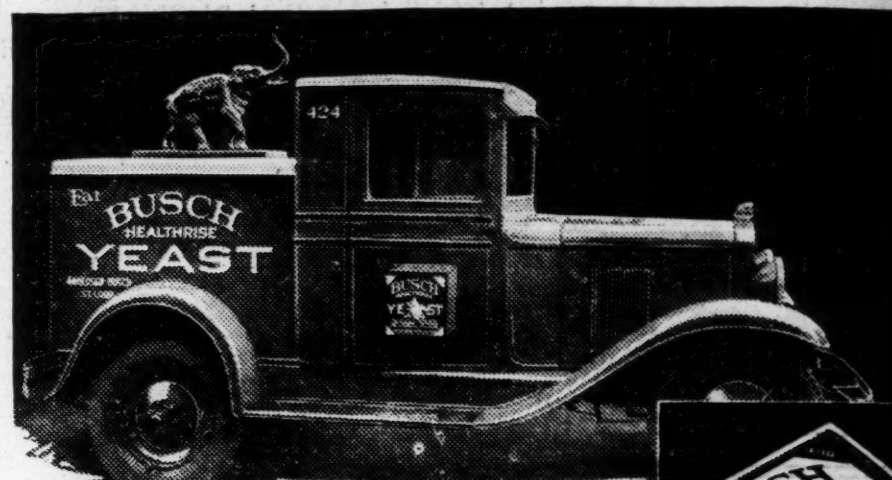

Soak the gelatin in cold water for five minutes. Dissolve over a pan of hot water. Add the lemon juice and sugar. Cool and fold in the whipped cream. Allow to stiffen a little in a cold place. Fold in the pineapple, marshmallows and almonds. Add the salt. Pour into a mold which has been lined with lady fingers. Cover the top with lady fingers. Chill until stiff. Turn out onto a serving platter and surround with whipped cream. Garnish with slices of pineapple and red cherries.

MR. N. DEMACK

Mr. N. Demack, who is the owner of the Demack Grocery Co., located at 2201 Market Street, is an ardent booster of St. Louis's Royal Patent Flour. Mr. Demack says: "My customers want nothing but St. Louis's Royal Patent and they come in my store and demand it by name, and insist on having it. I couldn't sell them a cheaper kind of flour if I tried. They know that a cheap flour is the most expensive because they must use so much more and it does not give satisfaction. That is why I sell Royal Patent Flour and nothing else. I've found out that my trade actually gets more for their money when I sell them St. Louis's Royal Patent Flour, as it gives more bakings per sack due to the best grade of wheat used and the way it is put through the mill."

175,000

St. Louisans have been won over to this wonderful new yeast that tastes good

Busch Healthrise Yeast came to St. Louis just a few weeks ago. But already, 175,000 men, women and children are eating it regularly—and eating it with real relish. Over 4,000 retailers are selling it. More than 30 motor trucks are required to take care of daily deliveries.

The reason for this amazing record is found in every cake of Busch Healthrise Yeast. This yeast really tastes good. It is more potent and quicker-acting; consequently

brings beneficial results much more rapidly. Within just a short time after you start eating 3 cakes of it every day, you feel the vigor and alertness of youth. Your appetite becomes sharp and eager. Digestion is improved and faulty elimination corrected.

Ask your grocer for Busch Healthrise Yeast by name. Eat 3 cakes of it every day for a month and see how much better you look and feel. You will be delighted.

Sardine sandwiches are much improved if a little of your favorite sauce is shaken over the sardines.

When Baking Bread.
To prevent the formation of a hard crust on top of bread brush it over with butter or oleomargarine as soon as you remove it from the oven.

START THE DAY WITH A GOOD BREAKFAST

Modern Housewives Concentrate Effort on Making Breakfast Better.

If a questionnaire were to be sent to every family living in this country asking how many really enjoyed breakfast what proportion of answers would be in the affirmative?

In so many households breakfast is a scramble with everyone in a hurry and at least one person having got out of the wrong side of bed.

The atmosphere of the breakfast table may affect the whole day and it is of real importance to at least give the opportunity of a well served, leisurely breakfast to the members of the family.

The first precaution to take is to get people out of bed in plenty of time. The second is to have breakfast ready when they come to the dining room and the third is to have food prepared and served in an appealing manner.

A customary breakfast includes fruit, cereal, bread in some form, and a drink. To this may be added eggs or meat, depending upon the need or desire for a substantial meal.

In the family without a maid, fruit with the exception of orange juice and bananas can be prepared the night before. Orange juice must be freshly squeezed to retain its best flavor. Bananas will darken if peeled and exposed to the air.

Stewed fruit is even improved by standing in its own juice. Grapefruit is delicious when cut, sections separated, honey poured on it and placed in the refrigerator over night. Berries can be looked over, hulled if necessary and chilled.

Ready to eat cereals are particularly convenient to have on hand. They permit catering to varied preferences and cause no additional work.

The most popular breakfast drinks for adults are coffee and tea. The children usually have milk.

Decorated Small Cakes.

Cut layer cake (white preferred) in small rounds or star shape. Cover with boiled icing, roll in chopped coconut or sprinkle with granulated sugar. Make flower spray on top using red cherries, cut into small pieces, and green fruit, cut to resemble leaves.

A TASTY COCKTAIL SAUCE

Recipe For a Redhot Dressing For Tasteless Cold Foods.

The following recipe for cocktail sauce may be used for clams, oysters or shrimp, and is equally good with the newer vegetable cocktails that are made from combinations of raw and cooked vegetables, thoroughly chilled.

Cocktail Sauce
Mix together one cup of tomato catsup, one tablespoon of grated horseradish, one tablespoon of lemon juice, one teaspoon of Worcestershire sauce, one-fourth teaspoon of Tabasco sauce or one-eighth teaspoon of cayenne pepper, one-half teaspoon of grated onion and about one-half teaspoon of salt or enough to season. This makes enough for six servings.

A Pretty Salad.
Place required number of eggs in top of double boiler and cover with boiling water. Set in lower part of boiler over hot water, and let water boil for 35 minutes. Remove eggs, peel off the shells, and while warm make a depression in both large and small ends with thumb and finger to represent an apple. Place a clove in one end and a small twig in the other. Color entire surface of egg with a light green and then tint each side with red. Serve on beds of lettuce leaves with mayonnaise.

Braised Carrots.
Cut carrots in thin strips or dice. Drop into boiling water to cover and cook ten minutes; drain. Place bacon fat or butter in a frying pan; add onion and cook gently without browning about five minutes. Add carrots, salt and pepper. Cook gently five minutes longer. Turn into serving dish and sprinkle with parsley.

SPOTLESS! Last Year's Suit!

Cleaned perfectly for a few cents. Two dollars saved, and a perfect job. Reliable old SAPO Elixir saves many a dollar in the course of a year. It cleans right because it is a COMPLETE cleaner—NINE properly selected ingredients—each for a purpose.

Say firmly to any druggist "I want SAPO." **9 REASONS FOR SAPO ELIXIR**

RHUBARB RICE PUDDING

Something Extremely Palatable in the Shape of a Dessert.

Rhubarb and rice pudding is made by adding two cups of rhubarb sweetened with brown sugar to two cups of cooked rice and one beaten egg. Cook this for five minutes, stirring constantly, pack into small molds, chill, turn out and serve with whipped cream or a thin custard sauce.

Jellied rhubarb is particularly delicious both in appearance and in flavor. Bake one pound of rhubarb. Soak two tablespoons of gelatine in one-third cup of cold water for 10 minutes, then dissolve in one cup of boiling water. Cool and add one-half cup of orange juice. Stir this carefully into the baked rhubarb so as not to break the rhubarb any more than can be helped.

Turn into a ring mold, chill, turn out and serve with whipped cream.

THE WAY —OF— A WOMAN

By Marguerite M. Marshall

WOMEN TEACHERS

"WOMEN manage boys by a system of bribery and corruption. Out of the six leading nations in the world the nation in which bribery and corruption are most rampant is the nation in which women are teachers. America is loaded with bribery in its very vitals, its parliamentary, its municipal, its commercial and financial life. It is more than a coincidence that in that country teaching is feminine."

Thus saith one C. Freeborough, an English school teacher (male)—you've guessed it, at the annual conference of the National Union of Schoolmasters, now being held in London. After his engaging attack upon his mother's sex, the conference proceeded to adopt unanimously a resolution opposing women as teachers.

Probably the schoolmistresses are doing so well in England, these days, that the schoolmasters are afraid of losing their jobs! Yes, we know this is a catty comment, but it is more catty than Schoolmaster Freeborough's unprovoked attack? Why? American women can fall to resent that?

Plenty of American men for that matter, will feel resentment. Plenty of American men have in their hearts a solemn remembrance of the pretty schoolmistress whom, as little boys, they worshipped; of the keen, conscientious, strict but inflexibly just woman who taught them Latin or mathematics in high school.

WOMEN manage boys by bribery and corruption, do they? Not American women—and not American boys! From the days of the Yankee schoolmarm until now, most of our women teachers have handled boys with an admirable mixture of firmness, shrewdness, tact and charm.

And, looking back to our own school days—during which, until we went to college, we had exactly two men teachers, the principals in succession of a New Hampshire seminary—we cannot remember a single schoolmarm on whom the boys "put anything over."

How pretty Miss Tilton, dignified and serene Miss Tapley, dark-haired Miss Hill with the B. U. Phi Beta Kappa key, Miss Moulton with the red ribbon in her hair, and the voice so exquisitely attuned to the reading of English poetry—how all the other gifted and charming and quietly forceful teachers we knew would have smiled at the idea that they had to manage schoolboys by bribery and corruption!

It seems to us that, for the most part, the American woman teacher does to admiration a difficult and thankless job—and has so done it for generations. Day after day she controls and instructs a roomful of children, a mere two or three of whom keep a mother's hands full on the days when they happen to be at home. She teaches them so much besides the knowledge necessary for passing examinations—she teaches morals, manners, Americanism, appreciation of books and nature and beauty and womanhood. She takes a human, friendly interest in the problems of her students—she often worries more than they about their future. Hardly a grown American but in childhood came in contact with at least one woman teacher who had a definite and vital influence for his good.

What, besides their still moderate salaries, do women teachers get? They are hamstrung by administrative red tape. They are victimized by school politics. They are ignored or criticized by parents. They are tormented and tired out by refractory children. And, in many communities, the private life and the personal habits of the woman teacher are subjected to the meanest and pettiest spying, interference and censorship.

Children's Bedtime Story

By THORNTON W. BURGESS.

PETER BECOMES EXCITED.

When'er my clarion voice you hear
Be sure that spring is very near.
—Honker the Goose.

PETER spent all day over at the pond of Paddy the Beaver. It is always interesting there and Peter always enjoys his visits. He is always sure to see old friends there, for Paddy's pond, although it is deep in the Green Forest, has many visitors.

It was just as the Black Shad-ows began to steal out across the water that Peter suddenly pricked up his ears. He sat up and listened and listened. Then a look of disappointment crossed his face. Peter sighed. "I guess I must have been mistaken," he cried. "There it is! I did hear it before! There it is!"

"There is what?" demanded Paddy the Beaver, who was swimming along just below, looking over his dam.

"Listen!" cried Peter. "Listen and you will hear it yourself!" Paddy climbed up on the dam, cocked his head to one side, and listened. Then a pleased look crept over his face.

"Honk, k'honk, k'honk. It was faint, but clear, and it was gradually becoming louder. Peter Rabbit began to dance about. "They're coming," he cried. "They're coming!"

"Yes, I do," replied Honker. "You are just as glad to see me as I am to see you. What's the news?"

"That's for you to tell!" replied Peter, dancing about. For he was very much excited. "You are news-bringer. How long are you going to stay? When did you leave the Sunny South? Are you going away up North again?"

"Wait a minute, Peter, wait a minute," said Honker. "I see you are just the same old Peter."

"Where?" inquired Paddy. His eyes are not very good, especially for seeing at a distance.

"Way up there!" cried Peter, pointing to the south. "Oh, I'm so glad I happened to be over here today!"

Flying high—so high that they looked like small birds—came Honker the Goose and his flock. Now they began to slant down toward the pond and the Green Forest fairly rang with their voices. They were all talking now, for they had reached their destination and in the air and kicked his heels together. "There it is!" he cried. "There it is! I did hear it before! There it is!"

"There is what?" demanded Paddy the Beaver, who was swimming along just below, looking over his dam.

"Listen!" cried Peter. "Listen and you will hear it yourself!" Paddy climbed up on the dam, cocked his head to one side, and listened. Then a pleased look crept over his face.

"Honk, k'honk, k'honk. It was faint, but clear, and it was gradually becoming louder. Peter Rabbit began to dance about. "They're coming," he cried. "They're coming!"

"Huh," said Peter to himself. "They're still with her."

looked like small birds—came Honker the Goose and his flock. Now they began to slant down toward the pond and the Green Forest fairly rang with their voices. They were all talking now, for they had reached their destination and in the air and kicked his heels together. "There it is!" he cried. "There it is! I did hear it before! There it is!"

"Wait a minute, Peter, wait a minute," said Honker. "I see you are just the same old Peter."

Give Attention to Guest Room Details

LOOK to the details of your guest room if you would be considered a perfect hostess. The most charming color scheme in the world will not compensate for the lack of a nail file, warns an article in the March American Home, and there are moments when a guest will appreciate a needle and thread more than a luxuriously cushioned chaise longue.

Topping the list of guest room comforts is extra bedding. Be sure you have provided enough blankets, and be sure you have them where your guests can reach them.

Next, keep on the dressing table such toilet requisites as a brush and comb, a hand mirror, a clothes brush, a nail file, a button hook, a shoe horn, and a few cosmetics; powder, with a supply of individual puffs, cold cream and blond and brunette rouge. Nine out of ten guests may not use any of these things, but the forgetful tenth will bless you.

Then there should be a fully equipped sewing basket, a box of shoe shining equipment, a box of pins, including safety pins, straight pins and assorted hair pins. Fancy boxes are so popular now that it should be easy to find one that will harmonize with your guest room color scheme.

The bedside table should hold a good reading lamp, a box of cigarettes, matches and an ash tray. Two pleasing little extra touches are a carafe of ice water and a small box of crackers. A few magazines and a current novel or two should also be provided.

For real guest comfort a desk is essential in the guest room. It should be furnished with stationery, ink, pens, blotters, stamps and the little things such as rubber bands and paper clips. For good measure put in the desk drawer a few sheets of heavy wrapping paper, tissue paper and a ball of twine. These last items may sound unnecessary, but the experienced hostess knows that they are often needed.

Closest equipment is important, too, says the American Home article. A dozen coat hangers, including ones which provide space for men's trousers, are by no means too many for the needs of some guests. You might have more. A shoe bag on the back of the closet door and a hat box on a closet shelf of convenient height are additional evidences of thoughtfulness that many guests will appreciate.

Second-class canned goods usually prove a poor investment.

THE GARDEN IN SPRINGTIME

(National Garden Bureau)

TYPES OF GARDEN ROSES

when they are to be pruned and grown for specimen flowers, should be in beds by themselves. This characteristic of roses is the reason for the garden where roses only are grown.

In the rose garden the most satisfactory showing is made by the hybrid teas or the everblooming types. They have delicate pointed buds on strong stems and brilliant colors. Ophelia, a delicate salmon flesh tint; radiance, a rosy red; Mrs. Aaron Ward, a yellow; Los Angeles, pink shaded with gold; and Kaiserin, white tinted with lemon, are some of the hybrid teas which have been voted among the best by the American Rose society.

If one grows hybrid teas in the Northern states he must be prepared to do one of two things—either to treat them as annuals and buy new plants each year, which is not expensive, or to give them perfect winter protection, without which they are likely to die in the cold weather states.

Climbing roses of the hardy types blossom in June and sometimes again in the fall; but they are so beautiful when in flower that a garden without them seems to be lacking. There is nothing to equal them for the arbor and pillar which make such striking garden accents. For abundance of

This is a rough classification and does not purport to include everything, but is sufficient to guide you in getting a start with roses.

The first thing to decide, as in the case with any flowers you may buy, is where you will put them in your garden. The rose shrubs will grow in your shrubbery border and some of the hybrid perpetuals may be grown there if you do not wish to prune them and try for specimen flowers but desire rather a great bush with many and small blossoms.

But other types of roses do not like close company; they object to the roots of trees and shrubs and thrive best in beds by themselves. Hardy climbers do well climbing on lattice fences, against building walls and in perpetual borders, where they are often grown, but the hybrid teas and the June roses.

"THE MOST REMARKABLE ROUGE I'VE EVER KNOWN."

"IT IS Zanibar Rouge. It will blend into any shade I wish—dahlia pink to dahlia red. It is so natural looking the perfect rouge for daylight or night."

Blades

by George Barr McCutcheon

INSTALLMENT XVII.

HE felt his cheeks redden as he shook his stockings from the tree at Mrs. Porteous's bidding. They had not yet taken their seats at the table and there was no servant present to witness the little ceremony.

Thrusting his thumb and forefinger into the opening he drew forth a square package neatly wrapped in tissue paper and tied with a red ribbon. His host and hostess watched him with amused eyes as he untied the ribbon and opened the box, revealing a brand-new \$10 gold piece—the untarnished eagle of his land.

"Jimminy Christmas!" was his most fitting exclamation. "It will last a great deal longer than will my dear Barnaby," said Mrs. Porteous. "Long after you are dead and gone that gold coin will still be in the land of the living. And as long as you have it in your possession, you will never be completely broke. Accept it with our best wishes. It is rather heavy but at the same time it is a handy pocket piece."

"Call it your lucky piece," added Mrs. Porteous. "Keep it by you always. If you live to be an hundred, which is a long, long time—it may serve even to remind you of us. He mumbled something about doing his best to live to be more than a hundred—he hadn't given it a thought before, he confessed—if for no other reason than to put his dying day off as long as it was humanly possible.

"And if I should die of starvation in the meantime," he went on whimsically, "people will wonder why I let such a thing happen while I still had a \$10 gold piece in my pocket."

"That's very pretty. Even so, it couldn't keep a hungry wolf away from your door very long. Mr. Blades," said she. "Ten dollars is really nothing nowadays."

He put his hand on his breast and bowed. "You have made me one of the richest men in the world, Mrs. Porteous," he said, quite simply.

"And when you add the huge Dimmesdale legacy to this gigantic nest-egg, Barnaby," said Mrs. Porteous, with a twinkle, "you will be as much of a by-word as Midas or Croesus."

"I'll try to keep my head, sir. That's more than a lot of kings were able to do. But there are two more stockings on the tree, Mrs. Porteous. Are you going to see what's in 'em?"

"We know without looking," said she, with her rare smile. She looked at her husband. For a moment their eyes met and held communion.

don't believe there is the slightest doubt that you are Prime Dimmesdale's heir. Can you arrange to get away for a day or two after the holidays?"

Barnaby's smile was rather a sheepish one. "Without the slightest effort," said he. "I expect to be as free as air after the first of January. Before, as a matter of fact, Mr. Skipwell handed me my unconditional release yesterday as a Christmas present."

"You men,—you've been let out!" exclaimed his host, seriously. Mrs. Porteous's soft eyes seemed curiously to snap.

"Dismissed on Christmas eve!" he cried. "How perfectly abominable!"

He sniffed the delectable, permeating aroma arising from the plum pudding that had been put down before him.

"Ah, but it's an ill wind that blows no good," Mrs. Porteous. Just think,—if I hadn't been bounced yesterday the chances are a hundred to one I'd be having my Christmas dinner now with the Skipwells and not here with you. A most gracious wind, indeed, blew me hither. If you don't mind—I mean if it won't bore you—I'd like to tell you the story of the Picaunish Peanut and the Proud Plutocrat."

If he had the slightest feeling of cancer toward Mr. Skipwell it was by no means manifest in the account that followed. On the contrary, he had them laughing before he was halfway through with it,—and feeling rather sorry for the ambitious gentleman whose plight left him no other alternative than to discharge, for the good of the service, the upstart whose wages he had so generously raised, also, according to his lights, for the good of the service.

"Well," said Mrs. Porteous, "you couldn't have been discharged at a more opportune time. Barnaby, when all is said and done, there's absolutely nothing in the way of your getting off for a couple of days after the first."

"Absolutely nothing," said Barnaby cheerfully.

"We'll go to Boston on Monday or Tuesday after New Year's day, and stay as long as necessary."

"Certainly. I am your attorney, am I not? Not a word, now, is settled. I am glad you can get away without completely upsetting Mr. Skipwell's business. What are you laughing at?"

"I'm sorry. Couldn't help it. I—just happened to think of something—er—funny. Is my face straight now? It ought to be because I've just thought of something serious. Even though I may turn out to be heir to the entire Dimmesdale estate I've still got to be on the look-out for a job. A job is something I can't very well get along without, you know, and I've managed to get along fairly well so far without a fortune—facial or otherwise. A legacy, large or small, is a very nice thing to have, but I'd hate like fury to starve to death while I'm waiting for it."

Mr. Porteous was silent for a while, frowning reflectively, his eyes fixed on Barnaby. His wife, in her gentle, curious, urgent voice, finally broke in upon his meditations.

to say in his last letter, Gregory," interrupted Mrs. Porteous, her eyes sparkling like those of an excited child.

"Suppose we wait till we've finished our dinner, my dear. Shall we have coffee upstairs? Good! Judge Smith's letter won't be half so unpalatable if we take it with hot coffee and a good cigar in front of a blazing wood fire."

"It sounds sinister," remarked Barnaby.

"Don't forget that it is in your power to ignore the matter altogether. Nothing is sinister, my boy, that can be turned aside with a laugh."

Mrs. Porteous left them and mounted the stairs slowly and without assistance, asking them to follow when they were ready. Again Barnaby felt strangely humiliated. He knew he didn't have any such pluck as this.

When they joined her in the living room, she inquired if he minded her being present while they discussed—to her—fascinating situation that lay ahead of the heir-presumptive in case he desired to press his claim. She professed to be thoroughly interested. Mr. Porteous acknowledged that she knew all about it through him, and Barnaby absolved him at once by inquiring:

"And why not?"

While waiting for the coffee, the lawyer produced from a drawer in a rare old Colonial desk a thick envelope containing a number of letters and legal-looking documents.

Continued Tomorrow. (Copyright, 1935.)

The Dog's Bath. Puppies should be over five months old before they receive their first tub bath. Baths up to this time are weakening and subject the puppy to disease. However, a brushing every day is a surprising help. When out of the puppy stage the dog should receive a daily brushing and a bath once a month. Too many baths are injurious to the dog's skin, frequent-

ly causing eczema in summer and chapping the skin in winter, which results in sores.

Scrubbing brushes should be turned bristles downward when not in use so the water will run out of them and they will dry. If laid on their backs the water will soak into the wood and loosen the bristles.

WALL STREET
STOCK LIST
IRREGULAR
TRADE SLOW

Many of the Leading Industrial Shares Record Loss on Week-End Profit Taking.

FURTHER SELLING
IN COPPER GROUP

Quiet Buying Continued, However, in Wide Assortment of Specialties—For Products a Feature

By the Associated Press.

NEW YORK, April 12.—Extremes characterized today's session of the stock market. Movements were extremely irregular, but many of the leading industrial issues lost ground on heavy week-end profit taking.

Although definite signs of improvement appeared in the closing days of the week, Wall Street was still disturbed by the possibility of a temporary stringency against the heavy midday turnover of funds. Heavinesses of some of the popular industrial issues attributed to liquidation by operators who had bought stocks for a turn earlier in the week.

Further selling came into copper shares as a result of recent downward readjustment in metal prices. Whereas all of the leading copper issues making new high records a few weeks ago, when copper prices rose to 24 cents a pound, Cerro Pasco today declined to a new level for the year and most others sold 10 to near 35 percent below the year's high.

Steel is sold.

Despite the fact that stockholders of the United States Steel corporation are expected to receive valuable "rights" in connection with the new stock offering scheduled next week, the stock was sold today by traders who acted on the theory that the market already had discounted the good news.

Sharp recessions took place in the high-priced issues such as American Express, Consolidated Solvents, Wright Aeronautics, Westinghouse Electric, Union Pacific and International Telephone.

Quiet accumulation continued, however, in a wide assortment of specialties. Motor Products marked up more than 10 percent above last night's close and Borg Carburetor recorded a high record. Oppenheim and Hershey Chocolate companies and preferred also sold at peak prices. Food shares gave fairly good demonstration of strength, with Austin Nichols, preferred and Postum in the forefront of the advance. Revival of the strength in international Combustion was attributed to a quarter to William C. Durant, sales for Europe next week.

Closing stock prices and other tables and market data will be found on pages 6 and 7.

HOOVER OK'S PRINCIPLES
OF HOUSE FARM

Haugen Says Committee Will Change as Suggested by President.

By the Associated Press.

WASHINGTON, April 12.—Identified Hoover was represented today as being in accord with general principles of the new relief bill as drafted by a subcommittee which presented its plan yesterday for study.

Chairman Haugen said members of the subcommittee breakfasted with the President this morning that although chief executive had suggested several minor changes in the bill, the general principles outlined in the bill had met with approval.

Haugen said the bill would be revised to embody the suggestions of the President at a meeting of the full committee.

Secretary of Agriculture Walter H. Newton, the department's executive assistant, attended the breakfast. In addition to Haugen, the House subcommittee members were Farnell of Iowa and Kinchloe of Kentucky.

The President expressed gratification at progress made both houses toward preparing a farm bill and freely exchanged comments with the delegation.
